American Railroad Journal.

New York, Saturday, January 1, 1876.

Railroads of the United States, January 1, 1876.

With the incoming of the new year we present our readers with our usual tabulation, showing the length of railroad in operation and the cost of construction and equipment thereof to date. It is a subject that never fails to interest—it is also one of importance, especially to those whose money is locked-up in the keeping of anonymous companies. The extension of the system of railroads we already have improves the business prospects of all, and in opening up new markets to business each successive rail laid down becomes a benificent instrument in the nation's advance to greatness and wealth. The railroad, indeed, is a wonderful invention, and in connection with the steam-vessel and electric telegraph, the fruition and cap-stone of human ingenuity. To understand the value of these agents of intercourse and commerce, we need only place ourselves (in imagination) fifty years back in the records of time, when the common earth-road was the only line of travel, and the sail ship or canal boat the usual carriers of our commerce. These—the railroad, the steamship and telegraph—have indeed annihilated time and space, and opened to man new worlds with which they have made communication marvelously convenient, safe and rapid.

The first railroad built in the United States was the Granite Railroad, connecting the quarries in the town of Quincy, Mass., with the Neponset River, a distance of about three miles. It was chartered March 4, 1826, and opened for use in April, 1827. The purpose of this road was patriotic, its main object being the supply of granite for the Bunker Hill Monument. Three years later several other roads were partially completed, and the reign of the locomotive steam-engine inaugurated. Among the first steam roads opened were the Baltimore and Ohio, the South Carolina, and the Mohawk and Hudson, portions of which were operated by steam-power in the latter half of the year 1830. The total mileage in operation at that date was about 40 miles. The success of these roads satisfied the public mind that the new means of transportation was a necessity to the country, and they were looked upon as the most efficient instruments for settling and developing the vacant interior. Hence their progress was rapid. In 1840, ten years later, there were, chiefly on the Atlantic Slope, about 2,800 miles. By 1850 the lines had increased their length to 7,500 miles, of which but a small portion was located in States west of the Alleghenies. During the succeeding decade the great lines westward from the Hudson, the Delaware and the Chesapeake, were brought into use, and the rail had been spread over a large part of the country lying eastward of the Mississippi, the total length in 1860 being about 28,800 miles. In the intervening decade the Mississippi had been reached and crossed, and railroads built in Missouri (chiefly by State loans,) and Iowa. Kentucky, Tennessee (State-aid,) and the States south to the Gulf had been liberally furnished with railroads. The Civil War, from 1860 to 1865, brought construction almost to a stand-still; but during even this period of agitation the national legislature found time to plan and encourage the construction of those great works which now connect us with the Pacific Coast; and through the agency of which our commercial connection with China and Japan has been so successfully developed. In the decade 1860-'70 the increase of railroads measured 20,000 miles, and at its close we could count 48,860 miles. At this date we were building at the rate of 5,000 to 6,000 miles a year, and the rate was maintained to the fall of 1873, when the September money-panic occurred, which speedily arrested the work in hand and brought financial ruin to several of the great works then in progress. During the last two years (1874 and 1875,) construction has been almost suspended, except on lines of immediate necessity and well-supported by foreign capitalists. There has, however, been a large amount of work done in improving and completing existing great lines, and laying down additional tracks for the accommodation of their growing business. But all further awaits the return of more prosperous times.

The year 1876—the Centennial of the Nation's birth—finds us with a net-work of railroads extending from the Atlantic to the Pacific, and from the great lakes to the Gulf of Mexico. The length in operation January 1, 1876, is 76,756 miles, and to this must be added for double tracks and sidings 14,861 miles—making the entire track in use 91,617 miles. The cost of this congeries of railroads has been $3,941,333,197, or at the rate per mile of line of $51,369. The following table shows the length and cost in each State and Territory:

RAILROADS IN THE UNITED STATES, JANUARY 1, 1876.

STATES, ETC.	Track in Miles.—Main and Branch.	2d &c., and Side Track.	Total Track.	Cost of Road, Equipment, &c., &c.
Maine	962.28	117.92	1,080.20	$41,311,209

Pacific States	3,613.58	291.34	3,904.92	225,931,645
Grand Total, January 1, 1876	76,756.12	14,861.08	91,617.20	$3,941,333,197
Grand Total, January 1, 1875	75,006.28	13,844.34	88,8C0.62	3,874,590,277
Increase during the year 1875	1,749.84	1,016.74	2,766.58	$66,742,920

The progress of railroad construction in the United States is exhibited by annual gradations in the following table:

Year.	Miles.	Increase.	Year.	Miles.	Increase.
1827	3		1852	11,027	2,438
1828	3		1853	13,497	2,470
1829	28	25	1854	15,672	2,175
1830	41	13	1855	17,398	1,726
1831	54	13	1856	19,251	1,853
1832	131	77	1857	22,625	3,374
1833	576	445	1858	25,090	2,465
1834	762	186	1859	26,756	1,666
1835	918	156	1860	28,771	2,015
1836	1,102	184	1861	30,593	1,822
1837	1,431	319	1862	31,769	1,176
1838	1 843	412	1863	32,471	702
1839	2 220	377	1864	33,860	1,389
1840	2,797	577	1865	34,442	582
1841	3,319	522	1866	35,351	909
1842	3,877	558	1867	36,896	1,545
1843	4,174	297	1868	38 822	1,926
1844	4,311	137	1869	42,272	6,650
1845	4,522	211	1870	48,860	6,588
1846	4,870	348	1871	55,535	5,675
1847	5,336	466	1872	61,647	6,112
1848	5,682	346	1873	68 158	6,511
1849	6 350	668	1874	73,403	5,245
1850	7,475	1,125	1875	75,006	1,804
1851	8,589	1,114	1876	76,756	1,750

In the category of these tables we do not include the properly called industrial railroads, or those used solely in mines and factory districts. These are private roads, generally of short length and not used for the public transportation of persons and merchandise. In the aggregate, however, these are important, and would add materially to the length if reported among the commercial roads of the country.

Neither do we include the city passenger railroads. These also would add largely to the aggregate. They are now in operation in every city and town of importance, and also in country places where population and workshops are unusually distant from each other. In all cities and other places where they are used, urban and sub-urban passenger cars have become indispensable to the economy of the business as well as of the domestic interests of the inhabitants. Probably the whole length of city line now built exceeds 2,000 miles.

Among the communities which have most distinguished themselves in railroad construction during the year 1875, are the States of California and Nevada, and the Territory of Utah; also the States of New Jersey, New York, etc. In the first named the narrow gauge roads have been wonderfully developed, and appear to have been very successful, especially in the more mountainous districts. The longest of these, and the longest, with one exception, in the United States, is in Nevada—the "Eureka and Palisade"—which has a length of ninety miles. The "Denver and Rio Grande" alone exceeds this in length, extending, as it does, from Denver to Pueblo, 120 miles, with a branch to Carson City of 43 miles. In other parts of the Union the narrow gauge railroad has been more slowly adopted; but in several States a considerable mileage has been already built, and in nearly all new lines have been projected.

It would be impossible to note with accura-

cy the amount of rolling stock in use on the railroads in operation. An attempt in this direction, however, has been made, and with the following results:

Sections.	Locomotives.	Cars. Pass.	Freight.	Other.	Total.
N. E. States..	1,579	2,417	29,120	1,322	32,859
Mid. States..	4,872	5,591	164,502	2,713	173,806
S. E. States..	1,107	1,271	12,897	922	15,090
Gulf and S. W. States.....	1,309	922	16,102	797	17,821
Interior, E...	5,040	3,560	112 269	1,872	117,701
Interior, W..	1,690	1,270	29,300	1,400	31,970
Pacific, etc...	597	265	5,980	475	6,720
Total....	16,194	15,296	370,170	9,501	395,967

This enumeration, in the total, gives to each one-hundred miles 21.10 locomotive engines; 19.08 passenger cars; 482.27 freight cars, and 12.39 other (construction, working, repair, etc.) cars. The total of all cars is 513.74 to the hundred miles.

More in this country than in any other the convenience and safety of railroad locomotion has been studied and utilized. To the perfection of these pre-requisites of highest benefit to the world, inventive genius has been directed with such great success that accident to trains is scarcely probable. The substitution of steel for iron in the rail, and the improvement in mechanical appliances for the movement and transfer of trains, has conduced to a wonderful accession to safety. Where danger is latent the telegraph discloses it with intelligence and dispatch. The duplication of tracks on the great lines is progressing rapidly, and ample means by turnouts, sidings, etc., are largely and increasingly provided. With regard to rolling stock, great safety is acquired by means of patent brakes of various kinds, so that moving trains can now be stopped almost instantly and collision be modified or altogether prevented.

Among the inventions included in this category, we may mention as being the most efficient in their kind, the "Miller Trussed Platform," with compression buffers and automatic couplers; and the "Wharton Safety Switch." The first-named reduces concussion, where an accident has occurred to a minimum force, and entirely prevents that most dreaded occurrence known as the "telescoping" of the cars in train. The Wharton Switch is also automatic in its operation, and is sure to preserve a clear connection between diverging tracks. Both these valuable inventions are in use on many of the great roads of the country, and have proved to be perfect in their design and execution.

These and other inventions speak well for American genius, which has conquered so many difficulties and which is destined in the future to greater successes. There is yet much to be accomplished in this direction, and the requirements of pleasant and safe locomotion are increasing with the progress of esthetic civilization. The best test of the high perfection to which the railroad and its moving engines have been brought in America, has been the acknowledgement by the world of the grand results, and their adoption by all civilized nations. Bessemer steel we owe to Europe; but the various brakes; the automatic couplers; the safety switch; the palace and hotel cars; the sleeping car; and many other of the conveniences of travel and transportation are American.

Here, as in all other countries, the railroad has worked a wonderful revolution. It has built up an empire beyond the Alleghenies in much less than the third of a century. It has developed a savage country, which is now overspread by a civilized population counted by millions; and an internal and external commerce of vast dimensions. Many cities that had no existence fifty years ago, or even twenty-five years ago, are now counted among the largest, most industrial, and wealthy in the world. Cincinnati, St. Louis, Chicago, &c., are apt illustrations; and on the far Pacific shore, San Francisco. In manufactures and commerce each of these vies successfully with cities that count their ages by hundreds of years. In the manufactures connected with railroads, though now under a passing cloud, immense numbers of men are employed, and vast millions of money are invested. The mining of coal, commenced fifty years ago, is now immense, and the product used largely on railroads and in the manufacture of iron. The annual product has reached 45,000,000 tons, of which one-half is anthracite and one-half bituminus. About 2,000,000 tons of iron are produced, and the other useful minerals in large and increasing abundance. That this change in circumstances is due chiefly to the railroad is obvious; as since its introduction as an instrument of progress the general industry of the civilized portion of the world has been multiplied ten times. A few facts in relation to the United States, and their progress under the sway of the railroad, will demonstrate this great fact:

	1830.	1875.
Railroads (miles).....	41	76,756
Settled area (sq. miles).	630,000	1,350,000
Population.....	12,866,000	40,000,000
Urban population.....	864,000	8,350,000
Exports to foreign countries.....	$59,462,000	$629,133,100
Imports from foreign countries.....	$49,575,000	$550,556,700
Coal produced (tons)...	632,750	45 000,000
Iron produced (tons)...	500,000	2,000 000
Cotton (bales).....	1,000,000	4,500,000

This table shows grand results. In 1830 it cost as much time and money to transport a passenger or ton of freight to Buffalo as it now does to transport these units to San Francisco! In fact there was at that date little intercourse between the east and west—the whole interchange being then by canal, earth-road and natural water-ways, as lakes, rivers, etc. Beyond the Alleghenies population was sparse and almost isolated. Not a railroad existed in all the western country. Buffalo, Pittsburg, Cincinnati and St. Louis were small but important places. Chicago had not commenced its career. St. Paul was a myth! San Francisco the seat of a Catholic mission! Multitudes of men yet living can bear witness to these facts. They have watched the wonderful progress and noted the result.

In England the public railroad commenced its career in 1825, just half a century ago. The chief actor in its creation and utilization was George Stephenson; and the scene, Darlington. On the 27th of August of the year named, the Stockton and Darlington Railroad (23 miles) was opened for traffic. The semi-centennial of this event was celebrated with great eclat in August last, and was participated in by all the great lights of railroad life. Many, who at that early day had scoffed at the idea of steam travel and transportation, were there to rejoice that their adverse auguries had been frustrated, and make just acknowledgement of the fact that the railroad was a success.

With regard to the railroad prospects of the nascent year it is not wise to predict. We have already passed through a two-years' period of stagnation in railroad building. In that brief period much, however, has been done towards recovery from the pressure of the financial spasm of September, 1873; and companies having re-organized their affairs will be better able to cope with difficulties and go ahead. Abundance of money and cheap labor have already asserted their powers, the effects of which will probably lead to results that otherwise could not be attained. Good speed to the railroad and its friends!

The Western Links of the Canada Pacific Railway.

There can be no reason to doubt that sooner or later railway communication will be established over Dominion territory from Ocean to Ocean. But if it be true, as reported, that the Dominion Government proposes to pay British Columbia $750,000 as compensation for the delay in completing that communication, it may be taken for granted that a considerable number of years must pass away before the Western links of the Canada Pacific shall be constructed. It may be best that this should be so, if only no serious trouble on that account be caused in British Columbia.

It must be admitted that it will be a long time before a railway through British Columbia, from the Rocky Mountains to the Pacific coast, will be needed for local purposes, and it is to be lamented that as yet no route for such a road has been found traversing the Cascade range, except such as can be made practicable at only an enormous cost. It is true, indeed, that a completed Canadian trans continental railway is required to bind together closely the Western and Central portions of Dominion territory with each other and with the Eastern Provinces, and that such a road would be likely to constitute one of the grand highways of commerce between Europe and Asia. Still no candid intelligent person will deny that it is a matter of the first importance that no serious mistake for want of exhaustive explorations be made in the route for the road through the sea of mountains to be traversed in British Columbia, and that the Dominion resources be not too heavily taxed through a hasty construction.—*St. John News.*

☞ The Somerset Railroad, just completed to North Anson, Me., was formally opened on the 22d ult., by an excursion to Madison, Norridgewock and West Waterville,

The 32d Parallel Pacific Railroad.

The following are the essential parts of the offer of the Southern Pacific Railroad Company (of California) through its Attorney and Agent, Mr. C. P. Huntington, to carry this great work to completion without the aid of a subsidy in bonds:

If the legislation on the subject of the Thirty second Parallel Pacific Railroad is to be again disturbed or amended, it would seem only justice that the equitable rights of the Southern Pacific Railroad Company in relation to the matter should be considered. In a few months, at most, they will have completed their road to the Colorado River, near Fort Yuma, and within easy reach of the rich mines of Central Arizona, while the nearest of the Eastern connecting roads is fully 1,200 miles distant, with no work being done on them. The Southern Pacific, like the Central Pacific Company, have hitherto regarded their field of operations as belonging exclusively to the Pacific water shed of the continent and have resolutely abstained from participation in any roads in the Mississippi Valley or Eastern connections.

The total distance between the eastern boundary of California and the great trunk line of Texas, connecting Galveston with St. Louis, is in round numbers 1,200 miles. There are, I understand, two or three corporations having the authority and determination to extend railroads across Texas to the Rio Grande, and either of them would doubtless be able to do so with a slight assistance from the United States or the State of Texas. Now, if Congress, in its wisdom, in view of the many and serious objections to embarking the General Government in the policy of guaranteeing or indorsing the bonds of private corporations, shall decline to accept the propositions now made before both branches, and at the same time, in view of the many advantages to be derived to the military and other departments of the Government and of the many benefits to the whole country, and particularly to the southern half of it, by the earliest completion of the Thirty second Parallel Pacific Railroad shall nevertheless desire to promote that great work of internal improvement, it can be accomplished without transcending or overstepping the authority and precedents of its legislation, and without calling on the public treasury at all. The Southern Pacific Railroad Company authorize me to say that if the act of March 3, 1871, granting lands on certain conditions for the purpose (with which conditions one of the companies has failed to comply) is so amended as to allow them to build the line, or so much of it as lies through the public domain in the Territories of New Mexico and Arizona, they will promptly construct the same for the land grant attached thereto.

The Southern Pacific Company will, notwithstanding the more difficult and forbidding character of the country, engage to build its half of the interval; or, if required, to accommodate the necessities of the several Texas corporations who desire to build westward, will build until a meeting point is reached, on or near the thirty second parallel of latitude, at the crossing point of the Rio Grande, or at a point not further east than the easterly boundary of the Territory of New Mexico, at the 103d meridian of longitude. This latter locality has already been designated as a suitable point of convergence for the several lines projected from St. Louis on the one side and New Orleans or Galveston (via Austin) on the other side, while it is in direct line for the branches to Vicksburg and Memphis and their connections through the Southern States. The importance, both for military and commercial uses (especially if it is to be done in part by the aid of the Government,) of establishing the road on the shortest portage between the navigation of the Pacific and that of the Gulf of Mexico, within the domain of the United States, should not be overlooked; and in this view the location of the main trunk line from New Orleans via Houston and Austin to the point of junction in Western Texas entitles it to even greater consideration than the line from Shreveport, while its construction in no way lengthens or interferes with the more northerly forks.

At the California end the line is already provided with a short connection with San Francisco, the great port and emporium of that coast, and also with the port of Wilmington, on San Pedro Bay, a point 500 miles southeast of San Francisco, and by far the nearest harbor, by rail, to the Gulf. Nothing better or more suitable to the commerce of the country need be desired. But if Congress, in its superior judgment, determines to include also the harbor of San Diego, in the extreme southeast corner of our frontier, as one of the termini of this Pacific Railroad, I am authorized to state, after careful surveys by their engineers, that this can be best done by a branch line, which the Southern Pacific Railroad Company will also undertake to construct, within reasonable time, upon the same terms and conditions as the central portion of the line.

The First Railway.

The 27th of September, 1875, will be long remembered in South Durham. It was the greatest gala day Darlington had ever known. Fifty years before, the first railway on which the locomotive engine ever traveled had been opened in the district, and the jubilee of the railway interest which has developed into such colossal proportions, had come. A new force, the power of which was but feebly estimated by the most sanguine, had then arisen, creating new industries and developing old ones a hundred fold, calling towns and villages into existence, and changing the whole face of the country. The little Stockton and Darlington Line, opened on the 27th of September, 1825, was the herald of this revolution, and the people of the North felt it was fitting that they should celebrate, with all the emblems of local rejoicing, the greatest landmark in our modern industrial history. The idea of celebrating the fiftieth anniversary of the opening of the Stockton and Darlington Railway originated with the Directors of the Northeastern Company, whose system is the direct result of the little line. Its twenty five miles, constructed with a capital of £125,000, and bringing in a revenue of £18,305, owning two locomotives, one carriage, and a few wagons, was the nucleus of an agglomeration of local and other lines now extending over fifteen hundred and eight miles, and having an authorized capital of £57,382,804. The one engine which first started has grown into thirteen hundred, and the passenger carriage and wagons have developed into seventy seven thousand nine hundred and forty nine carriages and wagons of all sorts and sizes, which if spread out in a straight line would extend over nearly two hundred miles. The success of the Northeastern system was heralded by that of its first progenitor, which paid a dividend the first year, and after ten years was returning fourteen and fifteen per cent. to its shareholders. Like the rest of the railways, the Northeastern has had its evil days; but it has long since taken its place as one of the best paying and best managed lines of the United Kingdom. In voting £2,000 to help to commemorate the opening of the first railway, the directors of the Northeastern were, therefore, only mindful of their due responsibilities. Their suggestion was warmly seconded not only in South Durham, but throughout the North of England, and the interest of the railway jubilee spread far and wide. It would have been strange had it been otherwise. In fifty years the railway system, of which the foundations were laid in the Stockton and Darlington, has attained enormous proportions, and by its conquests over time and space, has, with its relative, the electric telegraph, revolutionized the manufacturing, commercial, and social conditions of the civilized world. In Great Britain the twenty five miles of 1825 had become in 1874, more than sixteen thousand miles. The same year the United States could boast of over seventy four thousand miles. All the countries of Europe, in greater or less degree, have followed suit, and the iron horse and iron road have won further triumphs in Asia and South America. The railways of the world embrace a total mileage of more than one hundred and sixty four thousand miles, the construction of which has been estimated by Sir John Hawkshaw to have cost £3,200,000,000, or about four times the amount of England's national debt.—*Good Words.*

Boston and Albany Railroad.

The receipts and expenditures of this road for the financial years which terminated September 30, 1874 and 1875, have been as follows:

Receipts:	1874.	1875.
From passengers....	$3,015,376 86	$2,972,454 65
" freight.....	5,283 599 21	4,328,130 74
" mails, etc.....	664,151 80	569,368 12
	$8,963,127 87	$7,869,953 51
Expenses:		
Repairs of roadway.	$1,571,701 10	$1,091,196 08
Repairs of engines..	599,455 73	306,022 95

Less amount charged to contingent fund		5,957 08
		$3,553,874 39
Add premium on bonds and stock, and addition to sinking fund....		79,713 80
Total surplus for 1875....		$3,633,588 19

Compared with the previous year, the gross receipts of 1875 show a decrease of $1,093,174 36, with a decrease in expenses of $1,176 308 80, making an increase in net income of $83,134 44. The President in his report says:

While the general depression in the business of the country, alluded to in our last report, has left its mark during the past year on the balance sheets of all our railroads, we cannot but congratulate the Stockholders of this Corporation that their property was so well prepared to meet such an emergency.

That we are able to give you at this time so satisfactory a report, is due in no small measure to the large accumulation of surplus profits, which have been from time to time invested in substantial additions to the property of the Corporation, and represent a portion of the cost of the road. From all of these investments we are now deriving direct income, and great incidental advantage in the reduced cost of maintaining a property so thoroughly built and equipped. A careful review of the traffic of the year, while showing a considerable fall off from that of 1874, establishes also the fact that we have suffered not so much from a want of business as from other exceptional causes. Thus, by an examination of tables A, B, and C, it will be found that the reduction in the volume of business bears no proportion to the falling off in cash receipts.

This result is due exclusively to the unprecedented competition that has prevailed during the greater part of the year, by which the rates of

transportation to and from the West have been forced to the lowest point known in the annals of railroading. But these tables show also the encouraging fact that there has been a gain in the number of way passengers, more than sufficient to cover the loss on the through, making the total number of passengers carried more than in any former year. The freight tables also show an increase over last year of through merchandise of about forty thousand tons, the gain being about equally divided between East and West bound freight. The tonnage from Boston to Albany and points beyond, is also the largest that we have ever reported. The decrease in the total number of tons carried as compared with 1874, is about nine per cent, while the mile tonnage, or number of tons carried a mile is but three per cent less. The improvements in progress at the date of making our last report, at East Boston, Worcester, Springfield, and Russell, have all been completed, and the three first mentioned have become sources of regular income. Four thousand additional tons of steel rails have been laid, and fifteen hundred feet of iron bridging substituted for wood. New locomotives and cars, more than sufficient to make good any depreciation have been built, and our roadway, rails, bridges, rolling stock, buildings and machinery, were never in so good a condition as at the present time.

Among the works calling for large outlays of money which have demanded the attention of the Board, everything seems now to have been completed, except the proposed improvement in the passenger accommodations at Boston. Fortunately we can enter upon this work without taxing either our income or credit for the means to carry it out. The greater part of the land requisite for the purpose has already been bought and paid for, and we have property no longer needed for the uses of the Corporation, which will furnish ample means for the completion of this work.

It would hardly be proper, perhaps in view of the experience of the past, and our hopes for the future of this country, to speak of any Railroad as a completed enterprise, but so far as the needs of the present or probable requirements for the future demand attention, we believe that your property is in a condition to challenge comparison with that of any railroad in the country.

While we have dwelt with some satisfaction upon the material strength and prosperity of the Corporation, enabling us as it will, to meet every just demand of our patrons, and to afford to the public the highest grade of service at so low a cost; it will be a source of gratification to you also, to know that the financial condition of your property was never so well assured as at the present time. The past year has been one that could not fail to test the real condition of every business enterprise. Mindful of this fact, your directors have watched with unusual care the operations of the road, and have endeavored to regulate its affairs with a true regard for the rights and interests of all concerned, the public, the stockholder and the employe. At the close of the year they made a thorough inspection of the road, and after a careful examination into its material and financial condition, are led to the conclusion that with faithful and judicious management, is must continue to be an investment from which its owners may expect in the future, as in the past, their regular dividends.

The company have 65 passenger and 174 freight locomotives; 166 passenger, 47 baggage and postal, 4,562 merchandise, and 509 other cars. Also, 98-234ths of 55 passenger, 3 express, 5 post office, and 10 baggage cars of the New York and Boston Express Line.

The number of miles run by locomotives with passenger trains, was 1,887,340; with freight trains, 3,438,576; with gravel trains, etc., 83,400—total, 4,909,216.

The number of through passengers carried, was 66,261: way do., 5,898,216—total 5,964,477. Number of passengers carried one mile, 119,720,916.

The total number of tons moved was 2,439,472, of which 587,150 went west, and 1,872,322 east. The through tonnage westward, from Boston to Albany, amounted to 121,414; do. eastward, 621,716. All other tonnage westward, 445,786; do. eastward, 1,250,606. Equivalent number of tons carried one mile, 282,309,789—equal to 1,411,549 tons carried over the whole road.

An aggregate of 402,030,705 passengers or tons of freight carried one mile in 1875, against 412,735,655 passengers or tons of freight carried one mile in 1874.

The cost of transportation of each passenger and each ton of freight one mile this year has been 1.114 cents, against 1.227 cents in 1874.

It will be observed, by reference to the balance sheet, that the income or profit accounts have been consolidated. The sinking fund profits amounting to $1,677,912 33, together with the premium on stock and bonds ($263,037 03), and premium on bonds and stock and additions to sinking fund realized this year ($79,713 80), have been united into a reserve fund, to which a sum sufficient to carry the same to $3,000,000 is added from the contingent fund, leaving the contingent fund $633,588 19.

TRIAL BALANCE, SEPTEMBER 30, 1875.

President.—C. W. CHAPIN, Springfield.

Vice President.—D. WALDO LINCOLN, Boston.

Directors.—C. W. Chapin, Ignatius Sargent, Moses Kimball, Ginery Twichell, D. Waldo Lincoln, Henry Col[illegible], George O. Crocker, Edward B. Gillett, J. H. Chadwick, Charles L. Wood, Lewis R. Norton, John Cummings, Francis B. Hay[illegible].

Gen'l Manager.—WILLIAM BLISS, Springfield.

Gen'l Sup't.—C. O. RUSSELL, Springfield.

Assistant Sup't.—WALTER H. BARNES, Boston.

Assistant Superintendent.—J. B. CHAPIN, Albany.

Treasurer.—C. E. STEVENS, Boston.

☞ A dispatch from Los Angeles says a large meeting was held there on the 29th ult. to take steps to extend the Los Angeles and Independence Railroad to connect with the Union Pacific. A letter was read from Senator Jones promising co-operation. A committee was appointed to proceed to Salt Lake City in the interests of the road.

Columbus and Toledo Railroad.

In a recent conversation with M. M. Green, Esq., President of the Columbus and Toledo railroad, the following facts, in reference to the progress of construction and present condition of the road, were ascertained:

Seven thousand tons of iron rails have been purchased in Columbus, and three thousand tons of steel rail have been purchased in Cleveland. This amount of iron will be laid so soon as the weather will permit. The track laying will commence at Delaware, and from this point rails will be laid northward and southward. If suitable gravel can be obtained in this vicinity, the gravel trains will also be started from this city.

The grading of the road has been pushed with extraordinary energy. Four hundred and fifty thousand yards of embankment and one hundred and sixty thousand yards of excavation have been made, and about all the masonry upon the line completed. And this has all been accomplished since the 1st of August last.

The company have suffered materially in settling right of way, and the greatest difficulty in this matter has been encountered in the counties of Franklin and Delaware. Since the final survey and the commencement of construction of the road, the company have paid over $100,000 in cash for the right of way alone; and this is a tax upon their resources which the managers are feeling severely.

It is supposed by the management that regular trains will be running between Delaware and Columbus by the first or middle of May next.—*Delaware (Ohio) Herald.*

Texas and Pacific Railroad.

Let us compare the aid asked for the Texas and Pacific Railroad with that extended to the Union and Central Pacific Railroads. The Texas asks the Government to assure the purchasers of the company's bonds that the interest shall be paid thereon at the rate of 5 per cent. per annum; the company not to issue more than $40,000 per mile of bonds, and not to place in the market more than $35,000—the remaining $5,000 to be held by the Government; the liability of the Government being simply for interest, said interest not to exceed $2,000 per mile. Security to the Government, a first mortgage on the road and all its appurtenances. The Union Pacific Railroad received from the Government $35,193,512 in United States bonds, and 21,080,000 acres of land. The Central Pacific Railroad received from the Government $27,855,680 in United States bonds, and 13,222,400 acres of land. A joint subsidy for the present through Pacific Railroad of $62,995,192 in money, 34,303,400 acres of land. Security to the Government, a *second* mortgage. All that the Texas Pacific has ever received from the Government is 15,000,000 acres of land. All it asks in addition is *credit* to enable it to put its own bonds on the market and realize the money needed to complete the road.—*San Diego Union.*

The Postal Treaty with France.

The general postal union treaty goes into operation in France on the 1st of January, 1876. The postal union rates of five cents per one half ounce on letters, two cents for postal cards, two cents for newspapers each if not exceeding four ounces, and two cents per two ounces for other printed matter and patterns of merchandise, will take effect on the date named. For correspondence from the United States addressed to France and Algeria, and also for correspondence addressed to Spain, including the Balearic Isles, the Canary Islands, the Spanish possessions on the Northern Coast of Africa, and the postal establishments of Spain upon the Western Coast of Morocco, the postal union territory will then include the whole of Europe without exception, together with Asiatic Russia, Asiatic Turkey, and Egypt, and, of course, the United States also.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

The asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "§."

American Railroad Journal.

Saturday, January 1, 1876.

Financial and Commercial Affairs.

Financially, the year closed on a more stringent local market for Money, due partly to the arrangements for the first of January interest and dividend disbursements. In the commercial line, with the exception of some further reports and rumors of failures, of no great magnitude, the markets wound up steadily, and free from excitement, in all instances. Breadstuffs, Cotton, and Provisions were more sought after toward the close, on export account; favored to some extent by a weaker ocean freight market. A brisk demand has been reported for Money, mainly on speculative account, at generally strong and buoyant rates, call loans having been quoted at 5@7 per cent to the leading borrowers; and the best mercantile credits rated at 6@8 per cent per annum. The offerings of Money, especially by private lenders, have been on a restricted scale, on call; though comparatively liberal at current quotations for specified periods to and beyond the close of January. The inquiry for accommodation from mercantile sources has not been urgent, and strictly choice to prime commercial paper has been of ready sale at ruling figures. The foreign financial reports were of an easy working of the Money markets abroad. Government Disbursements of the 1st of January interest were formally began this week. The City Banks have had their averages again generally reduced, in the instance of the deposits $3 595,200; and in the legal tender reserve, $1,198,300. The specie average has been augmented $654,000.

The loan and discount item was reduced $1,829,000. The circulation was contracted $77,900. The U. S. Sub Treasury in this city closed the week with a currency balance of $37 561,740, against $38,649,204 the preceding week; and a coin board of $42,093,801, against $42 116,877 on the previous return. The City bank exchanges in currency reached $357,831,740, or a daily average of $71,566,328. The customs revenue of the port, during the week was only $831,000 The City banks reported their average of gold last week at $16,759,900, and their greenback average at $40,762,200. Their deposits stood at $200,-610 800. The loan item was $263,683,500. The circulation was $18.950,700.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $7,361,-900.

The aggregate of the outstanding U. S. currency, of all denominations, December 1st was $415,-361,899. The outstanding amount of legal tender notes is $372,471,772. The National bank circulation is now $243,938,278, including $2,127,750 of national gold bank notes.

The specie shipments from San Francisco, January 1 to Dec. 16th, were $42,407,003, against $29,081,575 same time in 1874.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency $9,000,000; special deposit of legal tenders for the redemption of certificates of deposit, $45,460,000; Coin, $73,500,000; Coin certificates $24,670,000.

The week's import entries of Foreign Merchandise at New York were $2,373,000, including $699,053 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 57 millions; and from Customs, 78½ millions.

Gold has further receded, on a more liberal offering, and very moderate inquiry from all sources, unusually little demand having been noted from shippers and importers (the latter needing exceptionally light amounts for custom house purposes.) The extremes of the price during the week have been 112⅝@113⅝, closing on Wednesday at 113 as against 113¼, on Wednesday of the preceding week. The specie outflow last week was $293,785 against $417,750 the previous week and since Jan. 1, 1875 $70,479,537, against $59,510,776 in 1874. The imports of specie at this port last week were $12,529 and since Jan. 1, have been $12,710,290, against $6,251,-725 same time last year. The customs demand for gold last week averaged only $166,200 per day. Foreign Exchange has been in fair request and quoted at the close steady. Bankers' sixty day bills on London closed on Wednesday at $4 85@$4 85½; sight bills on London at $4 89@$4 89½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $3,739,424. The week's imports of Dry Goods and general merchandise were to the specie value of $2,373,000, as against $2,966,000 the corresponding week of last year.

Government Securities have been less freely dealt in through the week, and with the decline in Gold prices have further yielded slightly, though on restricted offerings of the favorite issues. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $364,690,112.

U. S sixes of 1881 closed on Wednesday of this week at 123¾@124⅛; U. S. Five-Twenties of 1864, at 113¾@114; U. S. Five-Twenties of 1865, 115¼@115¾; U. S. Five-Twenties of 1865, consolidated, 119¾@120; U. S. Five-Twenties of 1867, 122⅛@122⅜; U. S. Five-Twenties of 1868, 122⅛@122⅛; U. S. Ten-forties at 117⅝@117⅝; U. S. Fives of 1881, (Funding Loan) 116⅛@116⅜; Six per cent. currency Sixes, 122⅜@122⅝.

State and Railway bonds have been in rather more demand mainly on investment account, and quoted steadier toward the close. And in the line of Railway and Miscellaneous share property, business has been fairly active with values quoted variable, though toward the close, in most instances stronger.

General business has been comparatively slow in Produce and Merchandise, though, as a rule, buyers have had any existing advantage as to prices. The intervention of the holidays retarded transactions, as usual at the close of the year. The Metal trade indicated less animation. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock $31@$32; Coltness $33; No. 1 American Pig at $23@$24; No. 2 do. at $21@$22; Forge, $16@$20; English Rails (in bond) $35@$36 gold; American Rails at works, $45@$48; Old Rails $22 50@$23 50. Wrought Scrap, $30@$31. Ocean freights have been moderately active, with room for Grain, Flour, Cotton and Petroleum, in most request, closing rather easier as to rates.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

☞ An adjourned meeting of the Indianapolis, Bloomington and Western extension first mortgage bondholders was held on the 28th ult. to hear the report of the special committee, appointed on the 15th of October. The report, which was adopted, closed with a suggestion that measures should be immediately taken to foreclose the mortgage.

New York, New Haven and Hartford Railroad.

From the report of the directors of this company for the year ending September 30, 1875, we learn that the earnings were ; from the transportation of passengers, $2,865,173 58 ; from the transportation of freight, $1,431,493 25 ; mails, etc., $243,441 72 ; interest, $59,409 90—total, $4,599,523 45. The expenses during the same period were $2,503,754 71 ; taxes and interest on coupons, $395,838, 25 ; leaving the net earnings $1,669,930 49. The directors in conclusion say :

Notwithstanding the continued depression of business, we are enabled to report to the stockholders an increase both in gross revenue and net earnings for the last fiscal year. During the year the large shop of the company at Hartford for the construction and repair of cars was destroyed by fire. This has been replaced by a fire proof building. A large addition has been made to the equipment of the road. The cost of these additions and improvements is included in the expenses for the year. Except for these outlays and the reduction in the market value of materials and supplies on hand, the net earnings, after paying all expenses, interest, and taxes, would have shown considerably more. On the Shore Line Railway we have realized a profit on the business of the year of $27,786 61, after the payment of all expenses, rent and outlays for permanent improvements. As compared with the preceding year, the results of the business are better for your company to the amount of $143,400. On the 1st of October last the first mortgage bonds of the old New York and New Haven Railroad Co. fell due, were paid off and canceled, so that now the New-York, New-Haven and Hartford Railroad company is free from both funded and floating debt, and is at liberty, after fulfilling its obligations to its leased roads, to apply all its net earnings to the payment of dividends upon its stock. It is the purpose, however, of your Board of Directors, in the management of this valuable property, to limit the dividends upon the stock to ten per cent. per annum, and to apply the surplus earnings to increasing the facilities and accommodations of the road. This policy we deem just to the stockholders and equitable to the public.

Sparks from Locomotives.

Judge Nixon, of the U. S. Circuit Court for the New Jersey District, presided recently at the trial of a suit against the Pennsylvania Railroad Company, for damages arising out of the burning of timber which was set on fire by sparks from a locomotive belonging to the company. The Judge charged the jury that, in deciding the question whether the fire was the result of gross carelessness on the part of the defendants, they must consider that the law requires the use of all practical means to prevent the escape of sparks, and that the burthen of proofs is on the defendants to show that the engine was provided with the required appliances. The jury rendered a verdict for the plaintiff, awarding him $2187 67 for the damages sustained.

☞ The President has appointed Edgar Mills and Christopher Green, of Sacramento, and Jacob Neff, of Auburn, California, commissioners to examine and report upon twenty additional miles of the California and Oregon railroad, beginning near Vina, Tehama county, California, and making a total of 117½ miles reported completed up to date.

☞ The Pennsylvania Railroad Company are laying two additional tracks the entire length of the New Jersey division of the road, in expectation of the increase of travel to the centennial exhibition.

TIME LOANS NEGOTIATED.

Refers by permission to Messrs. M. K. Jesup, Paton & Co., New York ; Messrs. Soutter & Co., New York ; Jos. S. Norris, Esq., President First National Bank, Baltimore ; Robert Mickle, Esq., Cashier Union National Bank, Baltimore.

THE HOLDERS OF THE FIRST MORTGAGE bonds of the Logansport, Crawfordsville and Southwestern Railway Company are hereby notified and requested to attend an adjourned meeting at the Fifth Avenue Hotel, New York City, on the 7th day of January next, at 12 o'clock, M., called in pursuance of a resolution adopted at the last meeting of the first mortgage bondholders, held at the Fifth Avenue Hotel, New York, on the 13th day of September, ult., it having, in the opinion of the Committee, become necessary to proceed to foreclose the mortgage.

As the Trustee, by the terms of the mortgage, is only authorized to act upon the request of a majority of the first mortgage bondholders, every bondholder is earnestly desired to be present at the meeting.

JOHN BAIRD,
JOHN E. WARD,
CHARLES C. JONES, JR.
T. C. HENRY.

OFFICE OF THE HANNIBAL AND ST. JOSEPH RAILROAD CO., No. 78 BROADWAY, NEW YORK, Dec. 24, 1875.

THE INTEREST MATURING JAN. 1, 1876, on the bonds of this company, also on $3,000,000 Missouri State 6 per cent. bonds, known as "The Hannibal and St. Joseph issue," will be paid on and after the 3d day of January, 1876, on presentation of the proper coupons, at the Bank of North America.

JOHN P. ACKER, Treasurer

OFFICE CENTRAL PACIFIC RAILROAD CO., No. 9 NASSAU ST., NEW YORK, Dec. 27, 1875.

THE COUPONS OF THE FIRST MORTGAGE bonds of the Central Pacific Railroad Company, the Western Pacific Railroad Company, and the California and Oregon Railroad Company, due Jan. 1, 1876, will be paid in gold at the office of Fisk & Hatch, No. 5 Nassau st. Holders presenting ten or more coupons will leave them for examination, in which case a receipt will be given and payment made on the following day.

C. P. HUNTINGTON, Vice President.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, Dec. 15, 1875.

A DIVIDEND OF FOUR PER CENT. HAS been declared by this company, payable on the 1st day of February next to the holders of full-paid shares registered at the close of the 15th day of January next, after which and until the 5th day of February the transfer books will be closed.

L. V. F. RANDOLPH, Treasurer.

☞ The grading of the Federal Creek (Ohio) Railway has been completed from Kilbert to Joy, and to within three and one half miles of the town of Stewart. This makes the connection complete with the Marietta Short Line. The balance of the road to Stewart will be graded as soon as the right of way is secured. The road when finished, will open up a new coal region.

Alabama State Bonds.

Mr. W. H. Hays, chairman of the Alabama bond holders in New York, has prepared a communication to the State Commissioners in regard to the adjustment of the State debt of Alabama. He takes the ground that the state can pay more than is promised in the recently published plan of the Commissioners, and claims that the averages of interest to July, 1876, should not be sacrificed The direct indebtedness of the State, according to this communication, is $14,718,178, from which $2,586,000 are deducted, which are either improperly inserted in the statement or are placed at an exaggerated or excessive valuation. This leaves the balance of $12,132,178 as the total direct debt. The following are the resources of the State;

Taxation of three-quarters of one per cent on $159,000,000, the assessed value of property, produces	$1,194,436
License tax	80,000
Total	$1,274,436
From which must be deducted:	
Expenses of collection	$65,000
Insolvencies and error	110,000
Lands bid in by the State	45,000
	220,000
Total	$1,054,436
Expenses of State government as per report of auditor to Constitutional Convention	265,000
Total	$789,436

Thus the State is abundantly able to pay interest on $12,132,178, the total debt at the rate of five per cent, which would be $606,608, leaving a clear ballance of $182,827 at its command for extraordinary and special purposes if any such should arise.

The following propositions are submitted by the New York bondholders:

That new bonds should be issued to them for the face of existing bonds, payable in thirty years, with interest from July 1, 1876, at three per cent for three years, and interest at the rate of five per cent for the remaining twenty-seven years.

In respect to interest due on or before July 1, 1876, that the state should issue bonds for this indebtedness, payable in thirty years, with interest at the rate of four per cent, to commence five years from the date thereof.

That this is entirely practicable fully appears from the statistics:

Net revenue of State	$789,436
Interest on $12,132,178 at three per cent.	363,965
Total	$425,470

This sum in three years aggregates $1,275,412, which would leave a surplus in the treasury of $275,412 after the payment of the $1,000,000 of old State certificates.

☞ Springfield, Mass., at last rejoices in the completion of a new route to tide water, over the Springfield and New London and Connecticut Central Railroads, and the Connecticut Valley Road The line has been leased for five years to the Connecticut Valley Railroad, which will at once take possession, using its own rolling stock. The Valley company pays the Springfield and New London company $8000 for seven miles, or 4 per cent. on the capital stock, and the Connecticut Central $28,000 for 21 miles of road. This rental insures the city of Springfield 4 per cent. on its investment, and guarantees the interest at 7 per cent. on all the bonds authorized by the Connecticut Central. Trains will be put on at once.

Interest and Dividends.

The interest on the bonds of the Hannibal and St. Joseph Railroad Company maturing Jan. 1, 1876, also on $3,000,000 Missouri State 6 per cent bonds, known as the Hannibal and St. Joseph issue, will be paid on and after Jan. 1, at the Bank of North America.

Messrs. Drexel, Morgan & Co. will pay, on and after Jan. 1, the interest due on the first mortgage seven per cent coupons of the Louisville and Nashville Railroad Company, the first mortgage seven per cent coupons of the Nashville and Decatur Railroad Company, and the first mortgage eight per cent gold coupons of the South and North Alabama Railroad Company.

The coupons of the first mortgage bonds of the Central Pacific Railroad Company, the Western Pacific Railroad Company, and the California and Oregon Railroad Company, due January 1, 1876, will be paid in gold at the office of Fisk and Hatch, No. 5 Nassau street.

The coupons due January 1st on the South Pacific Railroad Company first mortgage bonds, and the second mortgage bonds of the Missouri Pacific Railroad, will be paid, on presentation, on and after Jan. 3, 1876, at the National Bank of Commerce, in New York.

The coupons due January 1st, of the North Missouri Railroad first mortgage bonds, will be paid at the National Bank of Commerce, in New York, on and after January 3, 1876.

The coupons due Jan. 1, 1876, from the bonds of the Cedar Falls and Minnesota Railroad Company will be paid on and after Jan. 3, on presentation to J. S. Kennedy & Co., No. 41 Cedar st.

The coupons due Jan. 1, 1876, on the mortgage bonds of the Galveston, Houston and Henderson Railroad Company of 1871, will be paid in gold by F. P. James & Co., No. 40 Wall st.

Coupons of the Sioux City and Pacific Railroad Company, due Jan. 1, 1876, will be paid at the National Park Bank, New York.

The coupons on the first mortgage gold bonds of the Houston and Texas Central Railroad Company, maturing Jan. 1, 1876, will be paid at the National City Bank.

The January interest of the first mortgage coupon bonds and the second mortgage registered bonds of the Buffalo, New York and Philadelphia Railroad Company will be paid on and after the 3d proximo, at the office of the Farmers' Loan and Trust Company, No. 26 Exchange Place, New York.

The Bangor Whig is informed by Hon. Noah Woods, Treasurer of the European and North American Railway Company, that the six months' interest due on the city loan of $1,000,000 to that road, on the first of January, 1876, is provided for, and will be promptly paid at the agencies in Bangor and Boston.

The interest due Jan. 1, 1876, on the bonds of the Virginia and Tennessee, Southside, and Norfolk and Petersburg Railroad Companies, and payable in New York, will be paid at the First National Bank, New York; that payable in Petersburg, at Commercial National, Citizens' and Bank of Petersburg; that payable at Lynchburg at the company's office, and that payable on interest certificates at the First National Bank, New York, or at the company's office, Petersburg or Lynchburg.

The interest on Illinois State bonds, due the first Monday of January, 1876, will be paid at the American Exchange National Bank, New York, from the 3d to the 20th of January, inclusive.

Coupons due Jan. 1, 1876, on the deficiency and funding debt bonds of the State of Texas will be paid at the Bank of New York. Pension bonds will be paid at the office of the State Treasurer at Austin, Texas.

The interest due Jan. 1, 1876, on the bonds issued by the State of Michigan will be paid at the American Exchange National Bank in New York.

The Coal Trade.

The quantity of anthracite sent from all the regions for the week ending on the 18th ult. was 212,440 tons, and of bituminous 59,032 tons, being a total of all kinds of 271,472 tons, against 152,842 tons in corresponding week last year, being an increase of 118 630 tons of anthracite and of 40,710 tons of bituminous, and a total increase of 423,626 tons. The quantity sent from all the regions so far this year is 19,637,165 tons anthracite, and 3,834,384 tons bituminous—total, 23,471,549; against 23,047,922 tons last year. Increase of anthracite, 112,606 tons; increase of bituminous, 118,630 tons; total increase, 423,626 tons. At Port Richmond for the week ending on the 24th instant there were receipts of 3500 tons of coal and shipments of 8500 tons, leaving 164,000 tons on hand. The quantity of coke and coal transported over the Pennsylvania Railroad for the last week was 97,221 tons, and for the year 4,182,910 tons, of which 3,345,644 was coal and 659,072 coke. This embraces all the coal carried both east and west. The receipts of coal at Perth Amboy for the week ending on the 18th ult. were 16,611 tons; total received during the season, 40,942 tons; shipments for the week, 7901 tons: total shipments for the season, 22,109 tons; leaving on hand 71,509 tons.

Lee and Hudson Railroad.

The Springfield Republican says that the friends of the Lee and Hudson Railroad are jubilant over the result of another hearing before Judge Colt, who has refused to make the injunction under which they now rest perpetual; and on the question of damages wanted by the Housatonic road, advises them to refer the matter to an auditor, if they cannot settle it. The proposed road is about 12 miles long, running from Lee to State line, and $200,000 has already been expended in grading it. From Lee to Glendale it follows the bed of the Housatonic road, and the latter claim that it encroaches upon them in some places. It is estimated that $150,000 more would finish the grading and lay the ties and rails, and it has been supposed that the Boston and Albany road would furnish the money and then run the road to get their interest, especially as Lee, which holds $80,000 of the bonds, and the other towns, are willing to give up all their interest for the sake of having the road. The $20,000 subscriptions are all paid in and the debts settled.

☞ The survey of the Massillon and Coschocton (Ohio) railway has been completed.

Finances of Ohio.

From the Annual Report of the Auditor of Ohio we learn that the balance in the Treasury at the close of the fiscal year 1874, to the credit of the several funds, was $812,397 19. The receipts into the Treasury for the year, including balances and transfers, were $6,467,263 42; disbursements for all purposes, including transfers of $329,674 20, were $5,037,484 90, leaving a total balance in the Treasury, Nov. 15, 1875, $1,429,778 52. Against this balance there are outstanding warrants drawn by the Auditor and not redeemed by the Treasurer amounting to $1,349,854 85.

The public funded debt of the State on the 15th of November, 1874, was $7,988,295 30. The redemptions during the year were $38,285 18. The net debt in counties Sept. 1, 1875, was $3,914,578 90. Net debts in cities of the first and second class, $20,250,722 11; of incorporated villages, $931,362 64; of separate school districts, $1,507,953 44. Total indebtedness of counties, townships, cities, villages, &c., $25,057,588 21, showing an increase of the same over last year of $4,071,580 85. The receipts for the coming year, including the balances in the Treasury, are estimated at $6,619 293 52. The disbursements for the year are estimated at $6,462,700 02. The total taxable valuation of property in the State for 1874 was $1,580,870,324. The taxes levied in 1874, and receivable in 1875, upon this basis of valuation were: for State purposes, $5,050,357 42; for county, city, town, village and local taxes, for schools, &c, $15,748,079 57. Total county and local taxation, $21 786,829 35. Total levies for all purposes in 1875, including delinquencies, $27,614,729 16. The value of all real and personal estate of Ohio, according to the tax duplicate of 1875, is $1,598,575,862. This increase in valuation of material wealth, in spite of hard times, indicates prosperity as well as care and efficiency in the collection of the revenue. It seems that the aggregate value of real estate in cities and villages augmented over $11,000,000 last year, while in the country it dimmished in the sum of $525,214. During the same period the value of personal property was augmented $7,539 230. The taxes to be collected for 1876, are: for State purposes, $1,948 995 19; for county purposes, $6,659,467 58; for township, city, school, and special taxes, $16.344,508 60. Total levies for all purposes, including delinquencies, $28,893,182 37.

☞ An excursion train passed over the newly constructed Connecticut Central and Springfield and Long Meadows roads between Hartford and and Springfield on the 22d ult. Regular trains will commence to run about January 1, the line from Hartford to Springfield having been leased by the Connecticut Valley road.

☞ In the foreclosure of what is known as the fifth mortgage against the Erie Railway Company, proceedings in equity were commenced in the Pike County (Penn.) Court, on the 24th ult. H. J. Jewett was appointed Receiver with bonds at $50,000.

☞ The Portland and Ogdensburg Railroad has been completed to Johnson, Vt. The road is now running from Portland 191 miles, using the Boston, Concord and Montreal from Fabyan's to Scott's mills

☞ The Sacramento Record Union says: "It is reported concerning the suit between the California Pacific Railroad and its German bondholders, that compromise papers have been signed, sealed and delivered, and that terms regarding the payment of bonds are as they have heretofore been announced by the press. Further, that the California Pacific management bind themselves to bring the overland travel over this road; to relay the road bed with steel rails, and make Valejo the terminus of the California and Oregon road."

☞ Mr. W. L. Burt, President of the Utica, Ithaca and Elmira Railroad Company, having resigned his position as Postmaster of Boston, Mass., will hereafter take personal supervision of the affairs of the company, devoting his whole time to its business.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

M. Brigham, KINGSTON, N. Y
J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER
CEMENT COMPANY,
MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT.

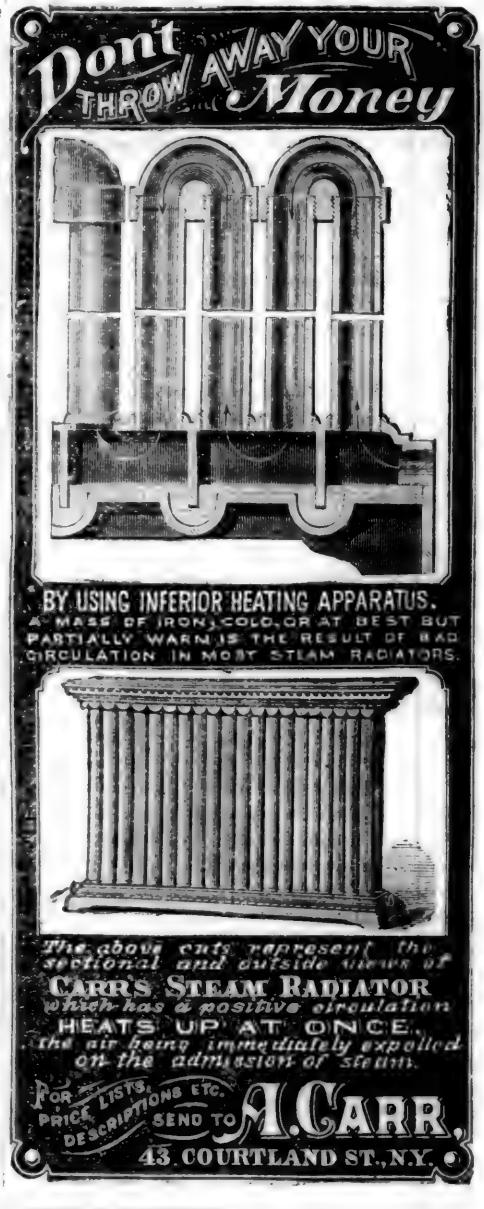
WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.



LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

The Coal Mined in 1874.

A careful estimate of the coal production of the United States in 1874 shows that 24,281,471 tons of anthracite, 25,248,684 tons of bituminous and 1,217,020 tons of lignite were mined. The tons are the American ton of 2,000 pounds, and to reckon the above quantities in English or long tons, one eighth would have to be deducted from them. Pennsylvania is of course the greatest producer, for she mines not only all the anthracite, but nearly half the bituminous. Her total yield of coal is 36,547,615 tons, or 72 per cent. of the out put for the whole country. Ohio, which is next in importance, produced only 8 per cent.. Maryland 5 per cent. and Illinois 5 per cent., while no other State rose as high as 2 per cent.

Two things are very noticeable in the tabulated product of the States. First is the comparative insignificance of coal mining in some regions which are known to contain vast quantities of fuel—States which would be able to supply all the soft coal needed by the whole country for a century to come, but at present take but the smallest share in the work of warming our houses and running our steam engines. West Virginia mines but 1 1-2 per cent. of the total, and Alabama only one tenth of one per cent. The other point is the 1,217,020 tons of lignite mined in California, Wyoming, Colorado, Oregon, Washington, and Utah. This is a material very different and far more valuable from the fuel ordinarily known under the name of lignite, or brown coal. Upon its cheapness and abundance the prosperity of the great West depends to a large extent. It is the fuel of the Pacific railroad, and though but little used in the mining works, it must one day find a great market there.

☞ The opening of the North Brookfield Railroad from North Brookfield to the East Brookfield station on the Boston and Albany Railroad took place on Thursday last.

Phœnixville Bridge Works

Clarke, Reeves & Co.,

The attention of the officers of Railroad Companies is called to a new Album of Designs, showing the various styles of Iron Railway Bridges, Viaducts, etc., that we have constructed and are prepared to construct, which we will send by mail on application to

410 Walnut Street.
PHILADELPHIA.

CHAS. PFEIFER, Constructing Engineer. C. J. SCHULTZ, Proprietor.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size: can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

Illinois Central Railroad.

The following is the opinion of the Attorney General of the United States on the question submitted to him by the Secretary of the Treasury as to the refund of $176,251 37 tax on dividends of stock of the Illinois Central Railroad Company held by non-resident aliens, the matter at issue being whether the refund shall be made to the Company as they claim it should be, or to the non-resident alien stockholders. The tax was paid in 1863, 1864, 1865 and 1866. After reciting the facts attending the payment of the tax the Attorney General gives the following opinion:

From the paper submitted it appears that no question is raised about the statute of limitations or the liability of the government to repay $176,251 37 unlawfully collected on income tax.

The sole question presented is whether money ought to be repaid to the Illinois Central Railroad Company from which it was illegally taken or to certain stockholders of that company to whom it rightfully belonged, and who would have received it but for the action of the government in demanding payment of it by the company. This money was claimed and received by the United States as income tax upon dividends on stock (held by non resident aliens) made by the Illinois Central Railroad Company in the years 1863, 1864, 1865 and 1866. Subsequently the courts of the United States declare it to be illegal to exact this tax upon dividends of stock belonging to aliens non-resident in this country. The officers of this company are trustees of the stockholders, and they held the money earned in trust for the owners of the stock, after payment of all legal claims against the company.

The officers of the road were bound to pay over the dividends earned to the stockholders, and they had no right to withhold five per cent. or any other sum for any illegal purpose, and if so with held the stockholders might sue for and recover the same against the road. These alien stockholders can recover of the company any money to which they have a lawful right, and which the company refuses to pay, and the corporation cannot defend itself in a court of law against the claims on the ground that the company has paid out the money upon some unlawful exaction, and especially after the payment has been declared illegal by the highest tribunal. The government unlawfully exacted the money from the railroad company, and it should be paid back to the company from which it was unlawfully taken.

The non resident alien stockholders can recover it of the corporation, which, as I understood, is perfectly solvent, and it will be no defence for the company to plead that their negligence, ignorance, delay, or other illegal act has lost the money. The right of the railroad company to repayment of the money which it paid the government under an illegal exaction does not depend upon whether it has first paid the money to the stockholders. The government cannot by unlawful demands deprive the trustee of money which he holds in trust for another, and when asked to repay it insist that the trustee must first pay the *cestuique trust*, the very money of which the government has deprived him. If it appears on the adjustment that the government has already paid back a part of this money to stockholders lawfully entitled to the same, so much can be deducted and the balance paid over to the road.

☞ The annual report of the auditor general of Pennsylvania on the finances of that State for the year ending November 30, 1875, shows the receipts to have been $6,480,099 02; in the treasury at the beginning of the fiscal year, $1,054,551 65; total, $7,534,650 67. The total disbursements for the year were $6,541,442 40, leaving a balance in the treasury December 1 of $993,207 27. The auditor states that the total funded debt of the State is $23,109,621 58; unfunded debt, $123,516 14; total debt, $23,238,137 76, showing a decrease of $1,335,497 61 during the year.

Chesapeake and Ohio Railroad.

The decision rendered in the United States Circuit Court, sitting at Alexandria, Va., on the 3d inst., dismissing the foreclosure suit brought in that court last October against the Chesapeake and Ohio Railroad Company, is of much importance to the bondholders. Messrs. Fisk & Hatch have issued a circular on the subject, in which they say that by this decision the proceedings for the foreclosure and sale of the property are transferred to the State courts of Virginia and West Virginia, where suits have been regularly instituted by the Trustees of the mortgages, and Gen. W. C. Wickham has been appointed Receiver, in accordance with the nearly unanimous choice of the bondholders and all other parties represented. The custody and management of the road are thus restore to the hands of its friends, of long experience in its management and thoroughly indentified with its best interests, who can be relied upon to co-operate with the Trustees and bondholders in bringing the proceedings to an equitable and harmonious conclusion, without unnecessary delay or expense in litigation.

Oil Creek and Allegheny River Railroad.

This road, with all its rights, appurtenances and rolling stock, was sold at Philadelphia on the 29th ult., under a decree of the United States Circuit Court. The road was formed by a consolidation of the Oil Creek Railroad Company, the Franklin and Warren Railroad Company, and the Union and Titusville Railroad Company, and the sale was made subject to a first mortgage upon each of these portions, viz: The Oil Creek R. R. Co., to S. P. Johnson, trustee, to secure bonds amounting to $580,000; the Warren and Franklin R. R. Co., to J. Edgar Thomson and William G. Moorhead, trustees, to secure bonds amounting to $1,500,000; the Union and Titusville R. R. Co., to A. R. Williams, trustee, to secure bonds amounting to $500,000. On the consolidation of the three roads, a consolidated second mortgage was made to William G. Moorhead and William G. Fargo, trustees to secure bonds amounting to $1,000,000, dated May 1, 1868. Default in the payment of interest on the consolidated mortgage was made in May and November, 1874, and in May and November, 1875, and a bill was filed in the United States Circuit Court at Pittsburg, on behalf of the trustees, by S. G. Thompson, Esq., to foreclose, and it was under the decree of this court that the sale was made.

An agreement was made between the consolidated mortgage bondholders, the stockholders and creditors, that a new organization should be formed by all the members of these classes signing the agreement; the stockholders to receive new stock, the bondholders new bonds and the creditors income bonds to the amount of their claims. The property was put up by Mr. Freeman, and Hon. Thomas H. Dudley, representing these interests, bid $100,000. No other bid being offered the property was knocked down to him, and he paid the first installment of the purchase money, $50,000.

The authorized and paid in capital stock of the company was $4,959,450. The funded debt was $3,680,000, and there was about $500,000 of floating debt. Of the funded debt $2,580,000 is the amount of the first mortgage bonds, which are still a good lien on the road. The $100,000 paid for the road represents the $1,100,000 of consolidated mortgage bonds and carries the title to the property. The other $1,000,000 of consolidated bonds and the paid in capital stock, $4,659,450, have of course no more value, or in other words the sale has rendered valueless $5,959,450.

The road is 95 miles in length, with 33 miles of sidings, making a total of 128 miles of railroad.

New York, New Haven and Hartford R. R.

The directors of the New York, New Haven and Hartford Railroad Company respectfully submit the following report of the business and condition of the company for the fiscal year, terminating September 30th, 1875:

Income:		
From transportation of passengers		$2,865,173 58
From transportation of freight		1,431,498 25
From transportation of mails and express		243,441 72
From interest		59,409 90
		$4,599,523 45
Expenses:		
Repairs of road and renewals	$319,083 42	
Repairs of bridges	37,793 84	
Repairs of buildings	88,959 56	
Repairs of fences	3,477 41	
Repairs of engines	223,364 54	
Repairs of passenger and baggage cars	210,099 35	
Repairs of freight cars	79,810 75	
Repairs of tools and machinery	15,887 87	
Coal and wood for engines	249,616 14	
Fuel for stations and cars	11,139 92	
Oil	29,709 97	
Waste	6,772 03	
Wages and incidentals chargeable to passenger department	532,265 04	
Wages and incidentals chargeable to freight department	478,429 03	
Switchmen, signalmen & watchmen	102,375 82	
Damages and gratuities	31,681 71	
Insurance and telegraph expenses	9,242 50	
General salaries and office expenses, law expenses and all other expenses (except interest) not included in any of the above items	74,046 31	
		2,503,754 71
Balance		$2,095,768 74
Deducting taxes	$223,643 25	
Deducting coupon interest	172,195 00	
		395,838 25
Net earnings		$1,699,930 49

Treasurer's general balance sheet of total receipts and payments for the year ending October 1st, 1875:

Balance of cash assets, Oct. 1, 1874		$2,112,451 41
Materials on hand, Oct. 1, 1874		708,197 61
Materials on hand, S. L. Division		111,910 54
Decrease in Shore Line Dr. Bal		27,786 61
Proceeds of 1,314 shares of company's stock sold		189,559 00
Amount charged Insurance and credited Contingent Account		3,600 00
Transportation earnings		4,599,523 45
Total receipts		$7,753,028 62
Transportation expenses		$2,503,754 71
Interest on bonds		172,195 00
Taxes		223,643 25
New York and New Haven bonds paid		1,060,000 00
Dividends (2 of 5 per cent each)		1,550,000 00
New Haven depot		105,821 18
Mt. Vernon depot		13,922 17
New barges		40,590 00
New wharves		31,800 78
Bond and mortgage paid		109,500 00
Real estate bought in New Haven and Springfield		7,729 85
Bills payable paid		40,000 00
Materials on hand Oct. 1, 1875		549,483 19
Materials on hand, S. L. Division, Oct. 1, 1875		66,373 04
Decrease in account payable		37,797 10
Balance of cash assets, Oct. 1, 1875		1,240,418 40
Total, as above		$7,753,028 62

DETAILED STATEMENT OF ITEMS OF CASH ASSETS.

Due from agents	$147,166 56
Due from connecting roads	53,898 86
Due from Hartford, Providence and Fishkill Railroad tunnel account	36,503 45
Advances to Harlem River and Port Chester Railroad	521,843 21
Loans and bills receivable	371 874 03
Cash	109,632 79
Total amount	$1,240,418 40

In addition to the above the company owns six hundred and eighty-six shares of its own stock.

The following is an exhibit in condensed form of the business for the past year:

Receipts from transportation, etc		$4,599,523 45
Transp. expenses	$2,503,754 71	
Taxes	223,643 25	
Interest on bonds	172,195 00	
Net earnings	1,699,930 49	
		$4,599,523 45

The capital expenditure accounts have been increased during the past year $199,863 93, as follows:

Increase in account, cost of road	$119,743 30
New wharves	31,800 78
New barges	40,590 00
Increase in land account	7,729 85
Total increase, as above	$199,863 93

The contingent account has been increased during the past year, $62,759, as follows:

Amount charged insurance in expense account, and credited contingent account, as fire reserve	$3,600 00
One bond past due since 1866, charged to bond account, and credited this account	1,000 00
Premium on 1,314 shares company's stock sold	58,159 00
Total increase, as above	$62,759 00

New York, New Haven and Hartford Railroad statistics for the year ending September 30th, 1875.

Miles run by passenger trains	1,802,860
Miles run by freight trains	558,884
Miles run by gravel trains	147,318
Total mileage	2,004,062
Total number of passengers	4,034,239
Number of passengers moved one mile	123,003,659
Number of tons freight moved	827,832
Number of tons freight moved one m.	34,936,946
Number of engines	92
Number of passenger cars	182
Number of mail and baggage cars	62
Number of freight cars	1,130
Number of gravel and other cars	185

SHORT LINE DIVISION.

The receipts on this division for the year ending September 30th, 1875, have been:

From transportation of passengers		$300,710 73
From transportation of freight		82,044 05
From transportation of mails		10,379 55
From transportation of express, etc		16,837 51
Total income		$409,971 84
The expenses have been:		
For operating expenses	$282,185 23	
Paid rent	100,000 00	
		382,185 23
Gain for the year		$27,786 61

Notwithstanding the continued depression of business, we are enabled to report to the stockholders an increase both in gross revenue and in net earnings for the last fiscal year, as will fully appear from the foregoing statements. During the year, the large shop of the company at Hartford for the construction and repair of cars, was destroyed by fire. This has been replaced by a fire-proof building. A large addition has also been made to the equipment of the road. The cost of these additions and improvements is included in the expenses for the year. Except for these outlays and the reduction in the market value of materials and supplies on hand, the net earnings, after paying all expenses, interest and taxes, would have shown considerably more.

On the Shore Line Railway we have realized a profit on the business of the year of $27,786 61, after the payment of all expenses, rent and outlays for permanent improvements. As compared with the preceding year, the results of the business are better for your company to the amount of $143,400.

On the 1st of October last, the first mortgage bonds of the old New York and New Haven Railroad Co. fell due, were paid off, and canceled, so that now the New York, New Haven and Hartford Railroad Company is free from both funded and floating debt, and is at liberty, after fulfilling its obligations to its leased roads, to apply all its net earnings to the payment of dividends upon its stock.

It is the purpose, however, of your Board of Directors, in the management of this valuable property, to limit the dividends upon the stock to ten per cent. per annum, and to apply the surplus earnings to increasing the facilities and accommodations of the road. This policy we deem just to the stockholders and equitable to the public.

CONDENSED BALANCE SHEET, October 1, 1875.

Cost of railroad		$12,889,584 40
Equipment: engines and cars		2,073,911 42
Freight barges		40,590 00
Real estate		560,274 67
New wharves		128 688 31
Materials and supplies on hand		549,483 19
Materials and supplies on Shore Line Division		66,373 04

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, December 31, 1875.

B. H. BRISTOW,
Secretary of the Treasury.

Public Debt of Virginia.

In a speech at Staunton, Va., last Monday, the Hon. A. H. H. Stuart stated that in September last General Richard Taylor, a son of ex-President Zachary Taylor, came to him and asked what proposition he thought Virginia would make to her creditors. Mr. Stuart replied that he did not think the State could make any proposition; it had made one and it had been rejected, and he did not think it would make another. Gen. Taylor said that was not the question; he had been to Europe; the passage of the tax bill by Virginia had exercised a great moral influence among her creditors there and had changed the feeling toward the State. The European creditors had been angry and dissatisfied, but that feeling had changed; they said, "now we see Virginia is about to retake her old proud position and we feel disposed to help her." He said they had authorized him to propose to consolidate the arrearages of interest with the principal of their claim and take three per cent. for five years, four per cent. for five years, and five per cent. until maturity—the interest to be paid in the equivalent of coin. Mr. Stuart stated further that he had just learned from Richmond that Gen. Taylor, who has recently returned from a brief trip to Europe, brings with him the formal proposition of the foreign bondholders.

The Richmond Whig of Friday confirms Mr. Stuart's statement. It says Gen. Taylor has been deputed by the foreign bondholders to act as their agent in adjusting the State's indebtedness to them upon terms which it says "are most liberal." The Whig says the offer contemplates a new issue of bonds utilizing Virginia's foreign indebtedness, extending the time of payment, and consenting to a considerable reduction of interest for a term of years and of one per cent. permanently. The aggregate of this debt is some $10,000,000. Gen. Taylor has been invited and has consented to visit Richmond in a few days to confer with the finance committees of the General Assembly and the State officials upon the subject.—*Balt. Sun, Jan.* 3.

Wisconsin Central Railroad.

The Wisconsin Central Company has completed its branch road between Stevens Point and Portage as far as Hancock, and trains commenced running to that point on Monday, Dec. 27th. The grading is completed eight miles further, which is a little over half the entire distance to Portage. Work has not been suspended, and probably will not be so long as this mild weather holds. Considering that work was not commenced until the middle of October, the company has shown great enterprise and energy, and a continuance of the same enterprise will complete the road to Portage before the middle of next summer.

The company is also making preparations for commencing work early in the spring, to close the gap of fifty five miles on the upper end of the main line. Bridges are framing, ready to be put up where wanted; an engineer party is in the woods, locating the line, and every thing indicates that this road, so important to northern Wisconsin, will be completed in all its parts before the end of next year.

Not only will the road, when completed, add new life to business in the northern part of the state, by furnishing facilities for developing what is now an unbroken wilderness, but the closing of the gap in the main line will involve an expenditure of from one to two million dollars, the bulk of which will be paid for labor and material in this state, thus adding that sum to our business as a state. Every well wisher of the state, therefore, must rejoice that the prospect is so good for an early completion of this great enterprise.—*Milwaukee Wis.*

Railroads of Ohio.

The report of the Railroad Commissioner of Ohio shows that there are within the State, 4,458 miles of track, in main lines and branches, which is a slight increase over last year. The passenger traffic shows an increase of 1,706,654. The total number carried was over seven times the entire population of Ohio. The freight traffic increased only 145,725 tons. The gross earnings were, in round numbers, $65,000,000, against $71,000,000 last year, being a decrease of $6,000,000. This shows the effect of low rates which have prevailed on all through business; and notwithstanding a sweeping reduction in expenses, the net earnings fell off $2,272,482. Passenger earnings were nearly as large as last year, the great falling off being in the compensation for carrying freight. The total liabilities of all the roads, including stock and debt, is $568,238 757. Upon this the net earnings have been only three per cent.—not sufficient to pay the interest on the debt. In the aggregate, therefore, the money invested in the capital stock of Ohio railroads has been unproductive, but some of the companies were able to pay dividends, and over six millions were paid on preferred and common stock.

☞ The directors of the Lowell and Lawrence Railroad Company, recently elected, are: William E. Livingston, Hocum Hosford, Edward Tuck, Isaac Farrington, John F. Kimball, Henry C. Howe and Otis Allen. Mr. Livingston was chosen President, and F. H. Nourse Clerk and Treasurer. This road is leased by the Boston and owell Railroad Co., who pay interest therefor,

Boston and Maine Railroad.

The following is a comparative statement of the earnings and expenses of this road for the years ending September 30, 1874 and 1875:

Earnings:	1874.	1875.
From passengers	$1,410,530 85	$1,371,878 67
" freight	820,275 79	809,680 38
" rents	52,744 62	51,812 45
" mails	21,360 20	19,924 47

Telegraph	5,310 86	5,757 30
	$1,794,444 84	$1,780,761 70
Net earnings	$627,354 43	$607,978 48

Compared with the previous year the gross earnings show a decrease of $33 059 09; and the operating expenses, including taxes, a decrease of $35,096 12—showing an increase in the net earnings of the present over the previous year of $2,037 03. The net income, after payment of interest, shows a decrease of $19,375 95. The president in his report says:

This falling off in both gross and net receipts, during the past year, is accounted for by the long-continued depression in all kinds of business, commencing in September, 1873, with the great financial crisis, and extending to the present time. Month after month since the first blow of the great panic, the business man has been propheasying better times, but all such prophecies have failed. This depression in business has stopped the construction of factories, machine shops, rolling mills, and every other important branch of business upon which the prosperity of the country depends. A large number of our working people have thus been thrown out of employment, changing their condition from producers to consumers, and lessening production in nearly every departments of industry. All classes of our people have suffered,—the laboring man in want of work and reduced pay; the manufacturer in want of a market for his goods; the moneyed man in a reduction of his interest and dividends; the owner of real estate in his reduced rents; the railroads in their reduced receipts, with little or no corresponding reduction in their expenses. In short, every class of people, and every branch of industry, has suffered more or less from this long business depression. It is not surprising that the business of your road should fall off; that your net income should be less, when all branches of business upon whose life and activity your success depends are depressed, making little or no return to their stockholders. The great wonder is that your road has been able to do as well as it has, with all these adverse circumstances to contend against. It simply proves that you have a valuable property that will, upon the return of good and prosperous times, make abundant returns to you for your investment. You will perceive that the gross receipts for the past year are only $33,059 09 short of the year 1874, while the loss in net earnings is only $19,375 95 short of the previous year; at the same time the operating expenses, including taxes and interest, have been reduced only $13,683 14: all of which proves that the great cry that has been so often sounded by interested parties during the past year, that your property was being wasted by a ruinous competition with a neighboring road, has served only to frighten stockholders and thereby depress the market value of their property.

The floating debt of this corporation has been reduced during the year $527,849 69 and stood, at the close of business, on the the thirtieth day of September, 1875, at $378,659 89. The same has been further reduced, since the closing of the accounts, by the payment of maturing liabilities amounting to $125,000. At the date of this report, the whole floating debt of the corporation is $248,659 89. Twenty eight thousand five hundred dollars of this amount was incurred within the past year for additional freight grounds in Lawrence. Towards funding this amount, we have $199,500 00 of the 1894 bonds yet unsold. The managers of your property have exerted themselves to secure for your road its legitimate and proper share of the business of its own and connecting lines, and with this object in view have used every honorable means to secure the same. One half of the business east of Portland, as we have always claimed, belongs to your road, and sooner or later our claim will be acknowledged as just and reasonable. The time is not far distant when a through line, without change of cars, from Bangor to Boston will be opened over the Boston and Maine Railroad. In our Annual Report for the year 1873, we said we were content to await the action of the Courts and the people in this respect. We were not obliged to resort to the Courts, for the people, or rather the managers of the Maine Central Railroad Company, saw the propriety of making a joint arrangement for business between our respective systems of railroad, and proposed a business contract, whereby there should be secured to your road the same rights and facilities as was given to any other road between Portland and Boston. Accordingly, on the twenty-eighth day of December, 1874, a contract between this corporation and the Maine Central Railroad Company was entered into for a term of years, whereby the rails of the two corporations were united at Portland, with the promise on their part, that business of both passengers and freight coming from the Maine Central Road, and destined to Boston or other points of competition, should be left free to take either line west of Portland, without influence direct or indirect. Under this contract, a portion of the business from the State of Maine began to take its rightful channel over your road. This business continued to increase until the annual meeting of the Maine Central Railroad, in the month of March last, when its management was captured, and the old management made to give place to men in the interest of the Eastern Railroad Company. For this reason, we have not as yet gained that advantage from the contract that was promised. We have reason to believe that recent developements in railroad management will in the end inure to the benefit of this corporation, and that you will ere long secure your share of the traffic from the east of Portland coming over the Maine Central Railroad.

On the first day of December, 1874, your directors took possession of the Lowell and Andover Railroad, under an agreement with that corporation, that the Boston and Maine Railroad should, for a consideration in money, to us paid, take possession and complete the construction of the same. It was agreed that the annual rental for said road should commence on that day. An agreement for a lease was then made, and on the eighteenth day of October, 1875, the proper papers were fully executed, and delivered, for the term authorized by you at your meeting, holden on the fourth day of June, 1873. The Lowell and Andover Railroad has been in operation eleven months, during which time the receipts from the same have been little more than enough to meet the expenses of operation and rent. This has been no disappointment to the managers of your property. The volume of business seeking the new route is gradually increasing, and it is confidently believed will prove remunerative to the stockholders of the Boston and Maine Railroad. Before the completion of the Lowell and Andover Railroad, negotiations were had with the Boston and Lowell Railroad Company, looking to some arrangement that would, in the future, save each corporation from an unprofitable competition. These negotiations resulted in a business contract between us, for one year, and three months' notice thereafter, of a desire of either party to terminate the same. Under this arrangement the relations between our respective roads have continued amicable.

The contract entered into with the Eastern Railroad Company on the 4th of April, 1874, for a division of business at competing points, continues in force; and although its working has not been entirely free from friction, yet the same has saved us from any wasteful competition, and led, we believe, to results beneficial to both parties.

On the sixth day of May, 1872, there was approved an Act of the Legislature of Massachusetts in relation to the running of cheap morning and evening railroad trains to and from Boston, for distances not exceeding fifteen miles, at rates of fare therein specified; provided that the number of persons making application therefor shall not be less than two hundred. From the date of the approval of this Act, to the present time, no train has been asked for or run under the Act. This Act is understood to have been, if not the natural, certainly the adopted, child of the railroad commissioners of the State of Massachusetts, although the application to the Legislature for such an act was first made by another, who early conceived the idea of compelling railroad corporations to carry passengers at unremunerative rates.

Nothing came of this legislation until the 4th of November, 1872, when the Eastern Railroad Company, at the earnest solicitation of the railroad commissioners, and with "the strong desire felt by the management of the Eastern Road, to make that corporation popular after the Revere accident," consented to make a trial of the cheap train experiment. This experiment was not under the Act aforesaid, but under a uniform price for tickets, between any and all stations, like a horse railroad ticket, upon a plan requested by the railroad commissioners.

We are informed by the commissioners, in their last annual report, that "the experiment of cheap workingmen's trains on the Eastern Railroad has continued a decided and growing success," that the net profit was large, in fact larger by fourteen per cent than the average passenger trains. We do not know how the commissioners arrived at this result, but presume it must have been in the same way, that they give us the surplus earnings above operating expenses, and amount paid for rent of roads, interest and taxes of the same corporation for the year ending Sept. 30, 1874, as being $234,987 41. The commissioners were naturally encouraged by these figures. Inasmuch as no other corporation had shown any disposition to follow the example of the Eastern Road, they publicly invited those living on the lines of other roads who wished to have the benefit of trains similar to those running on the Eastern Road, to give some organized indication of that desire, some pressure of public opinion, promising to aid them by means of machinery through which such a demand as that referred to can make itself felt. Accordingly with this strong invitation of the commissioners a petition containing more than fifteen hundred names (whether names of residents on the line of your road or not, we do not know) was presented, not to your board of directors, but

to the railroad commissioners, asking that a similar train be placed on this road. A day was fixed for a hearing on this petition, why, we known not. Although your corporation was not bound to appear at that hearing, yet they were represented, and for you claimed that it was unjust to ask any corporation thus to discriminate, and do work for any portion of the public at a loss. Our protest and objections had no force whatever with the commissioners, who immediately recommended the placing of a cheap train morning and evening on your road running between Reading and Boston, arriving at and departing from the latter place at about six o'clock in the forenoon and afternoon, at a uniform rate of fare of about six and two thirds cents each. Accordingly such a train was placed upon the road on the first day of October, 1875, and has been run since that time strictly in accordance with the recommendation of the commissioners. It has already run long enough to show conclusively that there is no profit, but an actual daily loss by such running; and more, that there is no public demand for such train; as the largest number of passengers on any one train, counting the through and local of the cheap fare passengers, has not exceeded 61 passengers on an inward bound train, and 84 passengers on an outward bound train, the average for the month of October being 46$\frac{39}{56}$ to a train inward and 72$\frac{14}{56}$ to a train outward. The earnest solicitation of the commissioners and their subsequent recommendation that such a train should be run on your road, together with the desire on our part to do all we can consistently for the public, experimentally or otherwise, is our only apology for placing upon your road a train service that does not commend itself to your directors.

If, after a fair trial, it does not prove to be remunerative, the same will be discontinued.

It may be gratifying to the stockholders of this corporation to be informed, that they have received, from the opening of the road, to and including the dividend recently declared, the sum of two hundred and eighty two dollars and fifty cents in cash, on each share of stock by them held. In addition to this, for more than thirteen years last past, all taxes on your stock both State and national, have been paid by the corporation. A statement of the dividends paid from the opening of the road, including that payable on the fifteenth day of November, 1875, is appended to this report.

The passenger and freight business of the past year, as compared with that of the year previous, stands as follows:—

1874.	
Passengers carried	4,749,785
Passengers carried one mile	75,061,175
Tons of freight carried	552,922
Tons of freight carried one mile	22,880,690

1875.	
Passengers carried	4,906,779
Passengers carried one mile	65,423,484
Tons of freight carried	647,374
Tons of freight carried one mile	25,410,756

Showing a net gain of 156,994 passengers, and for one mile a net loss of 9,687,691; and in freight a gain of 94,452 tons, and for one mile of 2,530,066 tons.

Our road beds and track have been kept in good condition, 11$\frac{1}{2}$ miles have been relaid with new iron, and 7$\frac{1}{2}$ miles with steel rails during the year. We have now on the whole line of road 68$\frac{1}{2}$ miles of steel rails. A new passenger house has been constructed at Georgetown, on our Newburyport Branch. An addition has been made to our Transfer Station in Portland, for the purpose of furnishing that place with a first class dining room, where passengers destined to points east of Portland may step off, and have more than thirty minutes for dinner. We have also nearly completed a new passenger house at Melrose. In connection with this new house, we have done much important work at this point, by a relocation of the tracks, whereby a bad reverse curve has been greatly improved, and an additional freight track and grounds secured.

A coal elevator of two thousand tons capacity has been constructed upon our wharf property at Mystic River, to be used as a place of temporary storage for coal when the same comes upon us in large fleets at one time. The new iron through bridge, referred to in our last annual report, as contracted for, has been placed over Lamprey River in Newmarket, and is believed to be a most substantial structure. We have purchased during the year additional lands in Lawrence for freight purposes, at an expense of $28,500. We have also constructed a line of telegraph from Lowell Junction in Andover, to Lowell. The large number of trains between Boston and Lowell and Lowell and Lawrence that this single track road is required to carry rendered this necessary.

A large amount of side track has been laid at various points on the road during the year, particularly in the State of Maine, to facilitate the movement of our trains. One of the piers to the bridge over Salmon Falls River has been rebuilt, as has also an abutment to a bridge in the town of Exeter. Much heavy work has been done in Portland in raising the height of our retaining walls. These improvements have involved considerable expense.

The number of locomotives in the service of the company is 73. Seven new locomotives have been added during the year, three of which take the place and number of three that have been worn out and broken up. We have also during the year added to our rolling stock 6 first class passenger cars, 2 parlor cars, and 2 combined smoking and baggage cars. We have now in use 132 passenger cars, including 5 parlor cars and 2 combined smoking and baggage cars. One new milk car has been constructed during the year.

The number of freight cars remains the same as at the date of last report.

The treasurer's accounts have passed through the same thorough examination by the auditor, Mr. A. R. Turner, as in former years. The result has proved the usual accuracy and ability with which this important department has heretofore been managed.

In closing another annual report, your directors would express their sense of the great responsibility under which they have been placed by your confidence. They hope that their labors have not been in vain, and that the result of the year's operations will meet your approval.

Auditor.—A. R. TURNER.

Chesapeake and Ohio Railroad.

The opinion of the United States Circuit Court for the Eastern District of Virginia, in the case of A. F. Richards and others against the Chesapeake and Ohio Railroad Company, was delivered on the 3d inst. by Judge Bond at Alexandria, Va. The Judge announced that an order would be issued for the discharge of Henry Tyson, the receiver appointed by him, and the parties would be allowed to proceed in the State Courts, according to the desire of a majority of the creditors. Chief Justice Waite, though absent, concurred in the decision. The effect will be to place the road in the hands of General Wm. C. Wickham, the receiver appointed by the State Courts. It is stated that as soon as Gen. Wickham takes possession of the road those most interested will proceed to the foreclosure of the mortgages and sale of the property, and it will be purchased in the interests of all classes of the creditors and reorganized. The 20th inst was fixed upon as the time by which the receiver must settle his accounts.

☞ The directors of the Nashua, Acton and Boston, and the Concord, N. H., Railroads have entered into an agreement to execute a lease of the first named road to the latter corporation for the term of ten years.

☞ Twenty miles of the Wisconsin Central Railroad from Stevens Point to Portage have been completed.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

Asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, January 8, 1876.

Financial and Commercial Affairs.

The New Year opened with Money in active demand in the local market, chiefly on speculative account, with call loans quoted to the leading Street firms at 6@7 per cent as the rule, though exceptional transactions were reported toward the close at 7 per cent gold, and in a few instances also at ⅛@¼ of one per cent per day. The stringency, however, was considered as merely temporary, as the conditions of the market were favorable to an early relaxation, in view of the very liberal interest and dividend disbursements now in progress. Government has already paid out here over eight millions of coin interest on the 1st of January account. In the line of mercantile credits, a moderate business has been reported on the basis of 6½@8 per cent per annum on very choice to prime commercial paper. The City banks made an important gain in specie and deposits, and enlarged slightly their loan and discount averages, last week. A moderate falling off occurred in the legal tender reserve, and their circulation was also reduced. The U. S. Sub Treasury had its coin hoard augmented considerably, in preparation for the 1st of January interest disbursements, while its currency reserve was cut down moderately. The City Banks have had their deposits increased $3,937,300; and their legal tender reserve diminished $887,300. The specie average has been augmented $3,473,400. The loan and discount item was enlarged $379,000. The circulation was contracted $159,700. The U. S. Sub Treasury in this city closed the

week with a currency balance of $37,118,009, against $37,561,740 the preceding week; and a coin board of $45,873,600, against $42,093,801 on the previous return. The City bank exchanges in currency reached $349,257,683, or a daily average of $69,851,526. The customs revenue of the port, during the week was only $870,000. The City banks reported their average of gold last week at $20,233,300, and their greenback average at $39,921,900. Their deposits stood at $204,578,100. The loan item was $264,062,500. The circulation was $18,971,000.

The U. S. Sub Treasury receipts from all sources in December were $61,787,604, including $5,615,142 from customs; and the disbursements on all accounts were $39,682,590, including $6,464,781 of coin interest.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $9,013,675.

The aggregate of the outstanding U. S. currency, of all denominations, December 1st was $416,575,440. The outstanding amount of legal tender notes is $1,827,220. The National bank circulation is now $343,938,278, including $2,127,750 of national gold bank notes.

The specie shipments from San Francisco, January 1 to Dec. 31st, were $43,027,726, against $29,084,575 same time in 1874.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency $11,117,345; special deposit of legal tenders for the redemption of certificates of deposit, $35,175,000; Coin, $79,824,448; Coin certificates, $31,198,300.

The week's import entries of Foreign Merchandise at New York were $4,529,960, including $653,960 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 59 millions; and from Customs, 80 millions.

The last public debt statement indicated a further liquidation of $1,915,063 in December, bringing the aggregate indebtedness, less the cash in the Treasury, on Jan. 1, 1876, down to $2,119,832,195. The reduction in the net aggregate in debtedness, during the six months ending with December 31, 1875, was $8,856,531.

Gold has been more variable as to price, during the week; with rather more animation in the speculative dealings, though the customs call was limited, and the export drain light. The later transactions indicated a weak market. The extremes of the price during the week have been 112⅜@113¼, closing on Wednesday at 112⅜ as against 113, on Wednesday of the preceding week. The specie outflow last week was $417,157 against $293,785 the previous week, and in all 1875 $70,896,694, against $59,510,776 in 1874. The imports of specie at this port last week were $16,136, and in all 1875 $12,756,426, against $6,264,464 in 1874. The customs demand for gold last week averaged only $174,000 per day. Foreign Exchange has been in less request and quoted easier in price. Bankers' sixty day bills on London closed on Wednesday at $4 83¾@$4 84¼; sight bills on London at $4 87¾@$4 88¼ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,012,328. The week's imports of Dry Goods and general merchandise were to the specie value of $4,529,960, as against $4,971,137 the corresponding week of 1874. The aggregate specie value of the dry goods and general merchandise imports at this port in 1875 was $322,527,654 against $385,826,370 in 1874; and $380,683,558 in 1873.

The Treasury Disbursements on all accounts (other than the interest and principal of the public debt) in December were $14,917,351.

Government Securities have been fairly active through the week, but somewhat variable as to price, influenced by the fluctuations in Gold, closing with a fair show of steadiness, on restricted offerings. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $364,690,112. The January and July coupon bonds are now quoted ex the 1st of January coupons.

U. S sixes of 1881 closed on Wednesday of this week at 120⅝@120⅞; U. S. Five-Twenties of 1864, at 113¼@114; U. S. Five-Twenties of 1865, 116@116¼; U. S. Five-Twenties of 1865, consolidated, 117⅛@117⅜; U. S. Five-Twenties of 1867, 119¼@119¾; U. S. Five-Twenties of 1868, 120@120¼; U. S. Ten-forties at 118¼@118½; U. S. Fives of 1881, (Funding Loan) 116¾@117; Six per cent. currency Sixes, 122½@122¾.

State and Railway bonds have been fairly active, with the demand mainly on investment account and have been quoted stronger toward the close. And in the line of Railway and Miscellaneous share property, business has shown more animation, with values, however, quoted irregular, though, toward the close, generally much firmer, notwithstanding the stringency in Money.

General business has been on a moderate scale, with values of domestic produce somewhat unsettled, and of foreign merchandise, essentially unchanged. The export call for produce has been rather more animated. The Metal trade has been slow; American Pig Iron attracting most attention. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock $31@$32; Coltness $33; No. 1 American Pig at $23@$24; No. 2 do. at $21@$22; Forge, $16@$20; English Rails (in bond) $35@$36 gold American Rails at works, $45@$48; Old Rails $22 50@$23 50. Wrought Scrap, $30@$31. Ocean freights have been more active, but quoted lower with room for Grain, Flour, Cotton and Petroleum, most sought after.

The cotton receipts of last week at all the ports amounted to 187,000 bales, and these place the whole receipts of the crop season to date at 2,341,000 bales, as against 2,109,000 bales to the corresponding date last season. The exports to foreign markets were 98,000 bales, and the stocks in the ports, including cotton on shipboard not cleared, amount to 804,000 bales. The stocks on January 1, last year, were 822,000 bales.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, Dec. 15, 1875.

A DIVIDEND OF FOUR PER CENT. HAS been declared by this company, payable on the 1st day of February next to the holders of full-paid shares registered at the close of the 15th day of January next, after which and until the 5th day of February the transfer books will be closed.

L. V. F. RANDOLPH, Treasurer.

☞ Among the changes in prominent business firms of New York announced is one in the well-known banking house of Messrs. Drexel, Morgan & Co., Mr. Jos. W. Drexel, who has heretofore been the resident partner in New York, having withdrawn from that position and given place to Mr. Egisto P. Fabbri, who becomes a member of the firms in New York, Philadelphia and Paris, and will be a resident partner in New York. Mr. Fabbri's career of many years as senior partner of Fabbri & Chauncey has earned for him a reputation in commercial and banking circles of the highest order, and general satisfaction is expressed at his future connection with a banking house of such recognized position and influence. The other partners in New York, Philadelphia and Paris remain unchanged.

☞ A loan to the Pittsburg and Connellsville Railroad, indorsed by the Baltimore and Ohio Railroad, for £1,350,000, was negotiated in London on the 1st inst. by Messrs. J. S. Morgan & Co.; also one by Messrs. McGalmont Brothers, for £2 000,000 of the Philadelphia and Reading Railroad.

☞ A Railroad Track Scale of 200 000 lbs. capacity and 100 ft. long is being erected at Cressona for the Philadelphia and Reading Railroad Company by Riehle Bros., Philadelphia.

☞ Wm. H. Bians has been elected President and Superintendent of the Annapolis and Elk Ridge Railroad, and J. G. Butler Secretary and Treasurer.

☞ A certificate of incorporation of the Bellaire and St. Clairsville Narrow Gauge Railroad, capital stock $50,000, was filed with the Secretary of the State of Ohio on the 26th ult.

Hatch & Foote,

BANKERS,

No. 12 Wall Street, N. Y.

BUY AND SELL GOVERNMENTS AND GOLD AT MARKET RATES.

EXECUTE ORDERS AT STOCK EXCHANGE.

INTEREST ALLOWED ON DEPOSITS.

TO THE BONDHOLDERS

OF THE

Chesapeake and Ohio Railroad Company.

By a decision rendered in the United States Circuit Court, the proceedings for the foreclosure and sale of the Chesapeake and Ohio Railroad are transferred to the State Courts of Virginia and West Virginia, and General W. C. WICKHAM has been appointed Receiver by these Courts, in accordance with the nearly unanimous choice of the Bondholders, and all other parties represented, to be put in possession on the 18th inst.

This result is of great importance to the interests of the Bondholders, and will inspire renewed confidence in the future of the enterprise, and promote the early consummation of the PLAN OF REORGANIZATION, which has already been accepted by Bondholders to the extent of over $10,000,000, including upwards of $6,000,000 of the First Mortgage Bonds. Many others have only awaited the decision of the questions pending in the United States Court.

It is important to the interests of all who desire to participate in its advantages that they should signify their assent to it without delay.

When it is accomplished, all the measures for the improvement of the connections and business of the Road will receive a new impetus; and in the hands of a reorganized Company, freed from financial embarrassment, and possessing the advantages of confidence and credit, a marked improvement in all its interests, as well as in the market value of its securities, must follow.

Copies of the Plan of Reorganization, which every Bondholder should obtain immediately, may be had at the office of FISK & HATCH, No. 5 Nassau Street, or will be mailed by them to any address.

We, the undersigned, being holders of First Mortgage Bonds, have accepted and heartily approve the above Plan of Reorganization.

NEW YORK, January 4th, 1876.

PHILADELPHIA AND READING RAILROAD CO., OFFICE No. 227 SOUTH 4TH ST., PHILADELPHIA, Dec. 29, 1875.

DIVIDEND NOTICE.

THE TRANSFER BOOKS OF THIS COMPANY will be closed on the 31st inst., and reopen on Monday, Jan. 17, next. A quarterly dividend of Two and a Half per Cent. has been declared on the preferred and common stock, clear of all taxes, payable in cash on and after the 25th of January next, to the holders thereof as they shall stand registered on the books of the company at the close of business on the 31st inst.

All dividends payable at this office, where blank orders for dividends can be obtained.

S. BRADFORD, Treasurer.

Martin Lewis,

Room 3. **43 PINE ST., N. Y.**

DEALER IN

Securities of Solvent and Defaulted Railroad Companies, also State, City and County Bonds.

Chesapeake and Ohio Railroad.

The foreclosure suit in the United States Circuit Court, sitting at Chambers, against the Chesapeake and Ohio Railroad, having been dismissed, an effort is now being made in the interest of the bondholders to perfect a plan of reorganization which will prove advantageous to all concerned. The plan proposed makes fair and equitable provision for all existing interests, and it aims to place the affairs of the road upon a sound basis and promote a vigorous development of its business and traffic at the earliest possible day. The plan has already been accepted by a considerable number of the bondholders, and it is proposed that it shall form the basis upon which the property will be purchased and the company reorganized.

It is proposed to obtain a decree for the sale of the property as early as practicable, under both the six per cent. and seven per cent. mortgages, so that the purchasers may acquire a perfect and satisfactory title to the entire property, franchises, and corporate rights of the Chesapeake and Ohio Railroad Company, subject only to the liens of the Virginia Central bonds, (to be provided for by a renewal or extension of these mortgages, or otherwise, as circumstances may require;) and that it be purchased, on behalf of the bondholders and creditors who shall unite in the plan, by a suitable committee or Trustees, to be hereafter selected by them. After the purchase is completed, and the reorganization of the company perfected, new securities to be issued as follows, viz:

First mortgage bonds, to be secured by a mortgage extending over the entire line, franchises and property of the company, subject only to the Virginia Central liens above described, payable thirty years after date, with interest at the rate of six per cent. per annum, principal and interest payable in gold, except hereinafter provided $17,000,000

Second mortgage bonds, payable forty years after date, with interest at the rate of six per cent, per annum, payable in currency, except as hereinafter provided 10,000,000

Further details of the plan are given in a circular issued by Messrs. Fisk & Hatch, and it concludes as follows:

"It is also believed that when the Chesapeake and Ohio Railroad Company is reorganized and re-established upon a sound basis, and its future control and policy so determined as to give to the Cities of Richmond, Louisville, and Lexington satisfactory assurance that it will be managed in harmony with the interests and plans heretofore entertained by them, the project for completing the Elizabethtown, Lexington and Big Sandy Railroad, by means of subscriptions from these cities, will be revived and successfully carried out. This will give to the Chesapeake and Ohio Railroad one of the most important of its contemplated Western rail connections, and doubtless result in the construction of one or the other of the projected lines along the Ohio River to Cincinnati."

☞ The returns of the foreign trade of Boston for the year 1875 show that while there has been a falling off in the value of imports to the extent of $2,785,497 as compared with the previous year, there has been a gain of $3,039,372 in the exports. The total value of foreign goods imported for the year ending Dec. 31, 1875, amounted to $46,997,-163, against $49,782,660 for 1874. The imports in 1873 were $61,562,396, in 1872 $72,685,620, in 1871 $63,369,184, and in 1870 $48,499,763.

The total value of exports in 1875 was $34,888,-027, in 1874 $31,848,655, in 1873 $32,610,288, in 1872 $23,700,366, in 1871 $19,610,553, and in 1870 $12,091,643. It will be seen by these figures that there has been a very large increase in the export trade of Boston in the last five years.

☞ The receipts of the Kentucky Treasury for the year ending October 10, 1875, are shown in the last report of the State Treasurer to have been $3,872,704 28; the expenditures were $3,-273,373 81, leaving a remainder of $599,330 47. The State is out of debt.

☞ The Western Counties Railway in Nova Scotia, connecting the port of Yarmouth with the Windsor and Annapolis Railway at Annapolis, is rapidly approaching completion. The work is being carried on nearly all along the line, and all but 23 miles is graded and bridged.

☞ The surveys of the Canadian Pacific Railway, which were begun in the summer of 1870, from the Valley of the Ottawa on one side, and from British Columbia on the other, have at last been connected. The point of connection is in latitude 53 degrees 6 minutes 36 seconds north, longitude 118 degrees 2 minutes 45 seconds west.

Finances of New York City.

The Mayor, in his message, says that during 1875 there has been a decided improvement in the finances of the city as compared with 1874, and then adds:

"I am informed by the Controller that during 1874 there were issued stocks and bonds amounting to $48,902,253 75, and that those falling due and paid off in the same time amounted to but $39,281,121 97, leaving, Jan. 1, 1875, an addition of $9,671,131 78 to the aggregate debt. But, while in 1875 there were issued stocks and bonds amounting to $35,806,539 62, those falling due and paid off in the same time amounted to $33,088,266 23, leaving, Jan. 1, 1876, an apparent addition of $2,718,273 39 to the debt. The aggregate amount of those classes of the debt, as stated by the Controller, on the 31st of December, 1874, was $115,187,980. There is, therefore, an apparent increase during the last year of $1,431,506 87. But the actual amount of the real indebtedness of the City (the bonds payable from the sinking fund or from taxation, less the actual amount in the sinking fund) has been diminished. On the 31st of December, 1874, it was $91,625,779 24; on the 31st of December, 1875, as shown by the above schedule, it was only $91,154,359 02—a decrease of $471,420 22. The apparent increase consists of bonds issued payable from assessments, and of revenue bonds issued to raise moneys for current expenses, in anticipation of taxes now coming in every day. Those bonds are all perfectly secured and will be paid off in a short time."

☞ The message of the Governor of Kentucky states the amount of outstanding bonds of that State at $184,894, of which only $10,349 are due, and which have not been paid because not presented. The other bonds are not due till 1894, '95 and '96. Abundant resources are on hand to meet the debt many times over. Excess of revenue proper over expenses in 1875, $361,604. Balance of war claim against the United States Government, $248,863.

☞ The gross earnings of the St. Louis, Iron Mountain and Southern Railroad for October, 1875, exclusive of land sales, were $388,603 75, the expenses $221,399 07, and the net earnings $167,204 68. In November, 1875, the earnings were $429,765 07, the expenses $218,964 33, and the net earnings $210,800 74.

Erie Railway.

The statements of the accounts of the Erie Railway Company prepared by the Receiver, Hon. H. J. Jewett, for the months of September, October and November, 1875, and examined by the Referee, Mr. James C. Spencer, were presented on the 31st ult to the Supreme Court, before which tribunal the suits of the Farmers' Loan and Trust Company and of J. C. Bancroft Davis were brought. According to the recommendation of the Referee, Justice Donohue approved and confirmed the accounts, and they were placed on file in the County Clerk's office.

Separate reports of the business of September and October and of the business of November are made. The report of the Referee in relation to the business of September and October, after reciting his appointment and the beginning of his investigations on Nov. 4, submits the statements of accounts contained in Exhibits, A, B, C, D, E and F, and comments on each of them. Exhibit A, he says, was verified by William P. Shearman, the Cashier of the Receiver, on account of the latter's illness. According to this statement, which is a detailed account of the receipts and expenditures of the Receiver, there was a balance on hand in October of $441,871 81. The following is the Receiver's account with the company for the two months of September and October, excluding the receipts and payments on accounts, accruing before his receivership:

RECEIPTS.

Purchase of securities	3,175 00
	$2,948,979 70
Add amounts paid on matters accruing prior to appointment of receiver, including $495,000 loans	1,027,596 23
	$3,976,575 93
Balance	441,871 81
Total	$4,418,447 74

Exhibit B is a condensed statement of receipts and expenditures. Exhibit C is a table of ledger balances from May 27 to Oct. 31, being the aggregate postings of all the accounts current on the books. Exhibit D is an analysis of the cash balance as shown by A and B, and is intended to show that the actual amount of cash on hand Nov. 1, 1875, was $194,387 07, and the balance of $247,484 74, which goes to make up the ledger balance of $441,871 81, consists of cash items or debit items, explained by the exhibit as being accounts not settled, which are actual assets. Exhibit E is a statement of outstanding and unpaid certificates of indebtedness, and notes from May 27 to Oct. 31, and of the certificates and notes that have been paid during that time. It shows that the outstanding and unpaid paper on Sept. 1 was $821,539 40, and on Nov. 1 was $966,539 40, being an apparent increase of $145,000. Exhibit F consists of the depositions of W. P. Shearman, Cashier of the Receiver, Stephen Little, Auditor of the Receiver, and Augustus Stein, a professional accountant in the employ of the Receiver. These depositions are in explanation and verification of the preceding exhibits.

In conclusion, the Referee says that these papers comprise all that was submitted to him; that no objections was made by any one before him to the accounts, nor to the manner and form of the accounting, nor was any additional proof or evidence offered by any one, and that the following facts were proved and established by the said accounts:

1. That the balance in the possession of the Receiver, and accounted for by him and carried over as "balance," was $373,592 48.

2. That the aggregate receipts for the months of September and October, including the balance, was $4,925,770 36, while the aggregate disbursements were $4,483,808 55, leaving a balance on hand, Nov. 1, of $441,871 81.

3. That this is not an actual cash balance as explained by Exhibit D, which shows that $247,484 74 consisted of cash paid out as advances or partial payments on accounts and business transactions, which were not in condition to be carried forward and placed to the Receiver's credit, but which will be credited hereafter.

4. That the aggregate amount of the certificates of indebtedness and notes issued by the Receiver up to Nov. 1 was $1,536,539 40. The aggregate amount paid and canceled up to the same time was $570,000. This makes a balance of $966,539 40 of paper now outstanding, which when compared with the aggregate outstanding on Sept. 1, of $821,539 40, shows an apparent increase of $145,000.

5. The accounts are evidently correct and truthful.

In consequence Mr. Spencer recommended that the accounts be approved and allowed by the court.

The second report is similar in form, and shows the business of the road for November. It is accompanied by a similar set of accounts or exhibits, of which the first, or Exhibit A, shows a balance on hand Dec. 1 of $518,171 62. The following is the receiver's account with the company for the month of November, excluding the receipts and payments on accounts accruing before his receivership.

RECEIPTS.

Balance, as per October account	$441,871 81
Transportation receipts, freight	1,719,911 48
Transportation receipts, passengers	852,027 44
Telegraph	3,527 96
Train service	15,927 85
Old materials	8,759 26
Sale of real estate	1,035 72
Insurance	1,597 80
Outstanding coupons and dividends of leased roads	7,817 50
	$3,552,286 02
Earned before Receiver's appointment	32,539 45
Total	$3,584,825 47

PAYMENTS.	
Traffic balances, passengers	$24,217 31
Traffic balances, freight	363,560 56
Drawbacks and overcharges	88,501 85
Loss and damage	7,156 24
Line labor rolls	655,255 86
General office rolls	28,362 39
Incidental expenses	1,870 28
Salaries, etc., passenger agencies	16,497 64
Legal expenses	2,505 62
Supplies	285,125 26
Iron bridges	23,157 97
Purchase of cars	25,585 33
Real estate mortgages	36,245 16
Loans	185,000 00
Rents	38,126 96
Taxes	8,813 83
Injuries to persons	736 10
Trackage	2,314 76
Lighterage	15,099 47
Interest on mortgage bonds	96,915 00
Interest	2,145 60
Gaslight	3,227 76
Water	5,675 72
Premium on gold	145 00
Mileage	1,502 96
Purchase of locomotives	29,400 00
	$1,915,538 42
Payments on matters accruing before receivership	151,115 43
	$2,066 653 85
Balance on hand	518,171 62
Total	$2,584,825 47

Exhibit B is a condensed statement of receipts and expenditures. Exhibit C shows the ledger footings to Dec. 1. Exhibit D shows that the actual cash balance on hand is $202,961 51, while the cash items or debit items are $315,201 11; making the total balance on hand $518,171 62. Exhibit E shows that there were outstanding certificates of indebtedness and notes on Nov. 1, aggregating $966,539 40, and that there were on Dec. 1, only $781,539 40; showing an apparent diminution of $185,000. Exhibit F consists of depositions in verification of the accounts.

The Referee says that in inspecting the accounts for the month he examined over 1,500 vouchers, which were all regular. That full opportunity was given to the attorneys of parties in interest to examine any of them. That they did so examine many, and that no objection was offered. That the pay rolls, which were held as assets, being forwarded in duplicate to the Paymaster, together with the cash requisite to settle them, would, it was promised by the Referee, be fully accounted for in January, up to Jan. 1. That there were other accounts in a similar condition. And that the following facts were established by the accounts.

1. That the balance on hand Nov. 1 was $441,871 81.

2. That the receipts for the month, including this balance, were $2,662,530 06, and the disbursements, $2,144,358 44, leaving a balance on Dec. 1 of $518,171 62.

3. That the actual cash balance on hand was $202,961 51, and that the balance of $518,171 62 included cash items or debit items of $315,210 11.

4. That the aggregate certificates of indebtedness and notes issued up to Nov. 30 was $1,536,539 40, and that the aggregate amount paid up to that time was $755,000, leaving outstanding Dec. 1 the aggregate amount of $781,539 40, which compared with the amount of $966,539 40 outstanding Nov. 1, shows an apparent reduction in November of $185,000.

5. The accounts are truthful and correct, and the Referee, in consequence, recommends that they be confirmed.

☞ From the address of the mayor of Providence, R. I., we learn that the receipts for the year 1875 were $5,862,818 68, and the expenses $5,910,256 76. The funded debt of the city was increased last year to $6,800,000 by an issue of $600,000 for the construction of sewers, and for $800,000 for the building of a City Hall. The amount of the floating debt at the close of the fiscal year was $2,020,796. The Sinking Fund Commissioners have on hand funds to the amount of $719,743 53, besides 181 bonds of the Hartford, Providence and Fishkill Railroad Company, which are secured by mortgage on the road, which are due and which the Counsel has threatened the Trustees to foreclose.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

The Coal Trade.

The quantity of anthracite coal sent from all the regions for the week to the 25th ultimo was 141,348 tons, and of bituminous 88,242 tons, being a total of all kinds of 179,590 tons, against 151,340 tons in corresponding week last year, being an increase of 140,919 tons of anthracite and of 392,904 tons of bituminous, and a total increase of 533,823 tons. The quantity sent from all the regions so far this year is 19,802,089 tons anthracite, and 3,872,146 tons bituminous—total, 23,674,115; against 23,140,892 tons last year. Increase of anthracite, 140,910 tons; increase of bituminous, 392,904 tons; total increase, 533,823 tons. At Port Richmond for the week ending on the 31st ultimo there were receipts of 1000 tons of coal and shipments of 5000 tons, leaving 156,500 tons on hand. The quantity of coke and coal transported over the Pennsylvania Railroad for the last week was 87,549 tons, and for the year 4,270,860 tons, of which 3,507,407 was coal and 674,765 coke. This embraces all the coal carried both east and west. The receipts of coal at Perth Amboy for the week ending on the 24th ultimo were 11,375 tons; total received during the season, 52,318 tons; shipments for the week, 5661 tons; total shipments for the season, 27,771 tons; leaving on hand 77,094 tons.

☞ The firm of McIlhenny & Co., of Tamaqua, Pa., have been awarded the contract on the Pittsburg and Northwestern Railroad, for the two and one half miles of heavy work in the vicinity of Perrysville.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, January 15, 1876.

Foreign Railroads.

A few cursory remarks on foreign railroads cannot at this season of the year be out of place. Distance and official delay in placing information before the public, however, will prevent us from giving any very late statistics respecting them; but we can present our readers with the latest of record, and ask them to be satisfied therewith. Even in our own country we are not blessed with information until it is from six months to a year old, and then it has to be picked up *seriatim*, there being no central office for the condensation of reports and the publication of results. In all we may say we follow "Herapath," the best authority in Europe. In our issue for January 1, we computed the railroads of the United States at 76,756 miles, and their cost at $3,941,333,197. The increase during the year was 1,750 miles and $66,742,920. As near as can be estimated this cost is based on stock and debt in about equal proportions. It would not, however, be wise to say that in a financial sense they are worth the amount stated to have been their cost. There has been an immense amount of stock-watering; immense shaves in discounts and commissions; and an immense shrinkage in values consequent on the recent money panic. Prices at the New York Stock Exchange are perhaps as conclusive of real values as can be deduced, and certainly they do not show an average of 50 per cent on the stocks dealt in by that Board. Inferior stocks, sold at auction, bring scarcely cents for dollars, and are frequently sold thus in clearance lots. Bonds, of course, are a better security than stocks, and consequently hold their face to a larger extent. But even first bonds of the best corporations are selling at low figures, and at least one-half the total issue of firsts, seconds, thirds, etc., have only a nominal value. We may therefore conclude that there is no real value to one-half the nominal cost of our railroads.

With this digression we pass on to the subject of our caption.

During the past year our neighbors of Canada have completed their great Intercolonial. In connection with the Grand Trunk it makes a continuous line from the upper lakes to the sea. The Canadians are also constructing a Pacific line, and will probably complete it from Lake Superior to Manitoba (Red River) during the current year. The total mileage of railroad in the Dominion, at the close of 1875, was 5,163 miles, not a mile of which is paying dividends on ordinary stock. As developing agents they are of incalculable value to the country, and as such are liberally supported by government. Three new connections with United States roads have been made during the year—at Newport, Vt., at Mooer's, N. Y., and at Ogdensburg, N. Y. The most important of these is the line along the west shore of Lake Champlain, intended for the coal trade.

Mexico, our neighbor on the south-west, is still considering the subject. During the year, however, a concession has been granted for a line from the Capital to the United States border on the Rio Grande, to connect ultimately with the International, etc., now in course of construction in Texas. The only road as yet built in the republic is that from Vera Cruz to Mexico, which with its branches has a length of 300 miles. It is owned chiefly in England, and is or will be a valuable property.

The Central American States have as yet accomplished little. The Costa Rica Railroad is open for about 50 miles, and will probably be completed in two or three years. Honduras is also projecting and has borrowed (and mis-appropriated) largely from England.

In South America a very considerable advance is observable. Brazil commenced the year 1875 with 836½ miles completed, 1034⅞ miles in progress, and 2392½ miles conceded and mapped out. The Argentine Republic has increased its railroads by some 200 miles, and has already about 1000 miles completed, the principal of which are the Great Southern 202, the Central Argentine 246, and the Eastern Argentine 105 miles. The Central will be carried to a connection with the Chilian railroads. Uruguay has completed its great central line 127½ miles. The Pacific republics have added but little to their status a year ago. The whole line to Lima is now complete, and is being carried up the mountains. Railroad building has been commenced in the Colombian States of Cauca and Antioquia; otherwise in South America little or nothing has been accomplished in railroad matters.

Turning to Europe, we fail to find the usual vitality among the nations. True, we find continuous additions to their railroad mileage; but little new or startling in project or execution. Relatively, however, Italy and Switzer-

land, and to some extent Austro-Hungary have been active in construction. There is nothing new in the great nations—England, France, or Germany. The same may be said of Russia. At the latest dates (stated) the length in the States named was as follows:

	Miles.
Great Britain (October, 1875)	16,449
France (March, 1875)	11,918
Germany (October, 1875)	14,023
Austro-Hungary (June, 1875)	9,001
Russia (June, 1875)	11,276
Switzerland (October, 1875)	1,257
Italy (June, 1875)	4,662

With regard to the less important States, we lack that information which is necessary for our purpose. Herapath, our guide, is to blame! But we suppose that each and all have been doing something towards swelling the railroad mileage of the world.

In this connection we ought not to omit mention of the projected tunnel between England and France. It is a bold engineering attempt; but what is to deter after the accomplishment of so many apparently impossible works. The latest report is that the tunnel will be commenced during the current year.

Crossing from Europe to Africa, we find Egypt active in the right direction. During the year the new interior line has been opened from Cairo to Siout. The Barbary States appear to be at a stand-still. Algeria, however, which has had 320 miles for the last half dozen years, is again projecting and intends soon to penetrate not only its own territory but also the great central desert. In South Africa the English have projected and are now building some thousand miles of railroad.

British India is still hard at work and has probably at this date some 7,000 miles. At the opening of the year 1875 the length in operation was 6,260 miles of which 727 miles were double. This has all been built in a little more than twenty years. The first Anglo-Indian road (21½ miles) was opened in 1853, and to the close of 1856 only 171 miles had been completed. In the neighborhood of India some progress has also been made. Ceylon is being liberally provided with railroads; Java has also commenced operations, and has already 160 miles in use; and Japan in March, 1875, had opened 38 miles at a cost of £3,482,000 sterling! At Mauritius the British had in 1875, 66¾ miles.

The British Colonies of Australia, however, have been more actively engaged in railroad building than any other country. New Zealand is also becoming a railroad power. The new Colony of Victoria had in October last 599 miles; that of Queensland in June last, 188; and a year ago New Zealand had in operation 260 miles and was building nearly 1,000 miles in addition.

We estimate that there are now in operation throughout the railroad world about 185,000 miles. We cannot suppose that including "discounts and commissions" this mileage has cost on an average less than $100,000 per mile! This would make a total disbursement on account of railroads of $18,500,000,000! To individuals what fortune or what misery has the disbursement of this vast pile wrought. But compensation is found in the utility and the convenience of possessing such a vivifying agent as the railroad to do the drudgery of frail humanity. The individual may go down, but the great mass reaps an untold benefit. t is thus in every human effort.

Michigan Central Railroad.

To the President and Directors of the Michigan Central Railroad Company:

GENTLEMEN: The condition of the company on the 1st day of December, 1875, is shown by the following statement:

The receipts of the main line and branches for the six months, ending November, 1875, were		$3,373,218 52
The operating expenses of the main line and branches, accurate for five months, and estimated for November, are	$2,383,876 28	
The interest account for the same time amounted to	804,249 27	
		3,188,125 56
		$185,092 96

The bonded debt of the main line now amounts to:

First Mortgage Loan, due in 1882	$556,000 00
Sinking Fund Loan	2,179,000 00
Seven per cent Consolidated Loan	8,000,000 00
Equipment Mortgage Loan	556,000 00
	$11,291,000 00

From the first two items in the above statement must be taken the bonds of this company of the same class, paid and in the sinking funds $672,000, which will reduce it to now outstanding $10,691,000.

The sum in the sinking fund (not including the $672,000 of the bonds of the company) at their par value, amounting to $1,044,719 57, will reduce the amount of the above outstanding bonds to the whole extent of the value of that fund and its accumulations.

The bonded debts of the leased roads, which have been assumed by this company, are as follows, all bearing eight per cent interest:

Michigan Air Line	$1,900 000 00
Michigan Air Line, South Bend Div.	200,000 00
Grand River Valley	1,500,000 00
Kalamazoo and South Haven	710,000 00
Jackson, Lansing and Saginaw	4,253,000 00
This company has also endorsed the bonds of the Detroit and Bay City Railroad Company, to the amount of	424,000 00
The capital stock stands as at last report	18,738,204 00
Construction account amounts to	27,936,747 74
The floating debt as per June report was	770,015 16
It now amounts to	964,440 03
Showing an increase of	194,424 87
Of this amount however	435,888 80

have been given for steel rails since June last.

The floating debt of June last has been reduced by payments to $542,218 80.

Dated at Detroit, December 20, 1875.

C. FREDERICK LIVERMORE,
Treasurer.

PRESIDENT'S STATEMENT.

It is not usual to make any statement at the close of the half year after the annual report, except that of the treasurer, of the financial condition of the company. The past year, however, has been so extraordinary in its results, that the board has deemed it fitting to place the causes before the stockholders in an additional statement. The floating debt also requires explanation.

The statement of the treasurer shows the cash receipts which have come into the treasury, the interest paid during the six months, and the operating expenses, as they appear on his books, except the month of November, which are estimated on the basis of the October expenses, the accounts for those of November not being yet complete. The receipts are not exactly the same as the earnings, being sometimes more, and sometimes less, depending upon the amount of earnings unrealized at the date of any statement of them.

The earnings of the road and branch lines have been for the past six months, ending with November		$3,359,309 25
Which is less than they were for the corresponding period the prior year by		439,687 94
The earnings for twelve months, ending at the same time, have been		6,662,598 47
And are less than the earnings of the same period the year before, by		955,823 69
The expenses for the year ending with November have been, as above stated		4,953,067 56
For the same period the prior year they were		5,246,494 00
Showing a reduction in the operating expenses of		293,426 44
The net earnings for the last year have been		1,718,503 52
While those of the same period the year before were		2,371,926 48
Showing a falling off in net earnings of		653,422 96

The business of the road, notwithstanding this decrease of both gross and net earnings to these large amounts, has been larger than it was in the previous or any preceding year, the tonnage of all classes having increased, and in the aggregate, for the last six months, on the main line, 64,184 tons.

It is not, therefore, loss of business which has affected the revenues, because a larger business has been done. It is not the increased cost of doing it, because the enlarged business has been done at a less cost by $293,426 44. It is simply a loss in the rates, resulting from, as we think, an unwise policy of competition, instead of agreement and compromise among competing lines, and this loss in rates is so much lost to the net earnings of the road. The expense of doing the business has been incurred, and all lost by reduced rates is loss of net earnings. The net earnings of the last twelve months, therefore, should have been $2,674,326 95, at only the rates realized during the year ending with November, 1874. Those who have read the last annual report are aware how much rates had been reduced at that time. They are also aware of the effects produced upon the rates of all east bound freight by the additional competition generated by the opening of the Baltimore and Ohio Road, as stated in that report. The competition which has resulted from the reconstruction of the Grand Trunk with a steel track, making it a first-class road, has been even more fatal to the maintenance of rates, and practically the whole value of west bound business, so far as freight is concerned, both from Boston and New York, has been destroyed. Until of late it has been done by a system of contracting by the rival roads and lines of cars running over them at very low rates, and now by a proclaimed tariff at about the same rates as were made by the contracts, which, on first-class business is about one-fourth of the usual and fair rate. Three-fourths and more of the value of the business is thrown away, because the rates realized do not pay cost of transportation. All profit, and much more is lost, sacrificed by a competition which really looks more like insanity, than the result of any wise consideration of the circumstances.

Will this state of things continue? It results from the fact that the Grand Trunk, though now

an excellent road, is so much longer from Boston, that the average time by it for freight between that city and the West is perhaps twenty-four hours longer than by the direct roads. This time is a material element when the rates are the same, in determining the course of business. At the same rates it could not compete for business with success. It claims, therefore, that to put it upon equality, it shall be permitted to make some difference in its tariff rates by agreement, and that then the rates fixed and agreed upon shall be maintained by all lines. To this the managers of the direct lines refuse to accede, and the result is that both are doing business practically for nothing. The Baltimore and Ohio, therefore, destroyed largely the rates on east bound, and the competition with the Grand Trunk has destroyed almost entirely all the rates on west-bound freight during the whole year. The controversy with B. & O. Road also reduced the passenger rates during nearly all the year, twenty-five per cent. It is causes like these, wholly beyond the control of this company, which have so seriously affected railway property east of Chicago during the past several years. That great wisdom and discretion are required in those who have the power to obviate them, is certain, and yet that they are avoided in all other countries, is equally certain. They have been, and it is hoped permanently, obviated on the east bound business, and all roads east of Chicago are acting in harmony. They will sooner or later be obviated with the Grand Trunk, because a business, the whole value of which is destroyed, is not worth contention. All the roads leading from Boston and New York west cannot afford the permanent sacrifice of all the value in their whole business from those cities west, rather than recognize the existence and power of the Grand Trunk, and make some arrangement with it which shall result in fair and paying rates on the business which may be done on all lines. And with this difficulty arranged, it seems to be clear that there will remain no good reason why the roads east of Chicago may not, within a year, earn and make reasonable dividends.

With regard to the floating debt of this company, which is stated at $964,440 03, the sum of $435,838 80 is for steel rail. There had been contracts made for steel rail enough to complete the main line before the panic. One contract for five thousand tons was yet out, and the rails had not been delivered. It could not be canceled. Five hundred tons were delivered in 1874, and paid for. The remainder 4,500 tons, have been delivered the past year, and partly used. For this rail there have been given, since the last annual report, the notes of the company to the amount of $435,838 80, falling due from June, 1876, to August, 1877. The floating debt, other than this, which in June last stood at $770,015 16, has been reduced December 1st by payments to the sum of $542,218 30.

By order of the Board,

JAMES F. JOY,
President.

Erie Railway.

From the Annual report of the Erie Railway Company for the year ending September 30, 1875, we learn that the total amount of capital stock paid in amounts to $86,536,910, the funded debt $54,271,814, and the floating debt $1,421,641 83. The cost of the road and equipment is given at $115,995,946 68. The number of passengers carried during the year was 5,052,855, not one of whom was injured, except a few who were hurt getting on or off the cars. The number of tons, of 2,000 pounds, of freight carried in cars was 6,239,948; and the total movement of freight, or number of tons carried one mile, was 1,016,618,050. Of the total freight, mineral coal supplied 3,852,567 tons, vegetable food 674,171 tons, merchandise 558,258 tons, manufactures 322,860 tons, products of the forest 179,514 tons, agricultural products, exclusive of vegetable food, 113,195 tons, and other articles 255,503 tons. The cost of maintaining the road during the year was $3,321,370 57, the expenses of repairs of machinery amounted to $2,446,863 58, and the operating expenses reached $6,910,806 85—making the total transportation expenses $12,679,130 95. The gross earnings were $17,677,746 49, of which $12,287,899 85 was for freight. The total payments, including the $12,679,130 95 for transportation expenses, amounted to $19,030,911 26—leaving a deficit at the close of the year of $1,253,164 77. The following table gives a summary of the payments other than for construction:

For transportation expenses		$12,679,130 95
For interest:		
On the funded debt... Gold	$2,833,267 50	
Currency	928,697 00	
		3,761,964 50
On Long Dock bonds		210,000 00
On Boston, Hartford and Erie bonds—Guaranteed interest:		
Delaware and Hudson Canal Company	$105,000 00	
Weehawken Docks	28,000 00	
		133,000 00
On Weehawken Docks mortgage		66,671 93
On loans, etc	$175,412 89	
On mortgages, etc	31,382 28	
		206,795 17
Gold premiums		114,247 84
Rentals of leased lines	$689,013 25	
Suspension Bridge and Erie Junction R. R. rent	$70,000 00	
Less 30 per ct. of earnings	31,294 98	
		38,705 02
Paterson and Newark Railroad rent	$35,000 00	
Less 35 per ct. of earnings	23,107 48	
		11,892 52
Erie Railway's proportion of loss operating Cincinnati, Hamilton and Dayton Railroad		62,804 07
		802,414 86
Taxes:		
Of State of New Jersey on equipment	$19,337 33	
State of Pennsylvania tax on gross receipts from May, 1868, to July, 1873, inclusive	81,635 14	
		100,972 47
For use of Jefferson Car Company's cars, nine months		94,500 09
Expenses other than transportation:		
London transfer office expenses		39,688 39
Legal expenses, London		5,745 00
Pavonia ferries	$207,922 91	
Pavonia Horse Railroad	35,385 54	
Pavonia Horse Railroad, interest on guaranteed bonds	210 00	
Erie baggage express	64 557 11	
Weehawken docks	130,021 43	
Grand Opera-house property	50,950 86	
Unclaimed freight and baggage department	5,386 74	
		494,434 59
Claims due prior to Oct. 1, 1874, paid		821,346 06
Total		$19,030,911 26
Receipts		17,677,746 49
Deficit		$1,353,164 77

Lake Shore and Michigan Southern Railway.

At a meeting of the directors of the Lake Shore and Michigan Southern Railway Company, held in this city on the 5th inst., a report of the business transacted during the six months ending December 31, 1875, was read. The following is an abstract:

Gross earnings	$7,545,000
Operating expenses and taxes	5,051,000
Net earnings	$2,494,000
Interest on bonded debt, leases of branch roads, and dividend payable Feb. 1, 1876, on guaranteed stock	1,419,000
Balance	$1,075,000

The variation in earnings, (principally in the first three months of the above period,) compared with the last half of 1874, is as follows:

Loss on freight	$873,000
Loss on passengers	133,000
	$1,006,000
Gain on mails, express and miscellaneous	57,000
Aggregate loss	$949,000

The loss on freights was caused by the following:

Diminution in volume	7.66 per cent.
Less prices on business done	15.65 per cent.

The average rate per ton per mile has been, in 1875, 0.997 cent; in 1874, 1.182 cents.

The cost of steel rails, in excess of the value of the iron rails for which they were substituted, is included in operating expenses. The amount of steel rails laid on main line during 1875 was about 12,000 tons, and the amount of iron rails laid (principally on branch lines) during the same period was about 9,000 tons. The amount of steel rails to be laid on main line during 1876 will, it is estimated, be about 15,000 tons. A considerable part of the steel rails laid in 1875 having been paid for with old iron rails, (the full value of the steel being, however, included in the operating expenses above stated,) the money which would otherwise have been expended therefor is in hand and constitutes a fund applicable to providing the steel rails intended to be laid in 1876. The road, machinery and property of the company have been in all respects fully maintained at its standard high condition.

The bonded debt of the company at this date is	$36,250,000
Against, at same time last year	36,500,000
Diminution by means of the sinking fund, the obligation of which has been fully complied with	$250,000

A resolution was passed declaring a dividend of two per cent upon the capital stock of the company, to be paid on the 1st of February next.

☞ The people of Belmont county, Ohio, are becoming very actively interested in the building of the Tuscarawas Valley and Wheeling Railroad from Bridgeport to Uhrichsville. Two routes have been located, and an active canvass for stock is going on along both. A branch to St. Clairsville is proposed.

☞ Another effort is being made to build a branch of the Cleveland, Mt. Vernon and Columbus Railway from Millersburg, in Holmes Co., Ohio, to Dresden, in Muskingum Co.

☞ The directors of the Wheeling and Lake Erie Railroad have authorized their executive committee to contract with General H. Mckee to build the road from Martin's Ferry to Zoar.

Boston and Lowell Railroad.

At the annual meeting of the stockholders of this company, held in Boston on the 5th inst., the report of the directors for the year ending September 30, 1875, was presented and accepted. For the purpose of bringing before the meeting the recommendation of the Directors that they be authorized to issue the bonds of the Corporation to an amount not exceeding seven hundred and fifty thousand dollars, and apply the proceeds to the payment of the floating debt, Col. J. H. George offered the following notes:

Voted, That the Board of Directors be authorized to issue bonds of the corporation to an amount not exceeding $750,000, in denominations of $1000 each, having not more than twenty five years to run, with interest payable semi annually at the rate of not exceeding seven per cent. a year in currency or six per cent. in gold; said bonds to be sold at not less than par, and the proceeds, including all premiums thereon, applied for the purpose of funding the floating debt of the corporation, and that when said bonds shall be issued the Board of Directors shall appoint a suitable person who shall certify that the same are properly issued and recorded upon the books of the corporation.

Voted, That the Board of Directors be authorized to set aside such a per cent. of the income as they may think expedient as a sinking fund for the payment of the bonds of the corporation as they shall become due in accordance with the usage established by vote of the stockholders at their adjourned meeting held Jan. 30, 1856.

After discussion the two votes were passed, the duration of the bonds being fixed at twenty instead of twenty five years, so as to conform to the General Statutes.

An election for directors was then held, which resulted in the choice of the following gentlemen: Francis B. Crowninshield, Josiah G. Abbott, William A. Burke, Thomas Talbot and Edwin Morey.

Atlanta and West Point Railroad.

The earnings of this road for the years ending June 30, 1874 and 1875, were as follows:

	1874.	1875.
From passengers	$111,857 10	$101,093 77
" freight	185,740 21	167,695 63
" mails	10,781 28	10,781 28
" express	6,560 18	6,385 84
" miscellaneous	9,293 83	9,757 78
	$324,232 60	$295,714 30
Expenses, viz:		
Conducting transp.	$64,378 72	$53,068 27
Motive power	66,111 73	62,293 81
Maintenance of way	62,227 94	47,657 18
Rent of tracks	6,000 00	7,145 83
Maintenance of cars	13,961 06	8 994 18
Claims, legal exp., etc.		6,589 59
	$212,679 45	$185,748 36
Net earnings	$111,553 15	$109,965 94
From which deduct extraordinary expenses in 1874-'5:		
One new passenger car	$3,000	
New iron rails over current repairs	5,000	
		8,000 00
Net over all payments		$101,965 94

In 1873-'74 the extraordinary expenses were $42,000, leaving the balance of earnings at the close of that year $69,553 15. The President, in his report, says:

The directors can report but little information to the stockholders, in addition to what will be found in the official reports furnished by the treasurer and the superintendent, and which are appended to this report. The assets and liabilities of the company will appear in the statement of the treasurer, and the operations of the road for the past year, with the condition of the property in his department, with the business relations and future prospects of the road are very clearly, though succinctly, set forth by the superintendent.

The report of the superintendent accords in tone and character with the great majority of railroad reports from all parts of the United States, but more especially from the South and West. In reports for the past year, we find a very general exhibit of reduced earnings, financial deficiencies and disappointed hopes. We find, also, the same necessity for reduced expenditures, to compensate for reduced receipts: the only legitimate mode of meeting a reduction of earnings is by a corresponding reduction in the expenses of management, and by suspension or reduction of dividends to meet the emergency. Expenditures cannot long exceed the earnings, without the accumulation of debt and ultimate bankruptcy; and no dividends should be paid except fully justified by an honest available net profit. The wants and urgency of stockholders have too frequently induced a departure from this safe and salutary rule. By looking at past reports, it will seen that the directors have not been surprised by the present paralyzed condition of the country, and particularly of the large railroad interest. Without a miracle, the trouble was obliged to come from existing and previous causes, and its full development was only a question of time. The catastrophe might be temporarily checked or expedited, but the machinery has been for some years at work, which was obliged to bring it to the end. Look at a few figures and facts for 1874:

The cost of Southern railroads, up to that time, was, in round numbers. $523,509,223
This cost was made up of share capital 218,794,148
And of debt 309,715,075
The reported dividends..8½ per cent. on capital!

The statement of the Western roads is still worse.

Their reported cost is $1,972,177,844
Share capital 899,030,222
And of debt 1,073,147,622
Reported dividends on capital....1.92 per cent!!

Very few of these corporations pay any dividends at all, and very large numbers of them do not pay their interest, and are almost daily going into bankruptcy!

Fortunately, our little enterprise is subject to no such danger. Its debt is small and under easy control, and our superintendent reminds us that, though we have suffered some by the default of connecting roads, we still have a reliable 8 per cent. stock.

The present condition of our investment—so different from most railroad investments in the country—may be attributed, mainly, to the policy pursued in the organization of the company and the construction of the road. This policy was briefly sketched in a report shortly after the completion of the road, and it is a pleasure to refer to it. The board makes the following brief extract:

"The road was built for cash and at cash prices and perhaps no instance can be found where so much has been accomplished in railroad enterprize with the same expenditure of money. We made no jobbing contracts at high prices—sold no securities at a discount, and paid no premiums for money. Our contracts and purchases were all for cash, and the work was paid for when it was done. With these advantages, the stockholders need feel but little apprehension of any future depreciation of their property. Few railroads have been built upon the same principle, and yet no road should be built upon any other, if intended to be valuable as an investment."

Had all the railroads of the country been built with the same honest regard to the interest of stockholders, and duty to the public, what a difference would now be seen in the financial condition of the country, and the morals of the people!

The fidelity of the officers in charge of the road and transportation department, is best attested by the regularity of the trains, and almost entire freedom from accident of any kind, during the past year.

The company have 21 locomotives, 7 passenger, 4 baggage, 1 express, 2 shanty, 413 box, 18 stock, 23 platform, 3 coal and 5 cab cars. Number of through passengers, 11,884; do., way, do., 32,894—total, 44,728, against 54 301 in the previous year, a decrease of 9,573. Tons of freight transported, 58,620, against 63,485 in the previous year, a decrease of 4,865. Bales of cotton transported, 67,139; same for previous year, 90,156, a decrease of 23,017.

BALANCE SHEET, July 1, 1875.

Road outfit and real estate	$1,196,309 81
Bills receivable	139,992 25
Preferred stock Vicksburg and Meridian Railroad Company	3,432 00
Preferred stock Mobile and Montgomery Railroad Company	700 00
Dividend No. 36	49 288 00
Dividend No. 37	36,966 00
Interest account	3,850 33
Bond exchange account	9,521 24
Due by agents and connecting roads	26,825 33
Road expenses for the year	193,748 36
Cash	40,285 72
	$1,700,918 04
Capital stock	$1,232,200 00
Profit and loss July 1, 1874	81,128 29
Bonds of the company	83,000 00
Due to agents and connecting roads	7,169 45
Dividends unpaid	1,711 00
Road earnings for the year	295,714 30
	$1,700,918 04

President.—HON. JOHN P. KING.

Directors.—B. C. Yancey, John S. Bigby, F. Phinizy, W. B. Berry, John F. Moreland, L. B. Lovelace.

Superintendent.—L. P. GRANT.

Secretary and Treasurer.—W. P. ORME.

Middlesex Railroad.

The receipts from operations of this road for the year ending September 30, 1875, were:

From Passengers and tickets sold	$247,005 57
From other sources	2,815 41
Total receipts	$249,820 98
Expenses for same period	220,443 39
Net income	$29,377 59
Deduct dividends paid	24,000 00
Balance of income, or surplus	$5,377 50

During the year ending as above the cars of the Company have made 103,099 trips, and have run 92,753 miles, carrying 4,440,971 passengers; averaging 42 82 passengers per trip, at an expense of 32.95 cents. per mile run.

Four new cars have been built at the Company's shop during the year in addition to extensive repairs on others, two of which have been charged to expense account. Our cars and general equipment are in condition not excelled by that of any Company in the United States.

The road and tracks of the Company are in the very best condition, having been almost entirely rebuilt during the three years last past. Your Directors are of the opinion that the road is now in a condition to last some ten or twelve years, with comparatively small expense for repairs.

An additional stable has been erected during the past year at the Neck, at an expense of $5,197 08. The real estate of the Company now stands at $135,043 43, and is unsurpassed for the purposes required.

The Company has been fortunate during the past year in relation to accidents, no serious ones having occurred upon the road.

ASSETS.

Road	$419,341 10
Real estate and buildings	135,043 43
Cars	68 060 17
Horses	46,500 00
Sleighs and coaches	9,016 54
General equipments (snow plows, tools, harnesses, etc,)	18,039 44
New construction material	41,668 19
Cash and sundry accounts	164,426 43
	$894,385 80

LIABILITIES.

Capital stock	$400,000 00
Bills payable and sundry accounts	153,158 37
Mortgage notes	66,500 00
Outstanding sinking fund bonds, due 1884	72,510 20
Outstanding convertible bonds, due 1885	150,000 00
Profit and loss (Surplus)	52,216 78
	$894,385 43

New York Central and Hudson River Railroad.

The report of this company for the year ending September 30, 1875, was filed in the office of the State Engineer and Surveyor at Albany on the 5th inst. From this we learn that the number of miles of road owned, leased and operated by the Company is as follows:

Roads owned:	Miles.
Length of road	740.17
Length of second track	465.80
Length of third track	231.69
Length of fourth track	222.19
Length of turn-outs	333 60
Total length	2,942.95
Roads leased:	Miles.
Length of road	260.03
Length of second track	59.96
Length of turn-outs	29.45
Total length	389.44

This includes the New York and Harlem, the Lake Mahopac, and several other shorter lines, and foots up a grand total of 2,332.39 miles of single track operated by the company.

The equipment consists of 558 Locomotives, 8 dummy engines, (used for City service in making up trains and taking them to the City limits,) 427 passenger cars, 81 second class and emigrant cars, 222 baggage, mail, and express cars, and 14,597 freight cars.

The number of miles run by passenger trains during the last year was 4,563,688, by freight trains 8,457,816, and by switching and working trains 4,177,374, making a total of miles run of 17,198,878, which, as compared with 1874, shows a decrease of 1,437,825 miles. This decrease in mileage is almost entirely in the running of freight trains, and is accounted for by the fact that the number of cars per train has been increased.

The number of passengers carried one mile during the year is stated as 338,934,360, while last year's report showed 350,781,541. The number of passengers carried was 9,422,629, as against 9,878,352 in 1874.

The number of tons of freight carried in 1875 was 6,001,954, and in 1874, 6,114,678, or a decrease in 1875 of 112 724 tons. This decrease, according to the classifications made, consists entirely of products of the forest and animals, or lumber and live stock. The total movement of freight is 1,404,008,029 miles for 1875, and 1,391,560,707 for 1874.

No variation appears in the capital stock from the report of last year, the total being now as then, $89,428,300. This does not include the capital of the New York and Harlem, but does include $195,400 of consolidated certificates which are convertible into capital stock but which have not yet been presented to the company for such conversion.

The total amount of the funded debt of the company is stated at $40,003,667 62, or an increase for the year of $1,518,925. The construction account has been increased by $3,849,270 53, and now foots up $96,355,774 50.

The gross earnings of the New York Central and Hudson River, and New York and Harlem Railroads for the years ending September 30, 1874 and 1875, were as follows:

	1874.	1875.
From passengers	$7,497,856 54	$7,276,847 54
From freight	20,348,725 23	16,899,701 50
From other sources	3,804,304 95	3,850,668 99
Total	$31,650,886 72	$29,027,218 03
Expenses:		
Maintaining road-bed, &c.	$3,775,526 10	$3,686,541 78
Repairs of Machinery	3,912,806 87	3,781,724 30
Operating	10,799,964 59	9,793,741 56
Total	$18,388,297 56	$17,262,107 64

This shows a decrease, as compared with 1874, of $2,623,168, 69, or over eight per cent, in the gross earnings, and a decrease of $1,126,189 92, or six per cent., in the expenses. The net earnings for 1874 were $13,262,089 16, and for 1875 were $11,765,110 39, being a decrease of $1,496,978 77. These net earnings were applied as follows:

For interest	$2,728,118 94
For dividends:	
Oct. 15, 1874, four per cent	3 568,839 99
Jan. 15, 1875, two per cent	1,784,169 99
April 15, 1875, two per cent	1,784,169 99
July 15, 1875, two per cent	1,784,169 99
For rent of other lines	1,697,795 78
Total	$13,846,764 68

This shows $1,581,654 29 more than the net earnings, but to explain this we find the following note appended to the report:

"Owing to a change in paying dividends from semi-annual to quarterly periods, ten per cent. was actually disbursed therefor within the year embraced in this report. The amount, however, chargeable to the business of the year is eight per cent only."

By deducting one dividend of two per cent. from the total of "net earnings applied, it is shown that besides paying all interests due on its entire indebtedness, rents due for leased lines, and eight per cent. dividend on its capital stock, the road fairly added $202,515 70 to its surplus fund. The decrease in the business shown by the foregoing figures is attributed to the hitherto unparalelled low rates for freight, in consequence of the keen competition of the rival lines. A consequence of this competition is also seen in the following calculations of the expenses, receipts, and profits for the years 1874 and 1875:

The operating expenses in 1875 were 59.46 per cent. of the gross earnings, and in 1874 58.09 per cent.

Freight—Earnings per ton per mile in 1875, 1.27 cents; in 1874, 1.37 cents; expenses, 1875, .90 cent; in 1874, .98 cent; profit, 1875, .37 cent; in 1874, .39 cent. Passenger—Earnings per passenger per mile in 1875, 2.14 cents; in 1874, 2.18 cents; expenses, 1875, 1.86 cents; in 1874, 1.88 cents; profit, 1875, .78 cent; in 1874, .80 cent. Freight—Earnings per train mile in 1875, $2 11; in 1874, $2 08; expenses, 1075, $1 49; in 1874, $1 37; profit, 1875, 62 cents; in 1874, 66 cents. Passengers—Earnings per train mile in 1875, $1 59; in 1874, $1 69; expenses, 1875, $1 01; in 1874, $1 05; profit, 1875, 58 cents; in 1874, 64 cents.

Philadelphia and Reading Railroad.

From the report of this company which was read at the annual meeting of the stockholders held in Philadelphia on the 10th inst., we learn that the receipts for the year ending November 30, 1875, compared with the previous year, were as follows:

	1874.	1875.
From passengers	$2,012,666	$1,862,769
From merchandise	3,380,901	3,026,008
From coal	8,920,914	7,686,699
From mail	52,686	54,043
From miscellaneous	85,554	81,408
Gross receipts	$14,452,121	$12,660 927
Expenses	8,731,916	8,130,159
Net profits	$5,720,205	$4,530,768

The decrease in business and profits is accounted for by the protracted strike in the anthracite regions during the first six months of the year, which deprived the company of its coal tonnage and reduced the usual receipts from the large local merchandise and passenger traffic which is the outgrowth of the coal trade and its attendant industries. It appears from the report that the entire coal tonnage of the company during the six months of the strike was but 1,033,241 tons, against 4,472,213 tons for the remaining six months of active work, while the net earnings for the two equal periods of suspension and activity were respectively $26,055 65 and $4,504,712 54. The belief is expressed that the control obtained by the company over the management of its business, by resisting the strike, costly as it was, will in the future compensate it for all losses thus sustained. The stockholders are informed that, in consequence of the loss of business by the strike, the reserved fund is practically exhausted by the January dividend, and as the business of the Winter months is never sufficient to supply a quarterly dividend, no dividend will be made until July, at which time whatever may have been earned will be divided as a semi-annual dividend. The tonnage of the lands of the Philadelphia and Reading Coal and Iron Company for the year was 3,032,191 tons, of which but 545,514.14 tons were produced during the six months of the strike, and 2,486,676.12 during the remaining six months. The report concludes with the announcement of the successful issue in London of £2,000,000 of the general mortgage bonds of the company.

☞ The committee having in charge the reorganization of the New Jersey Midland Railway report that satisfactory progress is being made, and that $1,550,000 in bonds have already been surrendered. The committee have decided to extend the time of surrender of the bonds to the 1st day of February next.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "1."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, January 15, 1876.

Financial and Commercial Affairs.

Through speculative manipulations Money on call has been kept up to high figures most of the week, the quotation having been quite generally from 6@7 per cent currency, and, in instances, 7 per cent. gold, with an active inquiry from speculative sources at the current figures. Toward the close, however, there was less pressure for aid, and the price to the leading street houses was much lower, in instances down to 4 per cent. per annum. The outlook was deemed favorable to an early and advantageous relaxation in the Money market, for borrowers, on call. In the discount line, notwithstanding the recent mercantile failures, the market was without notable change, the rates on best to very good commercial paper having been from 6@7 per cent. per annum; within which range responsible applicants for accommodation have had their wants quite promptly provided for. The City Bank statement was deemed more satisfactory. The Government office was a gainer of specie, while losing currency. The City Banks have had their deposits augmented $6,242,100; and their legal tender reserve diminished $596,800. The specie average has been increased $3,916,800. The loan and discount item was reduced $1,018,500. The circulation was contracted $195,200. The U. S. Sub Treasury in this city closed the week with a currency balance of $35,177,837 against $37,118,009 the preceding week; and a coin hoard of $44,086,894, against $42,612,854 on the previous return. The City bank exchanges

in currency reached $485,551,868, or a daily average of $80,925,311. The customs revenue of the port, during the week was up to $2,591,000. The City banks reported their average of gold last week at $24,149,600, and their greenback average at $39,328,600. Their deposits stood at $210,820,200. The loan item was $263,044,000. The circulation was $18,595,800.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $10,773,150.

The aggregate of the outstanding U. S. currency, of all denominations, December 1st was $416,505,440. The outstanding amount of legal tender notes is $371,827,220. The National bank circulation is now $343,893,091, including $2,100,360 of national gold bank notes.

The specie shipments from San Francisco, January 1 to Dec. 31st, were $43,027,761, against $30,428,801 same time in 1874.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency $8,330,713; special deposit of legal tenders for the redemption of certificates of deposit, $37,050,000; Coin, $72,617,891; Coin certificates, $34,246,300.

The week's import entries of Foreign Merchandise at New York were $7,528,539, including $1,341,609 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 61 millions; and from Customs, 81½ millions.

Gold has been only moderately active and has been unsettled as to price, quoted at the close generally weaker, with a restricted speculative inquiry. The custom's call has been more animated. The export gain, however, has been quite moderate. The coin interest disbursements of the U. S. Sub Treasury have been quite liberal. The extremes of the price during the week have been 112⅜@113¾, closing on Wednesday at 112⅞ as against 112⅜, on Wednesday of the preceding week. The specie outflow last week was $678,043 against $417,157 the previous week. The imports of specie at this port last week were $46,704. The customs demand for gold last week averaged $431,834 per day. Foreign Exchange has been in moderate request opening more firmly but closing weaker. Bankers' sixty day bills on London closed on Wednesday at $4 84@$4 84½; sight bills on London at $4 88@$4 88½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,169,396. The week's imports of Dry Goods and general merchandise were to the specie value of $7,528,539, as against $5,803,964 the corresponding week of 1875. Government Securities have been moderately active through the week, but variable in price, fluctuating with Gold The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $363,002,962.

U. S sixes of 1881 closed on Wednesday of this week at 120⅜@121; U. S. Five-Twenties of 1864, at 114@114¼; U. S. Five-Twenties of 1865, 116¼@116½; U. S. Five-Twenties of 1865, consolidated, 117¼@117½; U. S. Five-Twenties of 1867, 119½@119¾; U. S. Five-Twenties of 1868, 120½@121; U. S. Ten-forties at 118¼@118½; U. S. Fives of 1881, (Funding Loan) 116¾@117; Six per cent. currency Sixes, 122½@123.

State and Railway bonds have been more active, and have been quoted generally higher. And in the line of Railway and Miscellaneous share property, business has been increasing, with values, toward the close, quoted generally stronger and quite buoyant.

General business has been more active in the line of Domestic produce, with Breadstuffs and Petroleum closing stronger. Cotton and Provisions weaker. Foreign merchandise quiet, Metal trade tame. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock $31@$32; Coltness $33; No. 1 American Pig at $23@$24; No. 2 do. at $21@$22; Forge, $16@$20; English Rails (in bond) $35@$36 gold American Rails at works, $45@$48; Old Rails $20@$20 50 Wrought Scrap, $30@$31. Ocean freights have been more active, but quoted unsettled, with room for Grain, Flour and Petroleum, in most demand.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ Wm. H. Weeks, banker, 178 Broadway, New York, offers for sale $5,000,000 of Railroad Bonds at a fractional part of their par value. These Bonds are a legal mortgage on some of the most valuable property in the United States, and will on the revival of business rise enormously in value. For either investment or speculation money cannot be invested with greater security and profit. First Mortgage Bonds $1,000 each bearing 7 per cent interest, may be brought as lop as $10 per Bond and upwards, and the day may not be far distant, when the same Bonds will command $500 and upwards. Quotations and other information cheerfully given by Mr. Weeks, who is thoroughly posted in his business.

Eastern Railroad.

An adjourned meeting of the creditors of the Eastern Railroad Company was held in Boston on the 8th inst., to hear the report of the Committee of Conference which was appointed a few weeks ago to consult with the railroad officials and if possible devise some means for relieving the road of its present embarrassments.

Hon. Dwight Foster, Chairman of the Committee which consisted of himself, Charles J. Morrill and Lemuel Shaw, read the following report:

REPORT OF THE COMMITTEE.

The committee appointed on behalf of the creditors of the Eastern Railroad Company respectfully report that they have had repeated conferences with the Directors and counsel of the corporation, have consulted many large creditors, exercised the best judgment in the premises, and unanimously recommend the following scheme for funding the debts of the corporation and reorganizing its affairs: They advise an application to the Legislature of this Commonwealth for an enabling act, a draft of which is herewith presented, and under the authority of said act the execution of a mortgage upon all the present and future property of the corporation, the proposed form of which is also submitted to your consideration. Under this scheme it is designed to fund all the debts and secure all the liabilities of the corporation on equal terms, in a thirty year gold mortgage bond, with a reduced rate of interest during the first six years. Interest on all debts is to be made up to the 1st day of September 1876. The first coupon on the new bonds is to be payable March 1st, 1877; the rate of interest on the mortgage bonds is to be 3½ per cent. per annum for the first three years; 4½ per cent. for the second three years and 6 per cent afterwards. Said bonds are to be payable both principal and interest in gold. The creditors who now hold sterling bonds are to receive new bonds of the same denomination. By this plan the creditors will have security for the entire principal of their debts, and are only asked to forbear a part of the interest thereon. The rate of interest stipulated for during the first six years is believed to be all that the corporation is capable of earning.

The Directors of the corporation are to be nine in number, three chosen by the bondholders; three appointed by the trustees of the mortgage, and the remaining three chosen by the stockholders. Until the mortgage debt is reduced to ten millions of dollars the stockholders can receive no dividends, and all the net earnings of the road are to be applied to remove liens and mortgages on the property, and to the reduction of the mortgages to that amount.

The further details of the plan thus briefly outlined will be found set forth in the drafts of the statute and the mortgage. It is assented to by the Directors and the counsel who represent the stockholders, although by no means free from objections or from practical difficulties in the way of its execution, yet we believe that if ratified by the bondholders present and represented at this meeting it will have a fair prospect of success, and that it is the only possible mode of averting the disastrous catastrophe of bankruptcy.

Much discussion ensued, after which the following resolution was adopted and the meeting adjourned for one week.

Resolved, that it is opinion of this meeting that some action, embodying substantially the features of the plan presented by the committee, should be adopted.

☞ Engineer Everett has finished his survey of the route for the Providence, Ponagansett and Springfield Railroad through Rhode Island, and reports that the line is to be 27¼ miles long.

PHILADELPHIA AND READING RAILROAD CO.
OFFICE No. 227 SOUTH 4TH ST.,
PHILADELPHIA, Dec. 29, 1875.

DIVIDEND NOTICE.

THE TRANSFER BOOKS OF THIS COMPANY will be closed on the 31st inst., and reopen on Monday, Jan. 17, next. A quarterly dividend of Two and a Half per Cent. has been declared on the preferred and common stock, clear of all taxes, payable in cash on and after the 25th of January next, to the holders thereof as they shall stand registered on the books of the company at the close of business on the 31st inst.

All dividends payable at this office, where blank orders for dividends can be obtained.

S. BRADFORD, Treasurer.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, Dec. 15, 1875.

A DIVIDEND OF FOUR PER CENT. HAS been declared by this company, payable on the 1st day of February next to the holders of full-paid shares registered at the close of the 15th day of January next, after which and until the 5th day of February the transfer books will be closed.

L. V. F. RANDOLPH, Treasurer.

Illinois Central Railroad.

During the month of December, 1875, 1,894.93 acres of land were sold for $10,450 32. The cash collected on land contracts was $28,375 14. The traffic on the main line in Illinois was $519,526 44, against $528,337 92 in December, 1874. The traffic of the Iowa lines, (leased at 35 per cent of gross receipts,) was $162,571 25, against $151,597 35 in December, 1874. Gross traffic, ten months, Jan. 1 to Oct. 31, 1875, (actual,) $6,422,949 81. Gross traffic, two months, November and December, (estimated,) $1,469,951 49—total, $7,892,901 30.

☞ The earnings of the St. Louis, Kansas City and Northern Railroad in December, 1875, were $365,536 18; in December, 1874, $248,543 84—an increase of $16,992 20. For the year ending December 31, 1875, the earnings were $2,636,707 09, against $2,587,604 09 in 1874—an increase of $49,103.

☞ The earnings of the Central Pacific Railroad for December, 1875, were $1,279,000, against $1,370,334 in December, 1874, and $1,116,366 in December, 1873. For the year ending December 31, 1875, the earnings were $16,970,018, against $14 522,814 in 1874, and $13,919,394 in 1873.

☞ The earnings of the Ohio and Mississippi Railroad, main line, in December, 1875, were $307,316 97; Springfield Division, $34,174 58—total, $341,491 55. The earnings over the main line in December, 1874, were $303,292 79—an increase of $38,198 76.

Public Debt of Virginia.

In compliance with an invitation from the joint finance committee of the Virginia Legislature, Gen. Richard Taylor appeared before that body on the 5th inst. in advocacy of a plan of adjustment of the State debt. The plan which Gen. Taylor proposes, and which he is unofficially informed would be acceptable to the foreign bondholders, who hold $10,000,000 of Virginia bonds, is for a unification of the debt, and to that end all unfunded securities and interest due, embracing fractional parts of coupons and certificates for interest due, shall be funded for thirty years. Gold bonds to the extent of two-thirds of said securities, and interest certificates for the remaining one-third for West Virginia, to be given to its holders at time of funding, as was done under the act of 1871. For the first three years three per cent., for the next four years four per cent., and then five per cent. until maturity. The bonds issued under act of 1872 ("peelers") to be interchangeable into new gold bonds, bond for bond, and additional bonds given for the over due interest. Gen. Taylor read a communication from Hyde Clark, secretary of the Foreign Bondholders' Association, in which he says:

"The measure should be broad enough to induce holders of six per cent. 'tax-receivable' bonds as may desire to make the exchange. To insure a result so desirable, it is in the interest of the people of Virginia, as well as an act of common justice to all her creditors, that Virginia should hold out inducements for all creditors to adopt the arrangement, and there is no more effectual inducement than for the State to hedge round these bonds with every possible security for the regular and just payment of the interest and principal.

"Every bond exchanged should be made under a contract with the State, which it would be the duty of the State courts to enforce and to award prompt payments and costs, and such clauses in the act of the Legislature should be printed on the bond. The State executive officer collecting revenue should be charged by law with the duty of carrying out the provisions of the act under which the proposed bonds are to be issued. Creditors should be empowered to sue the State in her own courts, and such suits should be made preferred cases, in order to insure speedy justice to the public creditor."

Chesapeake and Ohio Railroad.

A meeting of the bondholders of the Chesapeake and Ohio Railroad was held at the office of Brown and Lowndes, Baltimore, on the 11th inst., for the purpose of discussing the plan proposed for the purchase and reorganization of the company. Mr. A. S. Hatch, of the firm of Fisk & Hatch, of New York, was present, and in answer to interrogatories from bondholders explained the proposed plan, which is to obtain a decree for the sale of the property, as early as practicable, under both the six per cent. and seven per cent. mortgages, so that the purchasers may acquire a perfect and satisfactory title to the entire property, franchises, and corporate rights of the Chesapeake and Ohio Railroad Company, subject only to the liens of the Virginia Central bonds, which are to be provided for by a renewal or extension of those mortgages or otherwise, as circumstances may require, and that it be purchased on behalf of the bondholders and creditors who shall unite in the plan, by a suitable committee or Board of Trustees, to be hereafter selected by them. After the purchase is completed and the reorganization of the company perfected, new securities are to be issued as follows: First mortgage bonds to be secured by a mortgage extending over the entire line, franchises, and property of the company, subject only to the Virginia Central liens above described, payable thirty years after date, with interest at the rate of six per cent. per annum. Principal and interest payable in gold, except as hereinafter provided in the circular, $17,000,000. Second mortgage bonds, payable forty years after date, with interest at the rate of six per cent. per annum, payable in currency, except as hereinafter provided in the circular, $10,000,000. The entire plan for the purchase as well as reorganization of the company is set forth at length in a circular issued and signed by the following bondholders: Richard Irwin, A. A. Low, John Castree, C. M. Fry, C. P. Huntington, William Whitewright, Alexander Masterton, David Stewart, Jonas G. Clark, Charles Burkhalter, Lloyd Aspinwall, George I. Peofle'd, Edward Durham, and Fisk & Hatch. The plan was unanimously indorsed, and adopted by the bondholders present.

Totals	$64,623,512 00	$1,938,705 36

Interest paid by United States, $28,202,807 70; interest repaid by transportation of mails, &c., $6,668,927 36; balance of interest paid by United States, $21,532,880 34.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, December 31, 1875.

B. H. BRISTOW,
Secretary of the Treasury.

Philadelphia, Wilmington and Baltimore Railroad.

At the regular annual meeting of the stockholders of this company, held in Wilmington, Del., on the the 10th inst., the following gentlemen were elected directors for the ensuing year: Isaac Hinckley, Samuel M. Felton, Wm. Sellers, Samuel Welsh, Joseph Bringhurst, Samuel Harlan, Jr., Thos. Whitredge, Thos. Donaldson, Jacob Tome, Nathaniel Thayer, S. M. Shoemaker, Wm. Minot, Jr., Enoch Pratt, Thos. Kelso, Chas. P. Bowditch and Chas. Warner. Mr. Warner was elected to fill the place of Jesse Lane, who resigned his position some time since.

The directors chose the following officers for the ensuing year: President Isaac Hinckley, vice president Enoch Pratt, Superintendent H. F. Kenney, Secretary and Treasurer Alfred Horner.

☞ Among the new railways now building in Mexico, or about to be built, is the Mexican International railroad, which, starting from Leon, a city of 10,000 inhabitants in the State of Guanajuto, is to reach the Rio Grande, a distance of about 700 miles, and there connect with the International railroad of Texas, and thus with the whole railroad system of the United States. Surveys are also in progress for a line from Leon to the city of Mexico, a distance of 280 miles.

Sacramento as a Railroad Centre.

Here terminates the Central Pacific Railroad Division of the great overland route, and here begins the Western Pacific Division of the same road, connecting the line with San Francisco. The California and Oregon Railroad begins here, and runs northward to Reading, nearly 170 miles distant. It is eventually to be pushed to the Oregon line, 281 miles distant, to meet the Oregon and California Railroad, now completed as far southward as Roseberg, 200 miles from Portland, Oregon. At Sacramento, the California Pacific Railroad has its terminus. It runs from Vallejo, at the head of San Francisco Bay, to Sacramento, a distance of 60 miles, and connects its trains at Vallejo twice a day with steamers for San Francisco. The Sacramento Valley Railroad begins at Sacramento and runs to Folsom, northeastward 22 miles, where it connects with the Placerville and Sacramento Valley Railroad, with which it is now consolidated, and continues on to Shingle Springs, 48 miles distant from Sacramento. The road is owned by the Central Pacific Railroad Company, as is also the California Pacific and the California and Oregon.

Sacramento is connected with the Napa Valley by a junction of the Napa Valley Railroad with the California Pacific near Vallejo, and with the great South of the State by connection at Lathrop on the Western Pacific Division on the Central Pacific Railroad, with the Visalia Division, and by it with the Tulare Division. It is also connected at Stockton on the Western Pacific Railroad with the Stockton and Visalia, and the Stockton and Copperopolis Railroads. It is connected at Colfax, on the Central Pacific Railroad, with the Colfax and Nevada and Grass Valley Narrow Gauge Railroad, running into the best mining regions of Nevada county. At Reno, on the Central Pacific Railroad, Sacramento comes into communication with the great heart of the State of Nevada by connection with the Virginia and Truckee Railroad. It will thus be seen that by reason of its central location Sacramento is advantageously situated for all trade purposes to easily reach out to every section of the State, and is made also particularly available for passengers from all sections of the State. The city has a street railway company, C. C. Jenks, President, N. D. Thayer, Superintendent, which runs comfortable cars over two lines every few minutes. The first passes out K street from Front to Tenth, to H, and thence by best routes to East Park and the city limits, and the branch line leaves the other at Third street, going out Third to O and thence to Twentieth street.—*Record Union.*

New York City Central Underground Railroad.

In the Special Term of the Superior Court, on the 8th inst., Judge Sanford ordered a decree of sale of the franchises and property of the New York City Central Underground Railroad, in a suit brought against it and others by Origen Vanderburgh. Vanderburgh, it appeared, was a Director of the company, and advanced various sums to it, amounting in all to $102,977 93. The indebtedness on the part of the company was incurred during the years 1869, 1870, and 1871, and on the credit of the franchises and other property of the company. In March, 1875, a written agreement was entered into by the company with Vanderburgh, whereby the company agreed to issue mortgage bonds to the amount of $1,250,000 within three months, and to pay the plaintiff's claim, with interest, in such bonds at par out of the first $250,000 of such issue. The bonds were issued on July 1, 1875, to Vanderburgh, who brought suit to foreclose the mortgage. A Receiver had been appointed, but Joseph S. Bosworth was appointed Referee. In his report, filed in the latter part of last month, he decides that the plaintiff had a just claim to the amount, and also that the charter of the company had not been forfeited by non-compliance with its terms, it having expended $3,710 in making some excavations. Judge Sanford has made a decree directing Mr. Bosworth, the Referee, to sell the property. The proceeds are to be applied, first, to the payment of any balance due to the Receiver of the company and proper compensation for his services; second, to the costs and expenses of the action; third, to the payment of the plaintiff's claim; and fourth, the surplus, if any, to the Chamberlain. The company whose franchises are thus to be sold was organized under chapter 230 of the Laws of 1868, and chapter 824 of the Laws of 1869. It was authorized to construct an underground railroad and tunnel from the City Hall to the Harlem River. Its route was to be through Centre street, City Hall place, Pearl, Mulberry, and Bleecker streets, Lafayette and Astor places, Eighth street, Fourth avenue, and under Union and Madison squares, thence through Madison avenue to Harlem River. There were also several branches to various points.

New York and Harlem Railroad.

The annual report of the New York and Harlem Railroad Company for the year ending Sept. 30, 1875, which has been placed on file in the office of the State Engineer and Surveyor, contains the following statistics: Capital stock, $10,000,000, of which $9,050,000 has been paid in; total amount of funded and floating debt, $11,317,329, bearing an average annual interest of seven per cent. The entire cost of road and equipment of the line, consisting both of its steam and City road is given at $21,181,313 82. During the year 10,245,848 passengers were transported, the average time consumed by passenger cars in passing over the road being one hour. The total cost of maintaining the road for the year, including repairs and taxes on real estate, is given as $52,703 80.

Third Avenue Railroad.

The annual report of the Third Avenue Railroad Company, which was transmitted to the State Examiner on the 5th inst., places the total amount of the funded and floating debt of the company at $2,000,000, the rate of interest on which during the past year was seven per cent. The total cost of the road and its equipments by the last report was $3,956,012 19, and has since increased to $4,076,068 78. The length of the road is 8 miles. Length of double track, including sidings, 10 miles. Weight of rail per yard, 60 pounds. Number of passenger cars 263, number of freight cars 5, number of horses and mules 2,004. The number of passengers of all classes carried during the year was 31,542,000. The rate of fare charged for through passengers was 6 cents, for way passengers 5 cents. The average time consumed by passenger cars in passing over the road was one hour and twenty minutes. The total receipts from passengers were $1,720,353 91; from rents of real estate, car-punches, mail service and interest, $34,770 71; from manure, $6,600, and from loans, $25,000. The cash on hand Sept. 30, 1874, amounted to $37,424 29, and the total receipts for the year to $1,824,148 91. The payments other than for construction were as follows: for transportation expenses, maintenance and repairs, $1,219,220 85; for interest, $140,679 08; for dividends on stock at 9½ per cent., $190,000, and for loans paid in full, $55,000. The cash on hand Sept. 30, 1875, amounted to $319,248 98. The following are the various items classed under the head of "Expenses of operating the road and for repairs." General expenses, $4,425 38; officers, clerks, agents and office expenses, $20,313 35; conductors and drivers, $375,671 77; watchmen, starters, switchmen, roadmen, etc., $197,172 37; repairs of cars and cost of new cars, $38,283 75; repairs of harness, including material and labor, $4,844 31; horse-shoeing, including material and labor, $51,959 01; horses, $75,718 25; stable expenses, $11,364 89 (feed, grain, hay, etc., including expenses of grinding, $263,430 64; fuel, gas, and lights, $15,522 12; oil and waste, $1,396 82; damages to persons and property, including medical attendance, $7,434 65; law expenses, $570 75; rents, including use of other roads, ferries, etc., $21,241 66; insurance, $4,302 37; stationery and printing, $2,405 79; punch expenses, $27,596; donations, $6,600.

New Railroad Route from Philadelphia to New York.

The Delaware River Branch of the North Pennsylvania Railroad, extending from Jenkintown Junction to the middle of the Delaware River, 20¼ miles in length, was formally opened on the 10th inst. On that day an excursion train, containing a number of railroad officers and stockholders, merchants, manufacturers, etc., passed over the main line of the road to Jenkintown Junction, a distance of 8 miles from Philadelphia, and thence over the Delaware River Branch. The entire distance, 28¼ miles, was run in a little over one hour. The new road, the construction of which was completed in just fifteen months from its commencement, is very substantially built. The line is graded and bridged for a double track, and is laid now with a single track of heavy steel rails.

The remaining unfinished link of this line is that extending from the Delaware River Bridge to Bound Brook Junction, 27 miles, upon which about eight miles of track are laid, and ties and steel rails are on the ground for the remainder. It is said that all of the unfinished work could be completed in thirty days if it could be carried on without interruption.

The remainder of the distance to New York will be by the Central Railroad of New Jersey, the distance being, including the ferry, 33 miles—making the total distance between the two cities 88¼ miles.

☞ A bill which has passed the West Virginia Legislature and received the signature of the Governor enacts that where different lines of internal improvement intersect each other in that State, it is the duty of any road to receive freight and passengers from such other road, and to charge for the transportation thereof such rates only as it is charging on its own line from the point of intersection to the point of destination of such freight or passengers. The act applies to all railroads operating in the State.

☞ The annual report of the Treasurer of Indiana shows that the State debt is $5,003,538 34, of which $1,098,753 12 is foreign debt, and $3,904,783 22 domestic debt represented by 6 per cent non-negotiable bonds due to the common school fund. The total receipts from all sources during the fiscal year, including $224,203 78 which were on hand on the 1st November, 1874, were $4,441,298 67. The expenditures were $4,019,903 82, leaving $421,394 85 in the Treasury.

Funded Debt of California.

The funded debt of California consists of the following bonds which are now outstanding:

Bonds of 1857	$51,500
Bonds of 1860	24,000
Soldiers' Relief bonds	95,500
Capitol bonds of 1870	250,000
Capitol bonds of 1872	250,000
Funded debt of 1873	2,801,000
Total	$3,472,000

Of these bonds there are held by the State:

For School Fund	$1,737,500
For University Fund	811,500

The School Fund receives from these bonds interest to the amount of $107,760 per annum. The University Fund receives from the bonds held in trust $50,040 per annum. Outside from the interest due on outstanding bonds, the State pays $105,000 per annum on railroad bonds. All bonds of 1857 and 1860 are called in and are no longer interest-bearing, and the money for their redemption is now in the Sinking and Interest Fund.

Philadelphia Iron Market.

The Philadelphia Iron Market during 1875, sympathizing with the business in other parts of the country and in Great Britain has been marked by exceedingly low prices, due in a large degree to the comparatively heavy production of pig iron. The prices for anthracite pig iron ranged from $26 in January to $27 60 in April, and down to $23 75 in December. The estimated number of furnaces (all kinds) out of blast in December, 1874, was 291, and for December, 1875, 368. The prices for old rails ranged last year from $31 50 in February and March to $25 in December, and the prices of wrought scrap from $33 50 in March and April to $28 in December. New iron rails of domestic manufacture have continued to decline in price, and the "out put" has been reduced from 584,469 net tons in 1874 to 450,000 net tons (estimated) for 1875. The prices of American iron rails have ranged from $51 in January down to $45 in December. Steel rails have been in fair demand at reduced prices, ranging from $75 in January to $65 in December. The estimated production for the year is 250,000 net tons. Merchant bars have been dull, and at unremunerative prices throughout the year ranging from $56 to $60 48 per ton. Raw irons have shown a greater percentage of decrease in values than manufactured iron. There has been but slight trouble with labor during the year, and if the uncertainties as to the future, which have clogged the wheels of business, were removed, the iron trade would be found in a good position to take advantage of returning prosperity.—*Ledger.*

☞ At the annual meeting of the stockholders of the Rutland and Whitehall Railroad Company, held at Fair Haven, Vt., on the 6th inst., the following gentlemen were chosen directors for the ensuing year: W. W. Cooke of Whitehall, A. Allen and I. C. Allen of Fair Haven, J. V. Baker of Comstocks, N. Y., and George H. Cramer of Troy, N. Y. At a meeting of the directors held subsequently W. W. Cooke was elected President, A. Allen Vice President, and I. C. Allen Treasurer and Transfer Agent. By good management this road has been made to pay a dividend every year since its completion.

☞ The Atchison, Topeka and Santa Fe Railroad has just been opened to Apishapa, Colorado, 42 miles west of Los Animas. Apishapa is only 40 miles from Pueblo, and the road will be completed and running to the Rocky Mountains by the 1st of March.

Atlantic and Lake Erie Railway.

A contract with Messrs. Vibrad, Ball & Co., of New York, by which they undertake to complete the Atlantic and Lake Erie railway to Bucyrus within fifteen months, has been prepared and is ready for signature. Among other conditions are these: They are to have one fifth of the coal lands owned by the coal companies, they are to be furnished with ties, and the right of way is to be secured. The signature to the contract was delayed to enable the directors to consult with the stockholders in their respective counties. Up to the present time reports from all the counties heard from are favorable to the early completion of the road.—*Bucyrus Journal.*

☞ Surveyors have been at work for some days upon the proposed railroad from West Deer Park, Long Island, to Babylon. It is the intention to break ground immediately and to have the road open for travel by the 1st of June next.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER
CEMENT COMPANY,
MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

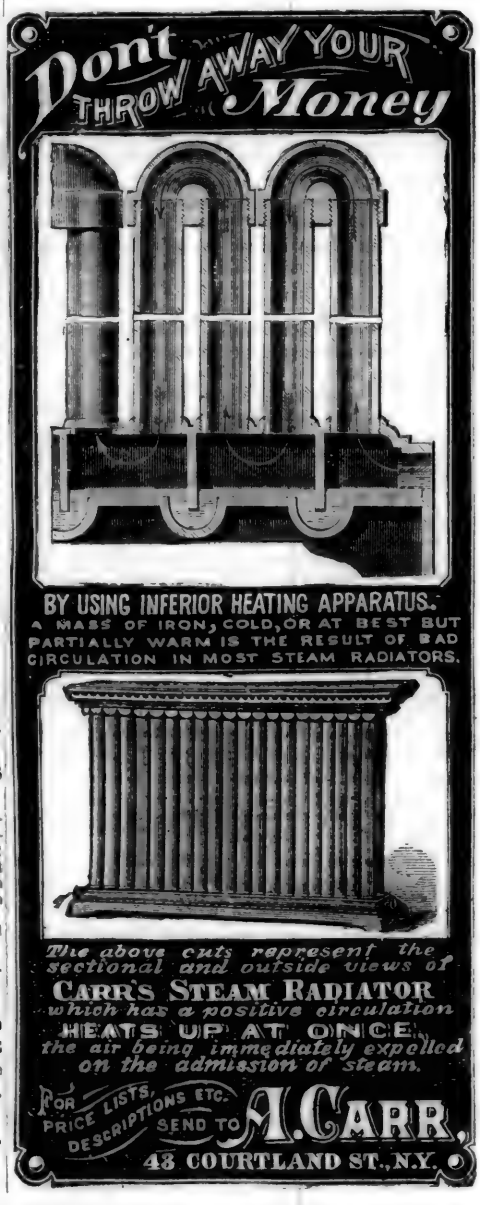
For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average **300** lbs. Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.



This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York.

This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

The Coal Trade.

The Philadelphia *Ledger* gives the coal product for the week ending on the 1st instant, from the Schuylkill region, at 10,828 tons, against 41,035 tons for the corresponding period of last year, a decrease of 30,207 tons. The total for the year commencing with December 1 was 275,842 tons, against 381,906 for the corresponding period of last year, a decrease of 106,064 tons. The quantity sent from all the regions of which we have report was, for the week, 90,601 tons anthracite, against 118,625 tons for the corresponding period of last year, showing a decrease of 28,024 tons. The total amount of anthracite sent for the year was 20,476,829 tons, against 20,297,017 for same period last year, an increase of 179,812 tons. The quantity of bituminus was 3,903,352 tons, against 3,495,719 tons for corresponding period last year, an increase of 407,633 tons. At Port Richmond for the week ending on the 8th in- there were receipts of 600 tons of coal and shipments of 11,500 tons, leaving 142,300 tons on hand. There is no return of the quantity of coke and coal transported over the Pennsylvania Railroad for the last week, nothing later than the third week in December, when it was for the week 87,549 tons, and for the year 4,270,369 tons, of which 3,507,407 was coal and 674,765 coke. This embraces all the coal carried both east and west. The receipts of coal at Perth Amboy for the week ending on the 31st ultimo were 9,309 tons; total received during the season, 61,627 tons; shipments for the week, 3,000 tons: total shipments for the season 30,771 tons; leaving on hand 83,403 tons.

E. MILLER, Patentee.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor-Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

New York, Saturday, January 22, 1876.

Railroads of Ohio.

The Ninth Annual Report of the Commissioner of Railroads and Telegraphs has just been submitted to the Governor. The Commissioner states that the general depression which was referred to in the last report still continues, and seriously affects railroad companies in procuring means to build new lines now projected, and to complete others already in progress.

There have been but 83½ miles of new main track laid within the year.

Including, as in previous years, 236 miles operated under lease by the Toledo, Wabash and Western Railway Company, the traffic and earnings on which are kept distinct, and the line of the Whitewater Valley Railroad, for which no report was made for the past year, the aggregate length of main line and branches operated is 8,222 miles, an increase of 413 miles over 1874, which increase is mainly accounted for by the completion of the Baltimore, Pittsburg and Chicago Railroad and the acquisition by the Ohio and Mississippi Railroad Company of the Springfield branch.

Of sidings and other tracks, there are 2,084 miles, making a total of 10,306 miles of track, 1,432½ of which are steel.

The aggregate reported cost for constructing 3,434½ miles, laid with rails, and owned by forty companies reporting this item separate from equipment, but including 653½ miles of additional track, graded but not ironed, is $176,453,450 65.

Within the State of Ohio there are 4,458 miles of track in main line and branches laid with rail, and 1,190½ miles of sidings and other tracks; total, 5,648½ miles, an increase for the year of 83½ miles of main and 48½ of other track, a total of 132 miles. This is 128 miles less of main track and 49 miles less of sidings than was laid the previous year.

The number of passengers reported carried over the entire lines was 17,193,948, an increase of 1,706,654; of freight, 25,750,501 tons yielding revenue were transported, an increase of 145,725 tons, excluding supplies carried for companies' use.

The gross earnings reported for the entire lines operated were $64,495,325 83, against $70,928,194 67 last year, a decrease of $6,432,868 84, nearly 11 per cent.

The net earnings were $17,515,686 94, against $19,798,169 49 for the year previous, being $2,272,482 43 less, or a fraction over 11 per cent. decrease, and amounting to only 3 per cent. upon the paid in capital stock and indebtedness of the companies owning the lines operated.

The passenger earnings were $17,116,524 84, a falling off of $5,779,46 from last year.

The earnings from freight transportation were $43,230,980 11, being $6,877,646 41 less than the amount derived from this source last year, and a decrease of 12.83 per cent.

The companies report a total paid in capital stock of $267,013,980 17, with $269,416,732 92 of bonds issued, and other indebtedness amounting to $31,808,044 45, an aggregate liability of $568,238,757 54.

The interest paid amounts on funded debt to $12,691,903 72, and on the other debts to $685,081 36.

Dividends are reported as paid on preferred stock of $778,456, and $5,604,835 09 on common stock.

The aggregate length of main line and branches owned or leased is 8,222 miles, the traffic, etc., reported, however, being upon 7,489 miles. The proportions for Ohio are:

Capital stock paid in....	$151,886,911 98
Funded debt....	144,460,925 60
Other debt....	19,829,115 02
Total debt....	164,290,040 62
Total stock and debt.	315,676,052 60
Total earnings (against $37,177,129 74 last year)....	35,254,117 60
Net earnings ($10,113,855 89 last year)....	9,681,059 46
Number of employes (increase of five)....	27,716
Miles of main track laid with rail.	4,457.93
Miles of double track, sidings etc.	1,190.36

The amount of capital stock paid in of the entire sixty-two companies reporting is $268,048,431 16, an apparent increase within the year of $3,090,810 68, $2,093,165 of which appears in the report of the Mansfield, Coldwater and Lake Michigan; $1,500,000 being issued to trustees to apply on construction contract with the Pennsylvania Company.

The bonded indebtedness is given at $269,416,732 92, and unfunded debt, (not deducting cash, securities, etc., available to payment), $31,808,044 45, a total of $301,224,777 37; an increase of $11,591,417 37 of funded and $11,935,362 53 other debt, and a total of paid-in stock and debt of $569,278,208 53, an increase of the two combined of $26,617,590 58.

A comparison with 1874 report shows but little change in the aggregate of rolling stock as then given. Deducting 40 standard gauge locomotives reported by the Atlantic and Great Western Railroad Company last year as not in use, not now appearing, there is an increase of 22, of 31 express and baggage cars, 20 passenger and 71 other cars, and a decrease in number of 22 sleeping and parlor coaches, and 764 freight cars.

There are 7,419¼ miles of telegraph lines reported, with offices at 1,102 stations. The passen-

ger and freight stations number 1,727, and 48,216 persons are reported as employes.

The following table shows the number of miles of railroad built in this state since 1841 :

1841	36	1859	2897
1842	84	1860	2974
1843	84	1861	3024
1844	84	1862	3024
1845	84	1863	3051
1846	84	1864	3051
1847	129	1865	3176
1848	274	1866	3197
1849	274	1867	3214
1850	299	1868	3256
1851	572	1869	3324
1852	890	1870	3376
1853	1385	1871	3457
1854	1500	1872	3787
1855	1641	1873	4163
1856	1869	1874	4374
1857	1880	1875	4458
1848	2788		

The aggregate number of casulties to persons within the State upon the several railway lines for the year, as reported, are of passengers, killed, 8; injured, 27; of employes, killed, 93; injured, 181; and of others, on track, trespassing, ect., 115 killed and 98 injured—making a total of 216 killed, and 306 injured,

North Pennsylvania Railroad.

At the annual meeting of the stockholders of this company held in Philadelphia on the 10th inst., the following gentlemen were elected directors for the ensuing year: Franklin A. Comly, President; John Jordan, Jr., J. Gillingham Fell, William C. Ludwig, Ellwood Shannon, Edward C. Knight, Alfred Hunt, William C. Kent, Thomas Smith, Ario Pardee, James H. Stevenson, Jacob Riegel, R. J. Dobbins. From the report which was presented we learn that the gross earnings of the main line for the fiscal year ending October 31, 1875, including those of the Doylestown Branch, were as follows :

From passengers	$484,382 90
" coal	354,289 06
" pig iron	22,778 01
" lumber	18,875 12
" local freight	276,382 71
" through freight	236,081 45
" mails	6,195 00
" miscellaneous	18,740 36
Total	$1,417,734 61

The expenses were :

Maintenance of way	$200,624 10	
Motive power	281,674 85	
Maintenance of cars	102,895 77	
Conducting transp	286,821 35	
General expenses	33,526 20	
		905,542 27
Net earnings		$512,192 34
Interest on bonded debt, ground rents, interest on mortgages, insurance, &c. less interest received	$306,023 75	
State and municipal taxes	45,641 58	
		351,665 33
Balance carried to profit and loss.		$160,527 01

At the close of the fiscal year the balance standing to the credit of the profit and loss account was $367,152 41.

Two semi-annual dividends have been declared of 3 per cent. each, the first payable on the second day of August, 1875, and the other on the first day of February, 1876.

The number of passengers carried during the year was 1,067,494, being an increase of 14,625 over the previous year.

The earnings of the Northeast Pennsylvania Railroad in the year were $24,645; and the earnings of the Stony Creek Railroad were $18,642 22. Both of these branch railroads are worked by the North Pennsylvania Railroad Company.

The earnings of the main line, including those of the Doylestown Branch, have decreased $6,728 57, while those of the Northeast Pennsylvania Railroad have increased $6,495 38, and those of the Stony Creek Railroad have increased $2,009 89; so that on the total railroad mileage worked by the North Pennsylvania Railroad Company, the increase has been $1,776 63.

The accounts of the Delaware River branch, from Jenkintown to the middle of the Delaware river, have been kept separate from the other accounts of the North Pennsylvania Railroad Company, and the expenditure on account of that work, up to the end of the fiscal year, was $1,095,367 53.

Cleveland and Pittsburg Railroad.

At the annual meeting of the stockholders of this company, held in Cleveland on the 5th inst., the following gentlemen were elected directors for the ensuing year: J. N. McCullough and B. F. Jones, Pittsburg; Thomas A. Scott, Philadelphia; John B. Trevor, S. J. Tilden, Charles Lanier, George W. Cass, and Isaac Kip, New York; Reuben F. Springer, Cincinnati; J. V. Painter, James F. Clark, and R. P. Ranney, Cleveland.

From the annual report of the directors submitted by J. N. McCullough, president, we make the following extract :

The lessee's account for betterments for the year 1874, allowed and brought into account since last report, is as follows :

New freight offices, Pittsburg (complete)	$34,321 26
Increase of sidings at various points —2,232 feet	5,699 77
Lot purchased at Bellaire for new engine house	3,500 00
Telegraph line, one new and additional wire and appurtenances between Cleveland and Pittsburg	5,356 70
Personal property, four new and additional cranes upon coal platforms at Cleveland shops	835 17
Equipment two caboose cars	2,258 70
Total	$52,971 80

Expenditures during the current year by the lessee on this account are less than $20,000 for steel rails only.

The lessee reports the business of the road, as per requirements of the lessee, for the thirteen months ending December 31st, 1874, as follows :

Receipts :	
Gross earnings	$3,055,78 458
Pittsburg, Fort Wayne and Chicago Railway, Consolidated earnings	88,254 21
Other sources	1,514 56
Total	$3,145,247 35
Expenditures :	
Operating expenses	$1,584,572 10
Improvements to the property	52,971 86
Rental, interest, &c	1,334,318 01
Total	$2,971,861 97

These figures show a surplus earned over all classes of expenditure of $173,385 38.

This state of facts, when the condition of business in the country at large is considered, cannot but be very reassuring to the holders of your securities, giving pledge, as it does, of permanent values and uninterrupted returns.

Baltimore City Passenger Railway.

At the annual meeting of the stockholders of the Baltimore City Passenger Railway Co., held in Baltimore on the 12th inst., Oden Bowie, Enoch Pratt, Gabriel D. Clark, Austin Jenkins, John Bolgiano, Wesley Ricketts and Jackson Holland were elected directors for the ensuing year. At a meeting of the directors held subsequently, Oden Bowie was re-elected President and Superintendent, and Richards C. Smith Secretary and Treasurer.

From the report of the directors which was read at the meeting we learn that the receipts from passengers in the year 1875 were $605,710 29 against $596,811 21 in 1874, an increase of $8,899 08. The receipts from other sources were in 1875 $10,827 94, against $8,940 18 in 1874, an increase of $1,887 76. The general expenses in 1875 were $394,637 68, against $407,255 03 in 1874, a decrease of $12,617 35. The Park tax paid the city in 1875, and paid monthly, instead of quarterly, as heretofore, amounted to $72,685 23. The estimated number of passengers carried in 1875 was 10,873,855, against 10,724,550 in 1874, an increase of 149,305. The number of horses on hand December 31, 1875, was 704, and 664 January 1, 1875. There were purchased last year 149, at an average of $110, as against 186 at the average of $124 43 in 1874. Horses sold during the year 85, at an average of $62 96, as against 153 in 1874, at an average of $60 05. The smaller number purchased in 1875 resulted from the quality of the horses being raised by the large number of inferior ones sold in 1874, and the much smaller number disposed of in 1875 from the same cause, and the great difficulty of disposing of horses during the last six months of the year. Twenty-four horses died out of the average number of 709 on hand in 1875, as against 27 deaths of the average number of 678 in 1874. The average daily cost of maintaining each horse, including depreciation, stable expenses, feed, shoeing and harness, was 73 cents in 1875, and 76½ cents in 1874. Average number of cars run daily in 1874 and 1875 was 78. Attention has been paid to improvement upon the tracks; 24,000 feet or 164 tons of new rails have been laid, of which 3,900 feet of new track complete, including new stringers, cross-ties and rails, were used in changing tracks to take the Canton cars direct to Patterson Park; 43,170 feet of old rails have been taken up, staightened and relaid; 12 new curves laid, 8 new switches put in, etc. The report was unanimously excepted.

☞ At a meeting of the Board of Directors of the Boston and Providence Railroad Company, held in Boston on the 12th inst., Henry A. Whitney, Esq., was elected President, to fill the vacancy occasioned by the death of ex-Governor Clifford. Mr. Whitney was the acting President of the corporation during the absence of Gov. Clifford in Europe last summer, and administered the affairs of the road in such a manner as to call forth a very hearty and complimentary speech from the

late President on the occasion of the annual meeting.

St. Louis, Vandalia and Terre Haute R. R.

The annual meeting of the stockholders in the St. Louis, Vandalia and Terre Haute Railroad Company was held at Greenville, Ills., on the 11th inst., at which time the annual report of the directors was presented and read, and an election held for a new board to serve for the ensuing year. This election resulted as follows: Thos. D. Mesler Pittsburgh, W. R. McKeen Terre Haute, Robt. L. Dulaney Marshallville, Ind., A. G. Henry Greenville, Ills., Thos. A. Scott Philadelphia, W. K. Edwards Terre Haute, J. F. Alexander Greenville, Ills., Otto Brodbeck Highland, Ills., J. S. Pears Collinsville, Ills. The new board of directors subsequently organized by electing Thos. D. Mesler President, Williamson Plant Secretary, and W. H. Barnes Treasurer.

Philadelphia and Reading Railroad.

At the Annual Meeting of the Stockholders of this Company, held in Philadelphia on the 10th inst., the following Report was presented:

To the Stockholders of the Philadelphia and Reading Railroad Company:

The Managers submit the following Report of the receipts and expenditures for the year ending November 30th, 1875, together with the Treasurer's general balance sheet, exhibiting the financial condition of the company at that date.

The following tabular statement in detail, for each branch of traffic, shows the comparative results of the year's business:

1874.	
Travel, 6,964,369, equal to 852,312 through passengers	$2,012,666
Mdse., 3,098,030 10-20 tons	3,880,301
Coal, 5,182,560 2-20 tons	8,920,914
Mail	52 686
Miscellaneous	85,554
Gross receipts	$14,452,121
Gross expenses	8,731,916
Net profits	$5,720,205
1875.	
Travel, 6,938,129, equal to 823,182 through passengers	$1,862,769
Mdse., 2,720,201 16-20 tons	3,026,008
Coal, 4,362,971 10-20 tons	7,636,699
Mail	54,043
Miscellaneous	81,408
Gross receipts	$12,660,927
Gross expenses	8,130,159
Net profits	$4,530,768

		Per Ct.
Travel	Decrease, $149,897	= 7 4-10
Merchandise	Decrease, 354,293	= 10 5-10
Coal	Decrease, 1,284,215	= 14 4-10
Mail	Increase, 1,357	= 2 6-10
Miscellaneous	Decrease, 4,146	= 4 8-10
Gross receipts	Decrease, $1,791,194	= 12 4-10
Gross expenses	Decrease, 601,757	= 6 9-10
Net profits	Decrease, $1,189,437	= 20 8-10

Gross expenses, including renewal fund, rent of lateral roads, taxes, etc., in the

Year 1874, were 60 4-10 per ct. of gross receipts.
" 1875, were 64 2-10 " "

The receipts and expenses per passenger and per ton, including renewal fund, rents of laterals, taxes, etc., and based upon coal tonnage of Main Line and branches only, have been as follows:

1874.					
Per passenger.	Cost,	$0 20 8-10	Rec'd,	$0 28 9-10	
Mdse., per ton.	"	68 4-10	"	1 09 1-10	
Coal, per ton..	"	99 7-10	"	1 72 1-10	
1875.					
Per passenger.	Cost,	$0 19 4-10	Rec'd,	$0 26 8-10	
Mdse., per ton.	"	71 6-10	"	1 11 2-10	
Coal, per ton..	"	1 10 8-10	"	1 75	

Including renewal fund, rents of laterals, taxes, etc., and based upon entire coal tonnage of the company, on Main Line, branches and laterals:

1874.					
Per passenger.	Cost,	$0 20 8-10	Rec'd,	$0 28 9-10	
Mdse., per ton.	"	68 4-10	"	1 09 1-10	
Coal, per ton..	"	81 4-10	"	1 40 5-10	
1875.					
Per passenger.	Cost,	$0 19 4-10	Rec'd,	$0 26 8-10	
Mdse., per ton.	"	71 6-10	"	1 11 2-10	
Coal, per ton..	"	87 7-10	"	1 38 7-10	

The above statements embrace all expenditures of the company, except interest on the funded debt, and include rents of leased railways, renewal fund, taxes, and premium on gold and exchange. Excluding all charges other than the proper working expenses of the road, the cost would be as follows:

I. Based upon the coal tonnage of the Main Line and branches only:

1874.					
Per passenger.	Cost,	$0 16 6-10	Rec'd,	$0 28 9-10	
Mdse., per ton.	"	52 2-10	"	1 09 1-10	
Coal, per ton..	"	70 2-10	"	1 72 1-10	
1875.					
Per passenger.	Cost,	$0 15 3-10	Rec'd,	$0 26 8-10	
Mdse., per ton.	"	53 1-10	"	1 11 2-10	
Coal, per ton..	"	81 4-10	"	1 75	

II. Based upon the entire coal tonnage of the company, including laterals:

1874.					
Per passenger.	Cost,	$0 16 6-10	Rec'd,	$0 28 9-10	
Mdse., per ton.	"	52 2-10	"	1 09 1-10	
Coal, per ton..	"	57 3-10	"	1 40 5-10	
1875.					
Per passenger.	Cost,	$0 15 3-10	Rec'd,	$0 26 8-10	
Mdse., per ton.	"	53 1-10	"	1 11 2-10	
Coal, per ton..	"	64 5-10	"	1 38 7-10	

The result of the year's business, as condensed from the transportation and income account, may be stated thus:

Receipts over cost of working the road		$4,530,768 19
Profits on steam colliers		72,559 89
		$4,603,328 08
Add balance of interest account, including interest and dividends on stocks and bonds held by the company, receipts from the Philadelphia and Reading Coal and Iron Company, etc., first deducting drawbacks on traffic of 1874, loss on line of Richmond coal barges, and upon the business of the Schuylkill and Susquehanna Canals, and interest on instalments on convertible loan 1873-'93		2,269,330 63
		$6,872,658 71
From which deduct—		
Interest on bonded debt	$3,476,088 00	
Interest on bonds and mortgages	104,982 68	
Sinking Fund Consolidated mortgage loan 1871-1911	214,650 00	
Sinking Fund Improvement mortgage loan 1873-'97	212 000 00	
		4,007,720 68
		$2,864,938 03
Amount to credit of Reserved Fund, 1874		936,771 19
Dividend Fund, 1875		$3,801,709 22
Out of which has been paid in April, 1875, two and a half p. c. dividend on $34,277,575 28	$856,939 38	
July, 1875, two and a half per cent dividend on $34,277,575 28	856,939 38	
October, 1875, two and a half per cent dividend on $34,277,575 28	856,939 38	
	$2,570,818 14	
State tax on dividends	231,373 62	
		2,802,191 76
		$999,517 46
There has been declared a dividend, payable in cash on the 25th of January, 1876, of two and one-half p. c. on the preferred and common stock $34,277,575 28	$856,939 38	
State tax on dividend	77,124 54	
		934,063 92
Balance of Reserve Fund		$65,453 54

The principal feature of the business of the past season, and the cause of the largely decreased traffic, has been a prolonged strike in the anthracite coal region, which for six months deprived the company of nearly its entire coal tonnage, and very materially reduced its receipts from other traffic which is always dependent upon the coal trade.

The trades union of the operatives in the coal mines, known as The Miners' and Laborers' Benevolent Association, ordered a strike to take place upon the first of January, against a reduction of wages to take effect on that day. Upon the fifteenth of June the strike was practically ended, and between the last date and the first of July, work was generally resumed by the men at the reduced wages.

The strike was one of the most determined that has yet taken place, and was attended by so many acts of violence as to involve the necessity of large expenditures for police, and require the most constant vigilance in order to protect the property of the company from incendiarism and other acts of agrarian outrage. In addition to this expense, the cost of supplying the various manufacturing establishments with fuel from other regions at low rates of transportation and of maintaining a large force of employes, agents and officers during so many months of comparative idleness, became a serious burden upon the company.

Some idea of the cost of such a strike, and of the relative difference between receipts and expenditures during the respective periods of idleness and activity may be gained by the following figures:

Coal tonnage of the company for six months during strike	1,033,241 14
Coal tonnage for six months of business	4,472,213 02

The difference in results, however, is still greater; the business of the six months of the strike showing a net profit of only $26,055 55, against a profit of $4,504,712 54 for the remaining six months.

Although the immediate results of the strike have been so disastrous to the business of the company during the past year, it is believed that the determined stand taken during the struggle by the company, and by the individual coal operators, has resulted in permanently rescuing their property from the arbitrary control of an irresponsible trades union, which for so many years has interfered in and frequently dictated its management, while the working men themselves being emancipated from the power of the political and professional agitators who have so long controlled them, will be equally benefitted by the changed condition of affairs, and in many cases by being absolved from obedience to rules which limited the amount of the daily product of their labor, have been able to earn more money than before the reduction in wages took place.

The comparative traffic of the last three years is shown by the following table:

	1873.	1874.	1875.
Number of passengers carried	6,790,088	6,964,869	6,938,129
Number of tons of coal, 2240 pounds.....	6 546,553	6,348,812	5,505,455
Number of tons of mdse., 2000 pounds.....	3,331,191	3,098,831	2,720,208
Number of tons of company's materials, 2000 pounds.....	651,648	493,591	581,984
Total tonnage of company, 2000 pounds, including weight of passengers and company's materials.....	11,932,262	11,336,261	10,099,040

The traffic lost in consequence of the strike not having been made up during the few months of business left at the close of the year, the reserved fund of the company is practically exhausted by the dividend payable on January 25th; and, as the business of the three winter months of the year can never be relied upon as sufficient, without a reserve fund to provide for a quarterly dividend, the consideration of the next dividend must be postponed from April until July, at which time whatever may have been earned will be declared as one semi-annual dividend.

During the year the Perkiomen Railroad has been completed, and it was opened for business upon the eleventh of October, thus forming a new line between Philadelphia and the valley of the Lehigh. The permanent connections with the several railways of the Lehigh Valley have not yet been completed. When they are finished a large trade over the new line, both of freight and passengers, is confidently expected.

Upon the eleventh of March last the line of the Reading and Lehigh Railroad Company, extending from a point in Berks county below Reading to Slatington, in Lehigh county, was leased by the Company for a period of ninety-nine years, at a rental equal to the net profits of operating the line, after deducting all expenses, including those of construction and renewal, and a charge of eight per cent. upon the cost of all equipment supplied by the Company. This line of railway was that formerly known as the Berks County Railroad, which was built in aid of the Wilmington and Reading Railroad. The failure of the Company owning it led to its sale, and its purchasers organized a new Company, under the name of the Reading and Lehigh Railroad Company, with whom the lease was made. The road not being in good condition when taken, a considerable expenditure had to be made to put it in order for traffic; and the amount of $39,965 96, of which $26,529 16 has been charged to income, now stands to the debit of the leased line to be deducted from future earnings before any rent is paid to the lessor.

This line, between Lancaster and Quarryville, referred to in the last report, has been completed, and was opened for business on the 12th of May last. Although the depression in the iron trade has restricted the traffic in iron ore very much, the new line has more than paid its working expenses, and upon a revival of the iron trade will be found to be a valuable feeder for the Reading and Columbia Railroad.

The stockholders are referred to the report of the Chief Engineer, herewith submitted, for a more detailed statement of the various new work done during the year.

The usual statement of the working of the rolling mill is herewith presented, showing the same good results which have been obtained in previous years. Taking into consideration the relative difference in the price of steel and iron rails during the past eight years, with the length of service obtained from the rails manufactured by the Company, the rolling mill has been of great advantage in converting old rails of the Company into new ones of uniform excellence and durability. Within the last year, however, the difference in the price of iron and steel has been reduced to such an extent as to make it desirable to use a much larger proportion of steel rails than has heretofore been done.

Another new steam collier of fifteen hundred tons was added during the year to the fleet of the Company, which now comprises fourteen vessels. The following Table shows the amount of business done during the year, with its results, as compared with previous years. The item of $418,479 61, of expenses for 1875, includes a charge of $73,525 46 for insurance fund, which is now in credit $152,426 13.

	Tons coal carried.	Total Receipts.	Total Expenses.	Net Profits.	Average rate of freight received per ton.
1872....	127,275	$355,460 03	$237,818 26	$117,641 77	$2 62
1873....	135,673	309,296 33	202,111 01	107,185 29	2 32
1874....	217,340	300,636 26	294,045 41	6,590 85	1 29
1875....	345,145	491,039 50	418,479 61	72,559 89	1 15

In common with nearly all the business of the Company, the fleet of steam colliers suffered severely from the strike—the first seven months showing a coal tonnage of but 91,101 tons, and a net loss of $33,750 16, against a tonnage of 254,043 tons, and a profit of $106,310 05 for the following five months.

The canals of the Company suffered equally with all other departments, in consequence of the loss of tonnage during the strike. The transportation and income accounts show, in detail, the net loss upon each canal—that of the Schuylkill being $125,716 45, against $216,927 94 for last year, and the loss upon the Susquehanna Canal being $172,270 09, against $161,019 13 for 1874. Included in the expenses of the Susquehanna Canal is a charge of $32,304 40 towards the cost of the erection of a new dam over the Susquehanna river at Columbia, in place of that destroyed by the great ice freshet of last spring. This important work will be finally completed next year, and will have cost, when finished, in the neighborhood of $150,000.

Notwithstanding the general depression of business, the traffic of the Germantown and Norristown Branch has been very good; the number of passengers carried during the year being 4,299,480 against 4,237,860 for 1874; 4,064,530 for 1873, and 3,712,316 for 1872.

The gross receipts of the Catawissa Branch for the year were $634,099 49, against $705,143 89 for the previous year; and the loss of the line, after payment of the rent, has been $157,001 14, against $148,199 87 for the year 1874. It must be remembered, however, that the profits of the business upon the Main Line derived from the traffic of the Catawissa Branch are much greater than the loss upon the leased line.

The express business has resulted in a profit of $61,591 50, against $54,540 81 for the previous year—a very satisfactory increase. All additions to the equipment added during the year, and amounting to $7320 50, have been charged to expenses; the equipment account not having been increased, and amounting now to $55,574 68.

By the conversion of $3000 of the six per cent. mortgage convertible bonds of 1886 the capital stock was increased on the 31st of March to the extent of $3000, making the total share capital $34,277,575 28, instead of $34,271,575 28 at the close of last year.

There has been charged to income account during the year $214,650 for the sinking fund of the consolidated mortgage loan, and $212,000 for that of the improvement mortgage.

For the sinking fund of the improvement mortgage, two hundred and twelve bonds were drawn in London, on the 16th of July last, for payment on the 1st of October, as provided for by the mortgage. Up to the close of the fiscal year but $98,000 of the bonds so drawn were presented and paid; but since the 1st of December $46 000 additional have been presented and paid, including one bond of $1000 remaining outstanding of those drawn for the sinking fund of 1874. All the bonds paid have been cancelled.

The sinking fund of the mortgage of $30,000,000 upon the property of the Philadelphia and Reading Coal and Iron Company, which mortgage is held by the Trustees of the general mortgage of the Company, supplied more than sufficient to meet the sinking fund of the latter mortgage—viz., $100,000. The drawings for this last sinking fund took place in London in May last; and of the $100,000 bonds then drawn for payment on the first of July, $61,000 had been presented and cancelled before the end of the fiscal year; and since the first of December, $4000 additional have been paid and cancelled.

The total amounts heretofore charged income on account of sinking funds, and for which no increase of capital has been made, is $1,197,647 45, which has been applied or is held as follows:

Held for liquidation of loan of $134,400, due in 1877.....	$166,070 45
Applied to purchase of bonds of old loans of 1870 and 1871, before maturity thereof.....	10,800 00
Applied to purchase of $517,000 consolidated mortgage bonds.....	535,685 05
Held for purchase of consolidated mortgage bonds.....	73,091 95
Applied to payment of $343,100 improvement mortgage bonds.....	343,000 00
Held for payment of improvement mortgage bonds drawn for sinking fund, and not yet presented.....	69,000 00
	$1,197,647 45

Annexed to this report will be found a list of the numbers of the general mortgage bonds, as well as of the improvement mortgage bonds, drawn for the sinking fund of each during the year, and the interest upon which ceases respec-

tively from the first days of July and October last.

The lands of the Coal and Iron Company have produced during the year 1875, 3,032,191 06 tons of coal as follows:

During the months of the strike,....245,514 14
During the remaining six months...2,486,676 12

Of this total amount, 1,437,450 08 tons were mined by the Company, and 1,594,740 18 tons were mined by tenants.

The following table shows the actual coal production of the lands during the several months since the termination of the strike:

	Total Tonnage.	Mined by Company.	Mined by Tenants.
July.....	460,227 08	247,620 02	212,607 06
August....	466,386 11	247,393 18	218 992 13
September..	473,595 05	250,967 11	222,627 14
October....	496,379 02	275,088 11	221,290 11
November.	415,475 15	220,651 02	194,824 13
December..	174,612 11	77,313 05	97,299 06
	2,486,676 12	1,319,034 09	1,167,642 03

The new shafts in the vicinity of Pottsville, to which reference was made in last report, have been continuously prosecuted during the year. One of them reached the Primrose vein on the 12th of August last, and the other is expected to reach the same depth during the present year. The vein has proved to be in excellent condition. The Mammoth vein will be reached by a tunnel from the bottom of the shaft, and the work of opening coal under ground will probably occupy two years before the full capacity of the works is reached, and at the end of this time an annual capacity of half a million tons is confidently expected from the two shafts.

After a very large expenditure upon the property of this Company, the collieries are in excellent condition for economical and profitable working. No further outlay will be required except for the purpose of completing the Mammoth vein shafts, and two or three smaller improvements, which together will require no very large amount of money.

To supply the necessary funds required by the two Companies, and to meet engagements incurred in the prosecution of their works, an issue of ten million dollars, or two million sterling, of the general mortgage bonds, has just been made in London—the prospectus inviting subscriptions having been issued in London as lately as January 1. No advices have been received other than telegraphic announcements of the success of the issue.

By order of the Board of Managers.

FRANKLIN B. GOWEN,
President.

Philadelphia, January 7, 1876.

At the Annual Meeting of the Stockholders of the Philadelphia and Reading Railroad Company, held January 10, 1876, the following resolutions were adopted:

1. Resolved, That the report of the Board of Managers, this day presented and read, be and the same is hereby approved, accepted and adopted, and that the action of the Board in relation to the several matters therein mentioned is ratified and approved.

2. Resolved, That the issue of $10,000,000 of the general mortgage bonds of this company, as proposed by the Board of Managers, also their action in guaranteeing the first mortgage bonds of the Phœnix Iron Company, the Monocacy Furnace Company and August Schwarze, are hereby ratified and approved.

3. Resolved, That the Board of Managers be, and they are authorized, at their discretion, to carry into effect any of the measures proposed in their report, and, if in their opinion needful, to enter into any contracts or agreements for that purpose.

4. Resolved, That the powers and authorities conferred upon and granted to the Board of Managers by the resolutions passed at prior annual meetings be and the same are hereby continued.

5. Resolved, That a vote of thanks be, and the same is hereby presented to the President and Board of Managers, for the able manner in which the business of the road has been conducted during the past year.

At the Annual Meeting of the Stockholders of the Philadelphia and Reading Railroad Company, held January 10, 1876, the following gentlemen were unanimously elected officers for 1876:

President.—FRANKLIN B. GOWEN.

Managers.—H. Pratt McKean, A. E. Borie, R. B. Cabeen, J. B. Lippincott, John Ashhurst, Charles E. Smith.

Treasurer.—SAMUEL BRADFORD.

Secretary.—DAVID J. BROWN.

Ohio and Baltimore Short Line Railway.

The stockholders of the Ohio and Baltimore Short Line Railway Company, (otherwise the Hempfield Railroad Extension,) met at Washington, Pa., on the 10th inst., and elected the following Board of Directors for the ensuing year: C. M. Reed, William W. Smith, Dr. Thomas McKennan, William Workman, S. B. Hayes, Wm. Keyser, T. Harrison Garrett and John K. Cowen. Mr. Reed was elected President and J. B. Washington Secretary. Mr. Washington is Secretary and Assistant Auditor of the Pittsburg and Connellsville Railroad, now the Pittsburg division of the Baltimore and Ohio Railroad. The Board subsequently elected W. H. Ijams Treasurer, W. T. Thelin Auditor, and James L. Randolph Chief Engineer.

The proposed "Short Line" is owned and will be controlled by the Baltimore and Ohio Railroad Company. It is to run from Layton's station, on the Pittsburg and Connellsville Railroad, to Washington, Pa., there connecting with the Wheeling, Baltimore and Pittsburg Railroad, and forming a connection to the southwest for Connellsville coal and coke.

Car Building in Wilmington, Del.

The Philadelphia, Wilmington and Baltimore Railroad Company is preparing for the increased travel during the Centennial Exhibition by building a number of first-class passenger cars, such as are now in use on the road. At the shops of the company, at the foot of Third street, Wilmington, six cars of that description are now in course of construction, and they intend to keep on building until they have a sufficient number to meet the demand. They are also constructing two baggage cars, and will build, besides the first-class passenger cars, a number of less expensive ones. In addition to the work being done at the shops of the company, a contract for six first-class passenger cars has been given to the Harlan & Hollingsworth Company. The railroad shops of Wilmington are now running their full number of hands.

California Mining Stocks.

The annexed table contains, in a compact form, information of considerable value to a large class of readers. To the column of assessments should be added $10,000,000 or $15,000,000 levied on some of the properties before the present companies were formed.

It should also be stated that a large majority of these mines being upon the Comstock lode, the exhibit of earnings is not to be taken as a criterion of the net results of mining in any other section of the far West.

The information is furnished by William Ward, No. 5 Broad street, Drexel Building, and covers the highest and lowest prices for the year 1875:

American Railroad Journal.

Saturday, January 22, 1876.

Financial and Commercial Affairs.

Money has been less active since our last. The inquiry from speculative sources has been less urgent, and call loan rates have been quoted as much more favorable for the borrowing interests, ranging from 4@7 per cent., with the main negotiations reported toward the close at from 4½@6 per cent. per annum. From mercantile sources, a fair demand for aid has been noted, mostly with a view to the preparations now in vigorous progress, for the Spring trade. Choice to very good commercial credits have been rated at from 6@8 per cent. per annum, on which basis the discount wants of merchants in good standing have been quite readily met. The influx of funds from the interior has been comparatively liberal, largely of national bank notes, but, in part, also of legal tender issues: and the City banks report a rising average in these lines; last week's gain in this particular of legal tender notes having been over five millions, with an enlargement of the deposit item, of an equal amount, giving much additional strength to the bank reserves, which have been augmented fully three millions, in the excess of the legal tender reserve, over the requirements of the national banking act. The U. S. Sub Treasury also added to both its coin and currency balances, as the result of the week's business,—the increase in the coin item growing mostly out of the customs revenue at the port, which told on the coin reserve of the City Banks. The City Banks have had their deposits augmented $5,238,300; and their

legal tender reserve $5,233,900. The specie average has been reduced $840,500 The loan and discount item was contracted $1,391,900. The circulation was diminished $80,200. The U. S. Sub Treasury in this city closed the week with a currency balance of $36,167,614, against $35,177,837 the preceding week; and a coin board of $14,626,551, against $44,086,394 on the previous return. The City bank exchanges in currency reached $447,750,631, or a daily average of $74,625,105. The customs revenue of the port, during the week was $1,560,000. The City banks reported their average of gold last week at $23,309,100, and their greenback average at $44,562,560. Their deposits stood at $216,058,500. The loan item was $261,652,100. The circulation was $18,515,600.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $13,856,975.

The aggregate of the outstanding U. S. currency, of all denominations, December 1st was $416,505,440. The outstanding amount of legal tender notes is $371,827,220. The National bank circulation is now $344,209,311, including $2,100,360 of national gold bank notes.

The specie shipments from San Francisco, January 1 to Dec. 31st, were $42,374,186, against $30,428,801 in 1874.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $8,410,028; special deposit of legal tenders for the redemption of certificates of deposit, $39,495,000; Coin, $70,897,517; Coin certificates, $34,024,900.

The week's import entries of Foreign Merchandise at New York were $8,889,000, including $2,617,473 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 63½ millions; and from Customs, 83½ millions.

Gold has been only moderately active, and without very radical changes in the price. Less of a speculative demand has been noted. The customs call has been moderate; and the export drain light. The extremes of the price during the week have been 112½@113¼, closing on Wednesday at 112¾ as against 112⅞, on Wednesday of the preceding week. The specie outflow last week was $375,979 against $678,043 the previous week. The imports of specie at this port last week were $40,739, and since January 1, $87,443, as against $56,333, same time last year. The customs demand for gold last week averaged $260,000 per day. Foreign Exchange has been in fair request closing about steady. Bankers' sixty day bills on London closed on Wednesday at $4 84@$4 84½; sight bills on London at $4 88@$4 88½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,050,091. The week's imports of Dry Goods and general merchandise were to the specie value of $8,889,000 as against $7,204,672 the corresponding week of 1875.

Government Securities have been more sought after through the week, and have been quoted generally firmer in price. The investment purchases have been liberal. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $362,640,062.

U. S sixes of 1881 closed on Wednesday of this week at 121⅜@121⅝; U. S. Five-Twenties of 1864, at 114⅛@114¼; U. S. Five-Twenties of 1865, 116⅞@117⅛; U. S. Five-Twenties of 1865, consolidated, 118⅜@118½; U. S. Five-Twenties of 1867, 120⅜@120½; U. S. Five-Twenties of 1868, 121⅜@121⅝; U. S. Ten-forties at 118¾@119; U. S. Fives of 1881, (Funding Loan) 117⅛@117¾; Six per cent. currency Sixes, 123@123½.

State and Railway bonds have been in fair demand, and have been quoted stronger in price. And in the line of Railway and Miscellaneous share property, a much livelier business has been reported, with values quoted generally higher and quite buoyant toward the close,

General business has been fair in the produce line, Breadstuffs, Provisions and Cotton showing most animation. Foreign merchandise, however, has been comparatively quiet. Metals slow of sale. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock $31@$32; Coltness $33; No. 1 American Pig at $23@$24; No. 2 do. at $21@$22; Forge, $16@$20; English Rails (in bond) $35@$36 gold American Rails at works, $45@$48; Old Rails $20@$22. Wrought Scrap, $30 Ocean freights have been moderately active, but quoted lower on berth, with room for Grain, Bacon, Lard, Flour and Cotton in most demand.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ The earnings of the Michigan Central Railroad during November, 1875, were $587,269 55, the expenses $393,607 77, and the net earnings $193,661 78.

Atlantic and Lake Erie Railroad.

The Ohio State *Journal* says that the contract for building the Atlantic and Lake Erie Railroad from Chauncey, in Athens County, to Bucyrus, in Crawford County, Ohio, a distance of 121 miles, was awarded on the 12th inst. to Vibbard, Ball & Co., of New York, the road to be completed and ready for business in 15 months. The *Journal* adds that Vibbard, Ball & Co. have sub-let to Merritt & Eaton the division from Bremen to Granville, a distance of 31 miles, to be completed by the 1st of June next, and that the remainder of the line contracted for by Vibbard, Ball & Co. is to be sub-let this month.

The portion of the road from Chauncey to Bucyrus will pass through the very heart of the great coal fields, give a sufficient outlet for transportation on both sides, and will cross or tap the following important railways: The Hocking Valley at Salina; Muskingum Valley at New Lexington; Newark and Straitsville at Junction City; Central Ohio and Pan Handle between Columbus and Newark; Cleveland, Mt. Vernon and Columbus at Centerburg; Cleveland, Columbus, Cincinnati and Indianapolis at Mt. Gilead; Atlantic and Great Western at Three Locusts, and the Pittsburgh, Ft. Wayne and Chicago Railway at Bucyrus, making ten railways in all.

☞ The Bulletin of the American Iron and Steel Association publishes a detailed statement showing that the production of pig iron in the United States in 1875 was about 2,100,000 net tons, a falling off of about 600,000 tons as compared with the production in 1874. The stocks of pig iron on hand and unsold at the close of 1875, including stocks in the hands of agents, aggregated about 700,000 net tons, against 800,000 tons a year ago. The consumption of pig iron in 1875 was less than it was in any year since 1871.

☞ We learn from Ottawa that the question of the route for the British Columbia portion of the Canadian Pacific Railway has been settled, and the Government will be enabled to make arrangements for the commencement of work during the summer.

☞ The Baltimore and Ohio Railroad Company having leased the Pittsburgh and Connellsville Railroad, took possession on the 1st of January, 1876, and it is now known as the Pittsburgh Division of the Baltimore and Ohio Railroad, with E. K. Hyndman, Superintendent.

☞ The Sacramento Record-Union says that work on the branch railroad from Woodland to Tehama is progressing rapidly. The grading of the road bed is finished in Yolo County, and the track is now being laid.

☞ A certificate of incorporation of the Cincinnati and Williamsburg Railroad Company was filed with the Secretary of State of Ohio on the 11th inst. by Mr. Jamieson and others. Capital stock $200,000, in shares of $50 each.

☞ Calvin A. Richards has been unanimously re-elected President. H. R. Hardy Clerk, and Charles Boardman Treasurer of the Metropolitan Railroad Company.

☞ A horse railroad to transport lime rock from the quarries to the kilns at Rockland, Me., is soon to be built.

OFFICE NO. 227 SOUTH 4TH ST.,
PHILADELPHIA, Dec. 29, 1875.

DIVIDEND NOTICE.

THE TRANSFER BOOKS OF THIS COMPANY will be closed on the 31st inst., and reopen on Monday, Jan. 17, next. A quarterly dividend of Two and a Half per Cent. has been declared on the preferred and common stock, clear of all taxes, payable in cash on and after the 25th of January next, to the holders thereof as they shall stand registered on the books of the company at the close of business on the 31st inst.

All dividends payable at this office, where blank orders for dividends can be obtained.

S. BRADFORD, Treasurer.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, Dec. 15, 1875.

A DIVIDEND OF FOUR PER CENT. HAS been declared by this company, payable on the 1st day of February next to the holders of full-paid shares registered at the close of the 15th day of January next, after which and until the 5th day of February the transfer books will be closed.

L. V. F. RANDOLPH, Treasurer.

☞ The N. J. Midland Railway Company announce to the bondholders in another column that the holders of bonds have surrendered $1,750,000 under the Balestier plan of reorganization. Owing to the extraordinary opposition made to this plan whereby a great many bondholders have been misled through circulars and other means, the committee deem it advisable to extend the time of surrendering the bonds until February 1, 1876. Bonds surrendered under the Balestier plan should be deposited (accompanied with one-quarter of one per cent.) with the Central Trust Co., 14 Nassau street, N. Y. Meantime further particulars, together with circulars giving fullest information, can be had by addressing H. P. Dechert, Secretary, 138 Chambers street, room 10. P. O. Box 4,699.

☞ During the first week in January the Clerk of the Superior Court of Glynn County, Ga., recorded a mortgage upon the Brunswick and Albany Railroad, for the sum of one million dollars. The mortgage is given by Jacob DeNeufville, as Trustee for the party possessing the legal title to the Brunswick and Albany Railroad, for the purpose of obtaining funds to complete the road to Eufaula, Ala.

Eastern Railroad.

At the adjourned meeting of the creditors of the Eastern Railroad Company, held in Boston on the 15th inst., the plan proposed by the Committee of Conference, and submitted by them to the meeting held on the 8th, was accepted. The trustees named are Messrs. Charles Allen, Wm. B. Bacon and Willard P. Phillips, gentlemen of undoubted integrity and capacity. The scheme must have Legislative sanction, and a committee of bondholders will present it to the General Court at an early day. The Boston *Journal*, alluding to the above, says:

The scheme proposed, as we have shown before, is entirely in the interest of the bondholders. The stockholders have a small show of having their rights in the franchise of the road kept in existence. If the road should not be sufficient to pay the interest on the new $15,000,000 bonds after a mortgage is secured, then the stock will continue to have a speculative value. If the road again defaults the stock will go out of existence. The property of the road through gross mismanagement is held for a debt which is in excess of the value of the road. The bondholders therefore propose, as they have a right to do, to secure by mortgage all there is of the road, and should the business of the road ever become so remunerative that the earnings exceed the interest on the indebtedness, the surplus will be applied to a sinking fund to reduce the principal of the debt. When the debt shall have been reduced to ten millions, which is the estimated value of the road, then and not till then will the stock have a show of receiving a dividend. Those versed in the doctrine of chances can estimate the probability of a successful termination of the scheme. The bondholders make their sacrifice in scaling the rates of interest, but they will have a property the value of which will depend largely upon good management. The whole question, however, promises to be one of interest, and what action the Legislature will take is a matter of conjecture.

American Loans Abroad.

The London *Times* of December 31 thus refers to the bringing out of the new Baltimore and Ohio Railroad loan, the success of which has since been cabled to Messrs. Drexel, Morgan & Co.:

Messrs. J. S. Morgan & Co. invite subscriptions for £1,300,000 sterling six per cent. consolidated mortgage bonds to bearer of £200 each of the Pittsburg and Connellsville Railway Company. The loan is guaranteed by the Baltimore and Ohio Railway Company, and forms part of a total issue of £2,200,000 secured on the entire property of the Pittsburg and Connellsville Railway. The Baltimore and Ohio Railway is reckoned one of the most prosperous in America, and the Pittsburg line has been leased by it for a *minimum* period of fifty years. This new issue of bonds is to be used chiefly to pay off part of the existing debt, which amounts altogether to only $9,400,000, of which $5,000,000 is held by the Baltimore and Ohio Company. The price of issue will be 97 per cent., or £194 per £200 bond, payable as follows: 20 per cent., or £40 per bond on allotment; 40 per cent., or £80 per bond on February 1; and the remaining 37 per cent., or £74 per bond, on March 1. The subscriptions were opened Monday, January 3, and many times the amount of the loan was subscribed the first day.

The same paper also contains the prospectus issued by Messrs. McCalmont Brothers & Co. at the same time, for the sale of £2,000,000 general mortgage bonds of the Philadelphia and Reading Railroad Company. These bonds are £200 each, bear 6 per cent interest, and were issued at 93½ per cent., payable by instalments as follows: per cent. on application, 15 per cent on allotment, 25 per cent. on 1st of March, 25 per cent. on the 27th of March, and the remainder on the 29th of April. This loan was also taken on the first day, the subscriptions having been largely in excess of the amount of the loan.

The Yield of Precious Metals of the Pacific Coast.

GEN'L SUPT'S. OFFICE, WELLS, FARGO & Co., }
SAN FRANCISCO, December 30, 1875. }

We enclose you herewith a copy of our annual statement of precious metals produced in the States and Territories west of the Missouri river, including British Columbia and the west coast of Mexico, during 1875, which shows an aggregate yield of $80,889,037, being an excess of $6,487,982 over 1874, the greatest previous annual yield in the history of the coast. Nevada, Colorado, Mexico, Oregon, British Columbia, Montana and Arizona increased, while California, Idaho, Utah and Washington decreased. The increase is actual except for Mexico, Oregon and Arizona, where it is apparent rather than real, as compared with other years, a regular product being accounted for and reported herein, hitherto omitted. The decrease in California was in the main occasioned by a stinted supply of water for placer and hydraulic mining. The increase in Colorado and Nevada is notable, also the fact that Nevada yields more than half of the whole product of the country.

Professor R. W. Raymond credits New Mexico (omitted in our statement) and Arizona combined with $987,000, which is a liberal allowance. We have been unable to obtain any data that justifies a showing so favorable.

Present prospects indicate an aggregate yield of $90,000,000 for 1876, of which Nevada will doubtless produce $50,000,000.

JOHN J. VALENTINE, Gen'l Supt.

☞ It is supposed by the management of the Columbus and Toledo railway that regular trains will be running between Delaware and Columbus by the first or middle of May next.

Delaware Railroad.

The regular annual meeting of the stockholders of the Delaware Railroad Company was held at Dover, Del., on the 13th inst. From the report of the President, which was presented, we learn that the earnings for the year ending October 31, 1875, were $510,094 12, of which $145,967 85 were from passengers, $349,094 06 from freight, and $15,032 21 from other sources. The operating expenses, as per agreement with the Philadelphia, Wilmington and Baltimore Railroad Company lessees, (seventy per cent. of gross earnings) were $357,065 88; dividend six per cent., and interest on bonds, less rent of branch roads received for the year, $129,221 38, making a total of $486,287 26. Surplus for the year over expenses, dividends and interest, $23,806 86.

This surplus has been disposed of three-fourths to lessen past losses to lessees, and one-fourth to lessees as heretofore.

The peach and berry crops for the past year were the largest ever raised, but the larger crop of peaches was raised in the upper part of the State, so that the haul on the Delaware railroad was a very short one and its portion of earnings was comparatively small.

The road is in excellent order, and during the year eleven miles of track have been laid with new iron. The value of the sinking fund January 1, 1876, was at par $183,559; value January 1st, 1875, $164,201 08, making an increase for the year of $19,358 32. The debt to be paid by this fund is $170,000. The two classes of bonds, amounting to $600,000, which fell due July 1, 1875, have all been paid except $2,500, the bonds for which have not been presented.

For the purpose of showing the magnitude of the fruit business of the State the following statistics are given: Total number of baskets of peaches shipped in 1875, 4,236,751. Total number of car-loads of berries, 905. Highest number of baskets of peaches shipped in one day, 209,000. Highest number crates of berries 22,600.

A per centage of 70 per cent. of gross earnings for operating expenses has been agreed upon with the Philadelphia, Wilmington and Baltimore Railroad Company, the lessees, for five years.

The following gentlemen were elected directors for the ensuing year: S. M. Felton, Isaac Hinckley, A. C. Gray, Joseph Binghurst, Charles Warner, Ed. Binghurst, Jr., Isaac Jump, Henry B. Feddeman, Manlove Hayes, Alex. Johnson, Wm. H. Ross, Albert Curry and J. T. Moore. President, S. M. Felton; Secretary, Manlove Hayes.

☞ In the United States Circuit Court at Mobile, Ala., on the 15th inst., Judge Woods signed a decree vacating the office of Stanton & Loomis as Trustees and Receivers of the Alabama and Chattanooga Railroad. They are required to turn over their accounts on the first of February to the new Trustees, Hon. David A. Wells of Connecticut, and Robt. H. Smith and W. D. Dunn of Alabama.

☞ The Utica, Ithaca and Elmira Railroad was formally opened for business on the 17th inst. Four trains will leave Elmira for Syracuse and four return daily. This opens up the shortest and most direct route from the bituminous coalfields of Pennsylvania to Central and Northern New York.

Metropolitan Railroad.

The directors of the Metropolitan Railroad Company, elected at the annual meeting of the stock holders held in Boston, Mass,, on the 12th inst., are as follows: Calvin A. Richards, William Hendry, John W. Draper, Geo. H. Vincent, Harvey Jewell, Nathan Cushing, Dexter N. Richards; John M. Clark, William A. Rust.

From the report of the directors which was submitted by the President, Calvin A. Richards, Esq., we learn that during the year ending November 30, 1875, the income has been as follows:

From passengers, and tickets sold	$1,104,254 99
From other roads, as tolls or rent for use of road	8,820 01
From other sources	13,609 75
Total earnings	$1,126,754 75
The total expenses have been	976,753 51
Net earnings	$150,001 24
Add surplus of 1874	51,535 75
Total	$201,536 99
From which dividends have been paid	112,500 00
Leaving a surplus of	$89,036 99

The cars of the Company have run during the year ending Nov. 20, 1875, 523,675 round trips, a total distance of 3,177,557 miles, and have carried in all 21,461,859 passengers, being an average of 8,705 miles run and 58,798 passengers carried for each day in the year, showing an increase over the previous year of 588,048 passengers carried, and consequently an increase in receipts of $21,000. The President adds:

This gratifying result, when added to the fact that the expenses for the year have been reduced $25,000, while the miles run have been increased some 180,000, is of itself quite satisfactory, financially speaking, and it is still more gratifying as furnishing the best of evidence that our efforts to accommodate and please the people have been appreciated by them. The means employed and money expended in that direction have returned to us in an agreeable manner, stimulating us to renewed exertion each month, and teaching the common-sense lesson, that to gain and retain public patronage we must first deserve it. The history of this Company, like that of all others, shows some mistakes, and none more disastrous than that false notion of economy which closes its eyes to the reasonable wants and desires of the people, when to grant them calls for an outlay of money for the benefit and preservation of its own property as well as to obtain the goodwill and hearty support of its patrons. Fully mindfull of this important fact your Directors have, during their twelve months' service, endeavored to recover the popularity which in the few previous years had in a measure, been lost. The result shows for itself, and it is only proposed here to speak of the means adopted whereby that result has been reached.

Our business is to convey people from one point to another with comfort, safety and convenience. For this purpose all our cars have been put into and kept in a condition not to offend the most fastidious patron. The men selected as drivers and conductors have been held to a strict performance of all their duties, and our patrons have been urgently requested to report to the President all inattention or negligence on the part of employes of the Company; additional cars have been placed on all our lines where demanded by the growth of business; fares have been reduced on most of the lines where two fares were before required; and many other changes made, not necessary to detail here, all, however, looking to one end, and expressing our determination to accommodate passengers and obtain their good-will. To do this and to properly manage the other business intrusted to their hands has been the constant aim of the Directors, who would now call your attention to a detailed account of their expenditures and management of the receipts of the year.

Of the $500,00 worth of bonds issued, but $188,000 were sold at the opening of our financial year. The first thing that seemed necessary to be done was to place, by an energetic and determined effort, such as has been made, the business affairs of the Company where they honestly belonged, the natural results of which were to secure a high place in the public estimation and a speedy sale, at par, of all the bonds remaining.

The money received from the sale of the bonds was at once applied to the payment of the floating debt, which so materially reduced the amount that the remainder is a comparatively light burden and can be easily carried. Although our expenditure has necessarily been heavy in many directions, as will be seen under the different heads, our debt has not been much increased, while actual and very valuable additions and improvements have been made to our real property, obviating the necessity for a like expenditure during years to come.

The assets and liabilities of the Company November 30, 1875, were:

ASSETS.

Road	$1,164,082 89
Real estate and buildings	1,032,095 38
258 cars	236,461 50
1421 horses	185,454 69
Sleighs and coaches	43,703 14
General equipment, consisting of engines, machinery, grist mill, tools, snow plows, harnesses, etc	57,152 39
Hay, straw and grain	20,525 64
Sundry accounts	66,278 69
Cash	8,163 81
Tremont street land account	71,078 14
Total	$2,884,946 27

LIABILITIES.

Capital Stock	$1,500,000 00
Notes payable	328,000 00
Bonds 7's due 1884	500,000 00
Mortgage notes on Guild Estate, due in 1877	243,442 12
Sundry accounts	34,389 82
Outstanding tickets	21,853 36
Excess over liabilities	257,260 97
Total, as above	$2,884,946 27

☞ The directors of the Washington and Georgetown Railroad Company elected at the annual meeting of the stockholders, held in Washington on the 12th inst., are Wm. Guntin, G. W. Riggs, W. Orme, W. R. Riley, M. G. Lane, Leonard Whitney and Henry Hunt. This secures a continuance of the present management. The report of the president shows the receipts for the year ending December 31, 1875, to have been $398,181 10, a gain of $16,824 50 over the previous year, and an average daily income of $1,090 90. Sixty-four cars have been run during the year—36 on the avenue, 20 on Seventh street and 8 on Fourteenth street. The royalty of the alarm punch has been reduced from 25 to 15 cents each.

☞ A dispatch from St. John, N. B., says that a delegation from St. George and other parts of Charlotte county interviewed the local government to obtain an increase of subsidy for the Grand Southern Railway. They agreed to accept $5,000 per mile, and arranged with the Government to contract to build the line extending from St. John via St. George and St. Stephen through the coast towns of Maine to Portland.

Scioto Valley Railroad.

A meeting of the stockholders of this company was held in Columbus, Ohio, on the 13th inst., at which the following named gentlemen were elected to serve as directors during the ensuing year: William Monypeny, Samuel Thomas, E. T. Mithoff, John G. Mitchell, F. C. Sessions, W. B. Hayden, Columbus; Mathias Lewis, Chillicothe; J. Groce, Circleville, and W. A. Hutchins, Portsmouth. At a meeting of the directors held subsequently, E. T. Mithoff was chosen President, W. Neil Denison Secretary, F. C. Sessions Treasurer, M. A. Daugherty Attorney, George D. Chapman General Manager, and Joel Huntoon Chief Engineer.

The following resolution was adopted:

Resolved, That in the opinion of the stockholders here present, the thanks of the stockholders are due to George D. Chapman and his assistants for the able and efficient manner in which the work of construction has been pushed forward, giving assurance of the early completion of this great enterprise.

☞ The Governor of Wisconsin, in his message, shows that the gross receipts of the treasury during the past year were $2,129,151 46; and the gross disbursements, $1,851,470 12. The total debt of the State is $2,252,057. Except one short line, no railways are now being built within the State, and none of the companies owning or operating lines within the State have paid dividends for the past two years. He thinks that existing legislation has, either justly or unjustly, impaired the credit of the State and of its individual citizens. He therefore recommends the repeal of the Potter law, and the substitution of a law prohibiting unjust discrimination and extortionate rates and making provision for continued supervisory control of these corporations—similar to that which has been found satisfactory in Massachusetts and Minnesota.

☞ The York (Penn.) *Daily* says that last December, the Susquehanna Steam Saw Mills of Messrs. H. Small's Sons & Co.'s at Wrightsville, cut 51,500 feet of white pine bill timber in one day, while filling an order for the Pennsylvania Railroad Company, for timber used in rebuilding the Market Street bridge in Philadelphia. This is considered fast sawing, and has never, so far as we know, been equaled by any timber mill in that section of country; and its close proximity to the Baltimore and Philadelphia lumber markets also gives it a great advantage over most of the other mills along the Susquehanna River when promptness is required in furnishing bills.

☞ The managers of the Scioto Valley (Ohio) Railroad report that the track of the road is now laid some two miles south of Lockbourne. By the latter part of next week the road will be in complete running order to Ashville, and Messrs, J. A. Hawkes & Co. contemplate putting on a line of coaches to ply between Circleville and Ashville, connecting at the latter place with the Scioto Valley Railroad for Columbus. The time between Circleville and Columbus will be two hours and the fare one dollar.

☞ The earnings of the Chicago, Milwaukee and St. Paul Railway for the year 1875 were $8,255,743, the expenses $5,170,353, and the net earnings $3,085,390.

Public Debt of Virginia.

The Richmond *Whig* says that the advantages to the State of Viginia to be derived from the acceptance of the offer made by the British bondholders through General Taylor, as presented by him and as it understands them, are substantially as follows, (the term of three years is taken, and the debt is divided into consolidated, or tax receivable, and non-consolidated:)

The non-consolidated debt amounts to.		$10,000,000
Interest at 6 per cent. (currency).....		600,000
Interest proposed on same by new bonds at 3 per cent., payable in gold.....	$300,000	
Premium on gold, say 15....	45,000	
		345,000
Saved to the State annually.....		$255,000
Consolidated debt.....		$20,000,000
Interest 6 per cent (currency).....		1,200,000
On new bond 4½ (gold)....	$900,000	
Premium on gold 15.....	135,000	
		1,035,000
Saved annually.....		$165,000
Annual saving for three years.....		420,000
Total saving for three years.....		$1,260,000

The interest on the new bonds to be offered for "consols" is put at 4½, as the British holder of these securities now realizes 4½ gold. The higher rate of interest would ensure exchange, especially as the new bonds would in a few years carry 5 per cent. interest.

Poughkeepsie Bridge.

We are informed that a conditional contract has been entered into by the officers of the Poughkeepsie Bridge Company for the construction of the great bridge across the Hudson at this point. The price named for the completion of the whole work, ready for the cars, is but a little over $3,000,000 in cash, and the balance in bonds at a figure but slightly less than par, and the work is to be begun as soon as the company here is prepared to assume the payment of the amount of cash required. The making of this contract is justly regarded as an exceedingly important step forward, for the terms and conditions are in all respects more favorable than we have had reason to expect. It does not insure the immediate construction of the bridge, for that cannot be done till $1,000,000 are raised, but it does make it an absolute certainty that on the raising of that sum the bridge will be built, without the necessity of putting in any more money by the stockholders, and without the issue of so large an amount of bonds as to endanger the stock. The cost is reduced to the minimum figure, and the whole aspect of the great enterprise assumes a more promising aspect than ever before.—*Poughkeepsie Eagle.*

The Coal Trade.

The Philadelphia *Ledger* says that the coal product for the week ending on the 8th inst., from the Schuylkill region, was 6,620 tons, against 2,609 tons for the corresponding period of last year, an increase of 4,081 tons. The total for the year commencing with December 1 was 262,508 tons, against 375,645 for the corresponding period of last year, a decrease of 113,142 tons. The quantity sent from all the regions of which we have report was, for the week, 156,555 tons anthracite, against 120,813 tons for the corresponding period of last year, showing a decrease of 35,742 tons. The total amount of anthracite sent for the year was 791,559 tons, against 821,706 for same period last year, a decrease of 30,147 tons. The quantity of bituminous coal sent to market for the week was 28,806 tons, against 20,453 tons for corresponding period last year, a decrease of 8,353 tons. The whole bituminous tonnage from the beginning of the coal year to the 8th inst., was 68,883 tons, against 47,311 tons in corresponding time last year, an increase of 21,522 tons. At Port Richmond for the week ending on the 15th inst., there were receipts of 800 tons of coal and shipments of 8,500 tons, leaving 135,200 tons on hand. The receipts of coal at Perth Amboy for the week ending the 8th instant were 9,155 tons; total received during the season, 70,783 tons; shipments for the week, 6,657 tons; total shipments for the season 37,429 tons; leaving on hand 85,901 tons. The total shipments from the Lehigh region for the year 1875, according to the Mauch Chunk *Coal Gazette*, over both railroads and canal, amounted to 4,600,056 tons, against 5,600,515 tons during the year 1874, showing a decrease of 1,000,458 tons.

HUDSON RIVER CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

P. M.ᶜ Brigham, J. H. Butts, Ag't,
KINGSTON, N. Y. 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER CEMENT COMPANY.

MANUFACTURERS OF HIGH FALLS ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

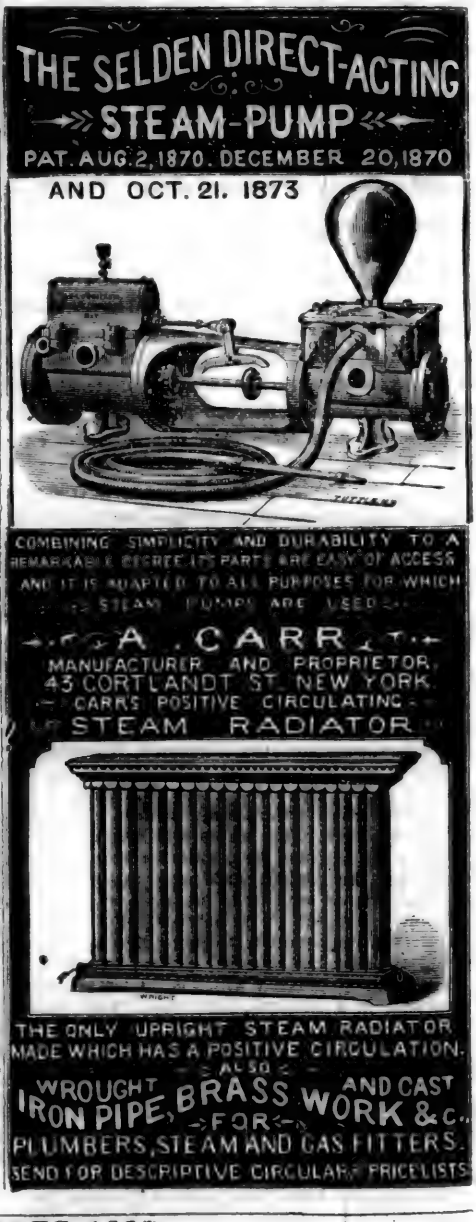
THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

LAWRENCEVILLE CEMENT COMPANY.

ROSENDALE HYDRAULIC CEMENT.



This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York.

This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

Patent Wrought Iron Columns, Weldless Eye Bars,

for top and bottom chords of bridges.

Railroad Iron, Street Rails, Rail Joints and Wrought Iron Chairs.

Refined Bar, Shoeing, and every variety of Shipping Iron Made to Order.

Plans and Specifications furnished. Address

SAMUEL J. REEVES, President.

ESTABLISHED, 1831.

THOS. T. TASKER, Jr., STEPHEN P. M. TASKER.

MORRIS, TASKER & CO.

PASCAL IRON WORKS,

PHILADELPHIA.

TASKER IRON WORKS,

NEW CASTLE, DELAWARE.

Office, FIFTH and TASKER Streets, Philadelphia.
Office and Warehouse, No. 15 GOLD St., New York.
Office and Warehouse, No. 36 OLIVER St., Boston.

Manufacturers of Wrought Iron Welded Tubes, plain, galvanized and *rubber coated*, for gas, steam and water.
Lap-Welded Charcoal Iron Boiler Tubes.
Oil Well Tubing and Casing.
Gas and Steam Fittings, Brass Valves and Cocks.
Gas and Steam Fitters' Tools.
Cast Iron Gas and Water Pipe.
Street Lamp Posts and Lanterns.
Improved Coal Gas Apparatus.
Improved Sugar Machinery, &c.

We would call special attention to our Patent Vulcanized Rubber-coated Tube.

Jersey City Steel Works.

JAS. R. THOMPSON & CO.,

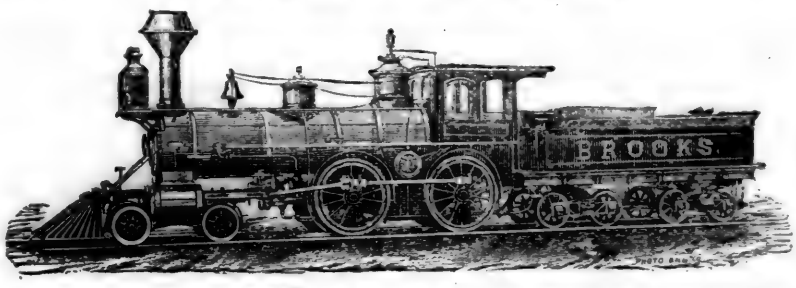
MANUFACTURERS OF

HAMMERED AND ROLLED

CAST STEEL,

OF ALL DESCRIPTIONS,

Warren Street, Jersey City, N. J.



Tool, Drill, Frog Plates and Points, Cutlery, Rake, Axe, Hoe, Machinery, Spring Wagon-Axle, Tyre, Sword, Bayonet, Rifle, and Pistol, ***made to Order.***

JAS. R. THOMPSON,

L. H. GAUTIER, D. C. GAUTIER, B. ILLINGSWORTH, H. DICKINSON.

BROOKS LOCOMOTIVE WORKS,

DUNKIRK, N. Y.

Orders Solicited for Locomotives Adapted for Every Class of Railway Service.

M. L. HINMAN, *Secretary and Treasurer.*

H. C. BROOKS, *President and Superintendent.*

THE

TAUNTON LOCOMOTIVE MANUFACTURING COMPANY,

TAUNTON, MASS.,

HAVING large facilities, and having had a long experience in the business, are prepared to furnish

LOCOMOTIVES,

EITHER FOR BURNING WOOD OR COAL,

OF THE MOST APPROVED CONSTRUCTION.

ALSO ALL KINDS OF

RAILROAD MACHINERY,

STATIONARY ENGINES AND BOILERS.

SUGAR MILLS, SHAFTING, ETC.

HARRISON TWEED,

Agent and Treasurer.

P. I. PERRIN, Sup't.

Riehle Bros.

Ninth above Master St., Phila.

NEW YORK, 93 Liberty St.; PITTSBURGH, 235 Liberty St.

SCALES

SCALE AND TESTING MACHINE WORKS

PHILADA ESTABLISHED 1840.

Our Patented Double Beam, "Self Adjusting" Railroad Track Scale acknowledged the BEST. Heavy Scale adapted for Railroads a Specialty. Makers of the New Testing Machine. Send for Illustrated Price List.

HARRISBURG

Car Manufacturing Co.,

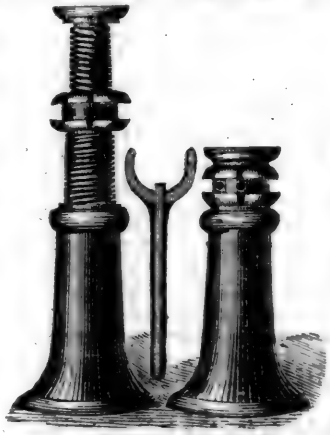
HARRISBURG, PENNSYLVANIA,

MANUFACTURE

Passenger, Mail, Baggage, Box, Gondola, Coal, and all other kinds of

RAILROAD CARS,

RAILROAD CAR WHEELS AND CASTINGS, BRIDGE AND ROLLING MILL CASTINGS, BRIDGE RODS, BOLTS,



AND

RAILROAD FORGINGS.

W. T. HILDRUP, Superintendent.

WILLIAM CALDER, President.

BALL'S PATENT TELESCOPE JACK.

Hot and Cold Punched Nuts, Bolts, Lag Screws and Washers.

Belting, Packing Hose, Rubber Springs, Car Trimmings, Steam Pumps.

ALBERT BRIDGES,

MANUFACTURER AND DEALER IN

Railway and Mining Supplies and Machinery

No. 46 CORTLANDT STREET,

P. O. Box, 2843. NEW YORK.

CAST-STEEL WORKS

OF

FRIED. KRUPP,

ESSEN, GERMANY.

TIRES, AXLES, WHEELS, &c.

SPRING, TOOL & ROLL STEEL.

Represented by

THOS. PROSSER & SON,

15 Gold St., New York.

PHILIP S. MILLER. LENOX SMITH.

AMERICAN AND FOREIGN

STEEL & IRON RAILS,

Locomotives, Cars & Machinery,

STREET RAILS,

Railway Fastenings, etc.

MILLER & SMITH,

43 Exchange Place, N. Y.

The Dickson Manufacturing Co. of Scranton.

West Chester and Philadelphia Railroad.

The receipts from operations of this road for the year ending October 31, 1875, were:

From passengers	$226,224 19
From freight	112,783 24
Incidental receipts	1,103 66
United States Mail	2,312 48
Rents	5,035 68
Gross earnings	$347,459 25
Operating expenses	$194,851 30
Real estate (addition to West Chester depot)	3,000 00
Construction (increased cost of steel over iron rails, etc.)	11,030 00
New passenger cars, $4,692	
Freight car broken up, $350	
Locomotive appraisement, 4,165	
4,515	
Net addition to equipment	177 00
Total outlay	$209,058 30

This statement includes state and local taxes, and shows an absolute decrease of expenses of $2,582 18, as compared with those of the year preceding.

☞ The earnings of the Atchison, Topeka and Santa Fe Railroad for November, 1875, were $178,953 46, the operating expenses $83,342 45, and the net earnings $95,811 01. For the eleven months ending November 30, 1875, the earnings were $1,367,774 45, the operating expenses $614,170 56, and the net earnings $753,603 89—showing an increase in earnings over the corresponding eleven months of 1874 of $219,193 43, an increase in expenses of $106,285 12, and an increase in net earnings of $112,908 31.

Phœnixville Bridge Works

Clarke, Reeves & Co.,

The attention of the officers of Railroad Companies is called to a new Album of Designs, showing the various styles of Iron Railway Bridges, Viaducts, etc., that we have constructed and are prepared to construct, which we will send by mail on application to

410 Walnut Street, PHILADELPHIA.

CHAS. PFEIFER, Constructing Engineer. C. J. SCHULTZ, Proprietor.

IRON CITY BRIDGE WORKS

OF PITTSBURGH, MANUFACTURE

Iron Lattice, Truss, Arch & Plate

BRIDGES,

IRON ROOFS, STEEPLES, RAILROAD TURN TABLES AND BRIDGE BOLTS.

Office, No. 116 Smithfield Street, PITTSBURGH, PA.

RAILROAD IRON.

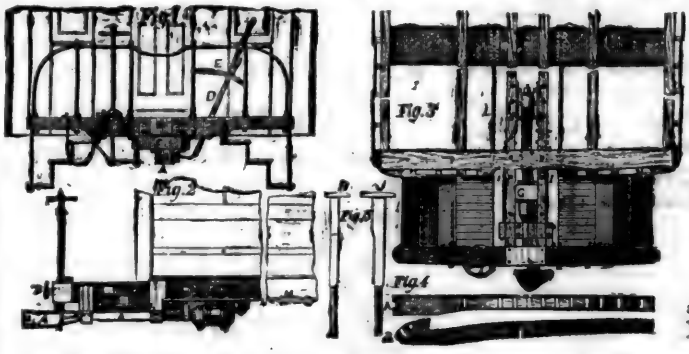
THE undersigned, agents for the manufacturers, are prepared to contract to deliver best quality **American or Welsh, Steel or Iron Rails,** and of any required weight and pattern.

PERKINS, LIVINGSTON, POST & Co., 59 Liberty Street, NEW YORK.

INVENTORS. If you want a Patent, send us a model or sketch and a full description of your invention. We will make an examination at the Patent Office, and if we think it patentable, will send you papers and advice, and prosecute your case. Our fee will be in ordinary cases, $25. *Advice free.* Address LOUIS BAGGER & CO., Washington, D. C. ☞ Send Postal Card for our "GUIDE FOR OBTAINING PATENTS," a book of 50 pages.

CAMMELL'S CAST STEEL.

ROLLED AT JERSEY CITY BY **W. BAILEY LANG & CO.** } **New York** AND **Boston.**



CORYDON WINCH,

Manufacturer of RAILROAD, SHIP, BOAT & DOCK SPIKES.

Rolling Mill and Factory, Canal Street, near Second and Laurel, Philadelphia.

MILLER'S TRUSSED PLATFORMS,

COMPRESSION BUFFERS, AND **Automatic Couplers,** FOR **RAILROAD PASSENGER CARS.**

OFFICE, *6 PARK PLACE,* NEW YORK.

Send for Illustrated Pamphlet, and call and see working Models.

E. MILLER, Patentee.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

Wisconsin Railway Legislation.

The Effect of Restrictive Legislation upon the Railways of Wisconsin and the Material Interests of the State.

The leading Wisconsin railway companies will again petition the Legislature for relief from the burdensome operations of the Potter Law. The argument in support of their plea is written by Mr. J. W. Midgley, of Chicago, at the request of Hon. Alexander Mitchell, President of the Chicago, Milwaukee and St. Paul Railway Company, and Albert Keep, Esq., President of the Chicago and Northwestern Railway Company. It is published in pamphlet form for general distribution. The authorities for the statements made are carefully given. The following is an abstract of the argument:

Whoever renders a desired service is entitled to just compensation. It becomes, therefore, necessary to consider what is a reasonable rate. The Legislature may declare that rates *shall* be reasonable, but the Courts must determine whether they are or not. Upon this point English and American authorities are agreed. Their conclusion is, "that a common carrier can afford to carry at much the same rate of hire as that which is exacted universally by carriers similarly situated, and which, if it has been found to remunerate them, may, upon the best grounds, be called reasonable."

This construction conforms to the judgment of reasonable men. The people of Wisconsin disclaim any intention of denying the railway companies' just compensation; and their representatives have repeatedly said, "Show us that the rates fixed by law are not reasonable, and we will make them just."

Taking the standard given, a difficulty arises in the varying circumstances of roads. No two are alike. Still many are sufficiently so to admit of tolerably fair comparison. It is decided that "things are conveyed under 'like circumstances' where the labor and expense are, in the opinion of the jury, the same." In the matter of transportation, its cost is a paramount consideration. If compelled to do business below cost, bankruptcy is merely a question of time. A knowledge of the cost is, therefore, *absolutely necessary* in order to fix *reasonable* rates. A tariff of rates that would be extortionate if charged upon the New York Central and Hudson River Railroad, might be no more than reasonable on the Colorado Central Railroad where business is light and expenses are heavy. It is not presumed that an accurate computation of the cost of moving a ton of freight one mile can be made; nor that, if approximated, it would be reliable, for "the cost of moving freight varies, under given circumstances, at least as much as the cost of raising crops." Nor will the precise cost of moving a ton of freight one mile be known until a railroad is built and operated exclusively for freight. Yet there are certain elements of cost contingent upon locality that are quite evident. When, for instance, it is shown that the Chicago and Northwestern and Chicago, Milwaukee and St. Paul Railway Companies annually expend nearly two million dollars for fuel for locomotives, and that medium coal averages $4 in Wisconsin, while the Pennsylvania Railroad Company pay only $2 for the best quality, it is manifest that, in one important respect, the cost of transportation must be 100 per cent higher in Wisconsin than in Pennsylvania. This comparison extends to Illinois, Indiana and Ohio roads that traverse coal districts, some of which average less than $1 50 per ton. This difference becomes more striking in view of the fact that of the 60 odd per cent which the operating expenses of the Chicago and Northwestern and Chicago, Milwaukee and St. Paul Railways bear to their earnings, the item of fuel constitutes 12 per cent.

Expenditures for track repairs and renewals are the leading items of expense. Supplies being largely drawn from the East, Western roads must pay in excess of Eastern roads the cost of carriage to the West.

Another element of cost is climatic. Southern and Eastern roads are rarely troubled on account of snow or frost; whereas, during a "severe spell," Wisconsin railways are blocked for days, traffic is suspended, and great losses are incurred.

As it does not appear that in the remaining items of expense the Wisconsin companies can effect any reduction compared with other roads, clearly the cost of railroad operations in that State is greater than that of roads more fortunately located. On what principle, then, should they be reduced to lower rates of fare and freight? The average rate on the several classes named in the present law is, for 150 miles, a slight fraction over two cents per ton per mile. The rate for 150 miles is taken because that is the average distance that each ton of freight is hauled upon the leading railways of Wisconsin. The rate named would be realized were an equal quantity of each class of freight carried. But the lower classes predominate. Lumber is the main article of shipment. For 150 miles it is taken at less than 1¼ cent per ton per mile, and for 250 miles at less than 1¼ cent per ton per mile. Hence the companies are compelled to do the major portion of their business at less than 1¼ cent per ton per mile!

In Connecticut, the railroads average 6¼ cents per ton per mile; Maine, 4¼ cents; Massachusetts, 4¼ cents; seven Pennsylvania roads, 5 cents; twenty-three Ohio roads, 6¼ cents, and New York roads, including the New York Central, 3¼ cents per ton per mile.

In Europe, the average rates per ton per mile are: in Belgium, 2¼ cents; France, 3 cents; England, 3¼ cents; and Germany, 4 cents.

Compared with other States, the lumber rate is unreasonably low. It scarcely averages 1¼ cent per ton per mile. In New England, the roads having a heavy lumber traffic average from 3 to 4 cents per ton per mile; while in the West, the average on leading roads for 150 miles exceeds 3 cents per ton per mile. This adverse showing extends to rates on grain and flour.

Nor is the comparison of passenger rates more favorable. Connecticut averages 4¼ cents per mile; Maine, 4 to 5 cents; fourteen Pennsylvania roads average 3¼ cents; Michigan, 3¼ cents; Minnesota, 4 to 5 cents; while, in the upper Peninsular, the rate is 5 cents, and in Colorado, 10 cents per mile.

Throughout England, the average is 4 cents; while upon the best routes—from London to Brighton and London to Dover—the *through* rate exceeds 5 and 6 cents per mile. In France, the average is 4¼ to 5 cents, and in Austria, 4 cents.

The low rates enforced in Wisconsin cannot be justified. No railroad in the State is in position to earn a dividend, while two only from their earnings meet current expenses and interest on bonds, and they are enabled to do so only on account of their operations in other States. Thus the people of Wisconsin receive cheap transportation at the expense of others. This is shown by applying the average Potter Law rates to the entire freight movement of the Northwestern and St. Paul companies for their last reported fiscal years. The former would then have closed the year with a deficit of $1,076,602 63; and the latter with a deficit of $1,842,599 63.

Nor are the companies with whose rates comparisons have been made excessively remunerative. Massachusetts and Pennsylvania each fall below an average of 5 per cent dividend; Maine and Connecticut average 3¼ each; while in the West, Ohio does not average 3 per cent, and only two roads in Indiana, four in Illinois, and four leased lines in Iowa, pay any dividends whatever. Of the remainder, the majority are in the hands of Receivers.

The question as to whether charges are unjust, depends not upon what price the company carries for others, but upon whether the charges in themselves are excessive or not. Complaints are often based on the mistaken belief that it always costs less to carry freight a short than a longer distance, whereas distance has little to do with the cost of carriage. Cars earn money only when they are in motion, and earn it as long as they are in motion, which fact enables companies to earn large net profits on long business at less than half the rate which is barely remunerative on short hauls. The expense of loading and handling freight is the same, whether it be destined 10 or 100 miles. In proportion as a road is enabled to compete for through business—even though taken at low rates—to that extent it is enabled the cheaper to do its local business.

Uniform rates are also unjust, because the cost of operations is not the same upon each road, or any two roads. During the year ending December 31, 1874, the expenses, per mile run, varied on the Milwaukee and St. Paul Railway, from $1 17 on the La Crosse Division, to $1 42 on the Prairie du Chien Division, and $1 46 on the Northern Division.

The character of the road should be considered. For every grade of 20 feet to the mile, the work required to overcome it, is equivalent to that expended on two miles of level road.

It is also essential to know the probable amount of freight to be carried. A large, regular business can be done cheaper than a small, occasional business. The Wisconsin companies have a comparatively small tonnage, yet they are now obliged to carry it at a lower rate than the Pennsylvania or the New York Central, one of which frequently has 120 trains a day, and the other 16 miles of freight trains daily. The transportation of such vast quantities enables those companies to earn larger net earnings per mile than are the gross earnings of any two Wisconsin lines.

Freight movement is largely in one direction. During 1874, the Milwaukee and St. Paul Ry., hauled 1,251,234 tons eastward, and only 484,821 tons westward. The cars requisite to carry this difference of 766,913 tons were hauled westward empty—i. e., a double trip was necessary to secure freight for one trip. Yet the inequality of business demands as large equipment as though it were constant.

In Ohio nine distinct tariffs of rates have been prescribed, of which the State Railroad Commissioner, in his report for 1870, said they were "the most fruitful source of complaint."

Illinois, after several attempts to define what ought to be charged, devolved the task upon three Commissioners, who prepared one schedule for all roads in the State alike.

Iowa took the Illinois rates, reduced them ten per cent. and applied them to four trunk lines.

Minnesota, failing twice to establish fixed rates, re-enacted the common law.

Untaught by these failures, Wisconsin likewise disregarded the cautious action of other States.

In Massachusetts, the Commonwealth can assume control, only after a road has been in operation 20 years, "By paying therefor the amount of capital paid in, with a net profit thereon of 10 per cent. from the time of payment by the stock holders to the time of purchase."

In England, if, after 21 years, any new railway has made 10 per cent. for 3 years, Government may reduce the rates charged but shall guarantee the Company 10 per cent. for the next 21 years.

New York has followed the English rule, by enacting that the rates of fare or freight shall not, without the consent of the corporation, be so reduced, by the Legislature, as to produce less than ten per cent. per annum, on the capital actually expended.

Maximum rates have been prescribed in Pennsylvania; yet the companies most restricted, are allowed to charge an average of four cents per ton per mile.

In New Jersey, by general law, the roads are authorized to charge ten cents per ton per mile.

In Ohio, they are unlimited up to 30 miles, beyond which they are authorized to charge five cents per ton per mile.

The six leading railways of England are empowered to charge six cents per ton per mile. Of these rates, a Parliamentary committee said, "They are always fixed so high that it becomes, sooner or later, the interest of the companies to carry at lower rates.

By wear and tear, a railway will depreciate 10 per cent. yearly. To that extent, companies that are able, make renewals. To omit making these, would be held criminal negligence. Yet, to make them, requires large outlays. These the Potter law rates preclude. Thus, Wisconsin law operates to impoverish the roads, render them unsafe, then punish the companies for becoming so!

The result has alarmed capitalists. Wherever they meet, the baleful effects of the law are known and appreciated. Their impressions are conveyed to the State Department through its agents abroad. The Consul at Rotterdam, in the Netherlands, alluding to the Potter law, says it has "affected those securities in which the Dutch capitalists had invested enormous sums;" that "for years to come, no investment of Dutch capital in U. S. railroad enterprises will be made;" and that "financiers agree in declaring that a revival of confidence in American railroad enterprises, can only be expected, when a radical change takes place in the different States." The Consul at Frankfort, the central banking city of Europe, says, "the Germans believe they have been deceived and defrauded;" they find that "sovereign States deny and disregard their guarantees;" and, he adds, "the interest offered by European enterprises is equal to the usual rates of interest in the United States. Hereafter this capital will find abundant use in its own country."

Were Wisconsin beyond the need of foreign credit she might, possibly, afford to repel it. But, with the northern part of the State unbroken, and her vast resources lying dormant, it would seem unwise to bar out the means necessary to develop them. Without credit the State cannot advance. Minnesota quickly retracted her restrictive law. Wisconsin should do likewise. Transportation is a commodity, and is sold as are other services. If its price can be fixed by law, so can that of other commodities furnished by associated capital.

The argument concludes: "The rates of fare and freight enforced by law in Wisconsin are indefensible. They are proven to be unreasonable. The railways are compelled to furnish transportation below cost. In view of which, Edmund Burke's utterance is pertinent and true to-day: 'Men have no right to what is not reasonable.'"

Chesapeake and Ohio Railroad.

Messrs. Fisk & Hatch have issued a circular to the bondholders of the Chesapeake and Ohio Railroad, drawing attention to the fact that the road was transferred on the 20th inst. to Gen. W. C. Wickham, the Receiver appointed by the State courts of Virginia and West Virginia. They say that the proceedings for foreclosure in the State courts will now be forwarded with as little expense and burden upon the property as possible, a decree of sale obtained, the property purchased under the plan of reorganization—in which bondholders to the extent of over 700 in number, (of whom nearly 600 are holders of first mortgage bonds only,) and over $15,000,000 in amount have already joined—and the reorganization will be perfected as soon as practicable. Arrangements have been made for the return to the bondholders of their funded coupons upon the surrender to the New York Guaranty and Indemnity

Company of the income bonds and accompanying receipts, and those who have funded their coupons can now recover them at any time. After fully explaining the nature of the proposed plan of re organization, they state that since it was first submitted they have had occasion to weigh and consider it in all its aspects, many times daily, and to discuss it with many hundreds of bondholders, and they are more than ever satisfied that in all essential features it is as perfectly adapted to the circumstances and as thoroughly right in principle and practicable in its operation as anything that could be devised to accomplish the purpose for which it was designed; and they believe that it will insure to the first mortgage bondholders, and to all others interested, better results than can be reached in any other way. If bondholders who have not received a copy of the plan of reorganization will forward their address to Messrs. Fisk & Hatch, it will be sent to them.

Erie Railway Company.

At a meeting of the bondholders and shareholders of this company, held in London on the 4th inst., for the purpose of receiving and considering the report of the committee as to a plan of reorganization, Mr. J. D. Ayres, Secretary, submitted the following summary of statements, received by the committee from the receiver, showing the earnings, expenses and net earnings of the Erie Railway, as such, for the fiscal years ended September 30, 1874 and 1875:

EARNINGS.

	1873-'74.	1874-'75.
October	$1,825,629	$1,680,195
November	1,529,307	1 447,665
December	1,522,585	1 287,550
January	1,455 209	1,164 975
February	1,286,510	1,101,631
March	1,430 911	1,074,742
April	1,556,922	1,423,386
May	1,646,139	1,556,521
June	1,648 988	1,570,470
July	1,545,379	1,534,098
August	1,546,174	1 497,529
September	1,605,138	1,588,089
	$18,598,896	$16,876,858

EXPENSES.

	1873-'74.	1874-'75.
October	$1,355,980	$1,045 597
November	1,151,145	1,086,998
December	1,287,218	959,987
January	1,213,678	985,357
February	1,026,289	905,098
March	1,083,810	1 030,539
April	1,207,472	1,121,194
May	1,279,592	1,090.784
June	1,259,268	1,097,073
July	1,236 796	1,150,083
August	1,113,240	1,075,096
September	1,097,871	1,131,318
	$14,312,360	$12,679,130

NET EARNINGS.

	1873-'74.	1874-'75.
October	$469,609	$634 598
November	378,162	360,666
December	235,371	327,563
January	241,531	179,617
February	260 220	196 533
March	347,100	44,202
April	349,450	302 191
May	366,646	465,737
June	389,720	473,396
July	308 582	384.015
August	482,984	422,432
September	507,266	406,771
	$4,286,538	$4,197,727

The results show for 1874-'5 a gross receipt of $16,876,858, a total outgoing of $12,679,130, and a total net profit of $4,197,727. But there will have to be added and deducted for outside operations, viz: Pavonia Ferry, Pavonia Horse Railroad, Erie Baggage, Grand Opera House property, unclaimed baggage, and Weehawken Docks; receipts, $423,026; expenses and outgoings, $494,434; or a loss of $71,408 to be deducted from the net profit of $4,197,727. Again, there is to credit $205,625 as interest on securities, and $172,236 as claims prior to October 1, 1874; in total, $377,861. And to debit: Interest on loans (floating debt), $175,412; interest on property mortgages, $31,382; gold premiums paid, $114,247; mileage, Jefferson Car Company, $94,500; claims prior to October 1, 1874, $321,346; Erie proportion of loss on operating Cincinnati, Hamilton and Dayton Railway, $62,804; State of New Jersey taxes on equipment, $19,337; State of Pennsylvania, tax on gross receipts from May, 1868, to July, 1873, inclusive, $81,685; London transfer office (now closed) expenses, $39,688; and legal expenses, London, $5,745; or in total, 946,096. The difference between $377,861 and this sum of $946,096, or $568,235, has also to be deducted. Thus the net profit account will stand as follows:

Total net profit		$4,197,727
Less	$71,408	
"	568,285	
		639,643
Balance of net profit in currency		$3,558,084

Available for bond interest, leases, and rent charges. At the same time it must be observed that the net result is thus reduced by the following items settled in the year, but which are back or special transactions, not ordinary transactions of the year:

1. In the item of expenditure for maintenance of way, is included for the rebuilding as permanent structures of Port Jervis and another bridge	$170,000
2. Interest on floating debt in course of reduction (probably)	50,000
3. Difference between claims paid and recovered belonging to period prior to October 1, 1874	149,109
4. Pennsylvania tax	81,634
5. London transfer office	39,688
Total	$490.431
Add gold premiums on coupons paid	114,247
	$604,678

Thus the net profit of a year's working may be taken at $4,162,762 currency. The special auditor, Mr. J. S. Moore, certifies the general correctness of the accounts, and that the figures of the net profit may be safely taken as a basis. The committee have received a portion only of the valuation of assets and liabilities unascertained. When the information is completed, it will be checked by the special auditor.

By order of the Committee,
J. D. AYRES, Secretary.
Erie Bond and Shareholders' Committee Office, 38 Poultry, E. C., London.

☞ There were filed in the office of the Secretary of State of California on the 11th inst., articles of incorporation of the Broadway and Piedmont Railroad Company, organized for the construction of a street railroad from Broadway street, at its junction with First street, in the city of Oakland, to Berkeley, with a branch to Peidmont Springs, and an intermediate branch through Fourteenth and Washington streets to First street, the total length being ten miles. Capital, $100,000, in shares of $100 each. Directors—Walter Blair, Samuel Howe, Montgomery Howe, A. W. Bowman and H. Vropman. The principal place of business will be in Oakland.

District of Columbia 3-65 Bonds.

The following is the text of the joint resolution directing the Commissioners of the District of Columbia to pay the interest on the bonds issued in pursuance of the act of Congress approved June 20, 1874, out of any funds in the United States treasury subject to the requisition of said Commissioners for that purpose, passed by the House of Representatives on the 24th inst.:

"That the Commissioners of the District of Columbia are hereby directed to transfer to the Treasurer of the United States for the payment of the interest due the 1st of February, 1876, on the bonds of said District, issued under the provisions of the act of Congress approved June 20, 1874, entitled 'An act for the Government of the District of Columbia and for other purposes,' the sum necessary to pay the same from any unexpended appropriations heretofore made by Congress or from any revenues derived by taxation on the property of the said District of Columbia subject to the requisition of said Commissioners, excluding that raised for the support of the public schools, provided that any further issue of 3.65 bonds is hereby prohibited, and provided further that nothing in this resolution contained shall involve the Government of the United States in any obligation to pay principal or interest of any such bonds which have been issued contrary to or not in pursuance of law."

The amount of money called for by the resolution is $222,797 50.

☞ The directors of the Pittsburg, Virginia and Charleston Railroad Company, elected on the 10th inst., are: John Scott, B. F. Jones, David A. Stewart, W. J. Howard, Joseph Walton, H. B. Hays, M. B. Thompson, George V. Lawrence, Alexander Patton. President, John Scott; Vice President, B. F. Jones; Secretary and Treasurer, D. P. Corwin; General Freight and Passenger Agent, Wm. J. Ross; General Manager, John M. Byers. The earnings from passengers during the year were $73,811 08, and from freight $40,626 53—total, $114,437 61. Number of passengers carried, 249,606. Tons of freight, 86,497.

☞ The Legislature of Victoria, B. C., opened on the 10th inst. The Governor in his speech refers to the Canadian Pacific Railway as having been since 1873 a fruitful source of anxiety and disappointment to the Province, and the non-fulfillment by Canada of its railway agreement as having seriously crippled the pastoral and agricultural interests of the community. He has declined the proposals by the Dominion Government in relation to the railway, which are at variance with the conditions recommended by Lord Carnarvon.

☞ The directors of the Union Freight Railroad Company, recently elected, are: Henry A. Whitney, Onslow Stearns, Charles F. Choate, Wm. G. Rupell, A. A. Folsom and J. R. Kendrick. This is an even division between the officers of the Old Colony and Boston and Providence Railroad Companies. It is understood that all but about two hundred shares of the stock of the Union Freight has been bought in the interest of these two corporations, which will hereafter jointly control its management.

☞ The officers of the Sacramento City Railway Company, elected on the 12th inst., are: W. E. Terry President, G. W. Chesley Vice President, N. N. Denton Secretary, J. F. Richardson Treasurer, and N. D. Thayer Superintendent.

Boston and Lowell Railroad.

The receipts from operations of this road for the years ending September 30, 1874 and 1875, were as follows:

	1874.	1875.
From passengers	$566,828 10	$549,924 70

	$893,320 03	$939,224 55
Net receipts	$403,597 08	$214,624 57
To which add accumulation of interest upon the sinking funds		11,801 65
Net income		$226,426 22
From which deduct—		
Payments for rents	$78,466 73	
Interest	119,810 99	
Taxes and insurance	60 865 88	
		259,173 60
Deficit for the year		$32,747 38

Compared with the previous year the gross receipts show a decrease of $143,067 99, with an increase in expenses of $45,904 52, making the decrease in net receipts $188,972 51. The report says:

The business depression which has prevailed throughout the country, and which has almost universally characterized manufacturing and rail road operations, has been severely felt in our business for the past year.

As compared with the previous year, the income from passengers has fallen off	$ 14,567 75
and from freight	127,195 28
Total	$141,763 03
The decrease of passenger traffic with upper roads was	$19,457 86
The increase of freight traffic with upper roads was	24,127 60
The increase of our local passenger traffic was	4,890 11
The decrease of our local freight traffic was	151,322 88
The miles run by passenger trains was	498,195
The miles run by freight trains was	414,229
Total	912,424
Increase of passenger train mileage over last year	73,305 miles.
Decrease of freight train mileage from last year	31,032 miles.

The complications growing out of contracts with upper roads for business going over our line, have been found very difficult of adjustment. The Directors are impressed with the very great importance of having the business closed up each six months, both as to profit and loss, and this is impossible so long as balances for connecting business remain unsettled. The failure to make a final adjustment of claims growing out of connecting business in past years, has occasioned the charging into the expenditures of the present year of a large sum properly chargeable to the expenses of former years.

The extremely low rates for which much of the through connecting business has been done, render the claims made for expenses incident to such business disproportionate to the benefit received and inconsistent with financial prosperity. The Directors are taking especial pains to adjust all these disputed claims, so that with payment of whatever may be found justly due, all future payments to secure unremunerative business may be avoided.

Besides the diminished traffic of the past year, the peculiar relations of rival roads have caused an increase of train mileage in order to prevent the serious loss of our legitimate business. Efforts to diminish this mileage, without materially lessening the receipts, are being carefully made, and it is hoped that a large net saving to the Corporation may be thus secured.

The large outlays made on our line for the attraction and accommodation of railway traffic, and the fact that our Corporation offers to the public facilities unsurpassed by any New England railroad, would seem, under careful management to promise pecuniary success when business industries shall again revive.

All expenses not essential to the preservation of the property and reasonable accommodation of the public are being stopped, and an earnest effort made to conduct the operations of the road upon a basis of the strictest economy consistent with safety and efficiency.

The road with its branches and equipment is in excellent condition, and efficient for a largely increased traffic without outlay beyond the current expense of operation.

During the past year a new iron bridge across the basin of Pawtucket canal, at Lowell, has been completed at a cost of about $25,000. Electric signals have been completed and put into operation between Boston and East Woburn. The right to use the Miller platform has been obtained, and all our passenger trains will soon be equipped with it. The freight bridge across Charles River has been widened and a new draw therein constructed, to meet the requirements of the Legislature, at an expense of about $45,000. New passenger stations have been constructed at Arlington, Willow Bridge, and East Woburn, and a new steam boiler house added to the shops at East Cambridge, all of which have been charged to the current expenses.

The joint roads have added to their equipment the present year 100 new Dump Cars, 4 new Locomotives, in place of two old locomotives exchanged, 3 new Passenger Cars and 4 new Baggage Cars.

The equipment of the joint roads now consist of 61 Locomotives, 78 Passenger Cars, 26 Bag gage Cars, 1,532 Freight Cars, 15 Snow Plows, sixty nine per cent. of which belong to this Corporation.

The Directors would again call special attention to the fact that the contract with the Nashua and Lowell Railroad Corporation, for the joint operation of the roads, expires by its own limitation in little more than two years. The relations of the two roads resulting of necessity from their location, their joint ownership of valuable properties essential to the interests of both Corporations, and the fact that they can be operated vastly cheaper together than separate, would all seem to render it of vital importance that a further agreement for union should be perfected upon equitable terms.

The freight traffic to and from Mystic Wharf the present year amounts to about 100 000 tons.

It would be impossible to transact this business at the old yards and docks with proper regard to either convenience or economy, and but for the facilities afforded by the Mystic Branch and Wharf, much of it must have been lost to the Corporation. The facilities now afforded are unsurpassed in Boston for a deep water terminus, and with a comparatively small expenditure can be enlarged to any required extent. The Mystic property already shows a very handsome return, and must ultimately prove of great advantage to the Corporation. The demurrage caused by delay in the forwarding of coal, of which much complaint has been made by our patrons in former years, has been almost entirely avoided.

The business upon the Lawrence Branch, which was constructed as a protection to existing interests, has gradually increased. The branch furnishes a very direct and efficient route between Lawrence and Boston. Its principal disadvantage consists in the want of terminal facilities at Lawrence. These are now furnished by the Boston and Maine Railroad under a contract which covers the conflicting interests of the two roads at Lowell and Lawrence. The facilities which the Boston and Maine Road are enabled to furnish us, are not, we think, sufficient for the public accommodation, or what the interests of this Corporation require, and we believe that ultimately, independent terminal facilities should be provided in the City of Lawrence.

The Assessors valuation the present year of the Real Estate of the Corporation outside of its location is as follows:

In Boston	$1,743,100
Cambridge	993,500
Somerville	89,500
Medford	21,150
Winchester	25,750
Woburn	50,000
Lowell	96,564
Other towns	9,400
Total	$3,978,964

The length of double track main road is 26.75 miles.

The length of Branches owned by this Corporation is as follows:

Mystic River R. R., single track	2.25 miles.
Lex'n & Arlin'n " "	9.25 "
Woburn Branch " "	5 "
Stoneham " " "	2.50 "
Lawrence " " "	3.21 "
	19,21 miles.

There are of side tracks 21.09 miles, making the entire length of single track (including sidings,) owned by the Corporation, 93.80 miles.

Both tracks upon the main line for a distance of about five miles from Boston, are now laid with steel rails.

On the 31st of March last Gen. George Stark, the Manager of the joint roads for a long period, resigned his position. Upon the acceptance of Gen. Stark's resignation, Mr. John B. Winslow, the former Superintendent, was appointed temporary Agent. Subsequently Mr. Hocum Hosford, long one of the Directors of the Corporation, was appointed Manager by the concurrent vote of the two Boards. Effectual endeavors have been made by the new Manager to enforce strict economy in all departments, which have been attended with encouraging success.

At the last annual meeting the Directors were authorized to issue $500,000 of Bonds, in addition to those before issued. These bonds, bearing 7 per cent. interest, have been sold at an aggregate premium of $26,000, and the entire proceeds have been applied or are held for application to the payment of the floating debt of the Corporation.

In order that advantage may be taken of the present ease of the money market, for the funding of the debt of the Corporation for a long term of years, we recommend that the Directors be authorized, in their discretion to issue not exceeding $750,000 of Bonds having not more than twenty five years to run, at a rate of interest not exceeding seven per cent. in currency or six per cent. in gold, to be disposed of at such time and on such terms, not less than par, as they may order, and that the proceeds be applied in liquidation of the existing debt.

The sinking fund now existing is amply sufficient to meet the Bonds which will fall due in 1879, and we think similar provision should be made for the payment of the other bonded indebtedness as it shall become due.

We would therefore recommend, that the Directors be authorized to set aside, in accordance with the long and successful usage of the Corporation, such a per cent. of the income as they may think expedient, as a sinking fund for the payment of the Bonds as they shall become due.

The following table of income and expense with the treasurer's balance sheet, shows the financial condition of the corporation:

INCOME.

Gross revenue from working the road and its connections	$1,153,849 12
Accumulation of interest upon the sinking funds	11,801 65
Contingent fund, amount transferred to balance accounts for the year	32,747 38
Contingent fund, amount taken to adjust old balances	118,868 24
Total income	$1,317,266 39

EXPENDITURES.

Expense of working the road and its connections	$939,224 55
Taxes and insurance	60,865 88
Rent account	78,466 73
Interest account	119,840 99
Adjustment of balances carried in joint account, viz:	
Repair shop	15,870 00
Repairs of road	13 800 00
Repairs of engines	11,040 00
Repairs of bridges	13,800 00
Repairs of gates, fences and houses	8,280 00
Taxes and insurance	15,000 00
Vermont Central Railroad, losses under contract on business of Ogdensburg and Lake Champlain Railroad and Northern Transportation Company	41,078 24
Total, as above	$1,317,266 39

Gen'l Manager.—HOCUM HOSFORD.

Superintendent.—WM. M. PARKER.

Treasurer.—C. E. A. BARTLETT.

Report of the Railroad Commissioners of Wisconsin.

The Railroad Commissioners of Wisconsin have just submitted to the State Legislature their annual report covering the operations of the Railroads of the State for the year 1875, together with an account of the Commissioners' proceedings under the law, and the results of their further inquiries into railway transportation and the proper relation of transportation companies to the Government of the State. They say:

One of the difficulties of enforcing the law of 1874, in respect to rates, grew out of the fact that, while the law required that in case of freight passing over two or more roads "the distance for carrying such freight shall be computed from where it is received"—evidently meaning from where it was first received—there was no provision requiring the companies owning the connecting lines to pro rate the charges. Because of this omission, several of the companies assumed that they severally received the freight coming from other lines at the connecting point, and on this bases computed the distance and made their charges. In this way it sometimes happened that a shipper was charged the high rate allowed for the first haul two or three times over, the aggregate sum being considerably larger than the sum of old rates paid before the passage of the law. This defect in the law of 1874 was remedied by the law of 1875, which provides that when freight so passes from one road to another "the amount received for such transportation shall be divided between the companies as the officers thereof may agree," and that where such agreement is found impracticable the terms of such division of receipts shall be settled by arbitration in the manner in said section prescribed. Notwithstanding this plain and specific provision of law, several instances of its violation were brought to the notice of your Commissioners in the early part of the last session, and it was not until after considerable time had been consumed by the necessary investigations, and by explanations of managers, negotiations between companies, correspondence, and personal interviews on the part of the Commissioners and the Attorney General with the attorneys and managers representing the corporations, that an agreement was finally concluded by and between the Chicago, Milwaukee and St. Paul and the Chicago and North-western Railway Companies. As to the other corporations the principal complaints on the score of a refusal to make continuous through rates were against the West Wisconsin Railroad Company. The difficulty here arose out of the claim made by the officers of that company, (1) that it was impossible for them to make the road pay its operating expenses with any lower rates than they were receiving in 1873, and (2) that the last Legislature evidently intended to grant them the relief they asked when they enacted the law making a new classification, and giving to their own and other B companies the privileges of C Companies under the provisions of the original "Potter law." With them, therefore, there was a serious obstacle in the way of pro rating with the companies operating connecting lines. On the other side, the Chicago, Milwaukee and St. Paul and the Chicago and North-western Companies excused themselves for noncompliance with the law as to division of earnings with the West Wisconsin Company on the ground that they were unable to get an agreement to pro rate on a just and equal basis. And so for a time each of the companies above named charged the local rates. At length, however, the Chicago, Milwaukee and St. Paul Railway Company gave orders to its agents to receive the legal through rates, and retain only the pro rata share of the earnings due to them under the law. But few complaints were made during the season on account of charges in excess of the legal rates by B companies. Indeed, of the Wisconsin Central no complaint has been made at all. And the complaints made by parties shipping on the West Wisconsin Railroad were confined to a very few persons. Early in the past season there were a few complaints of violations of the provisions of the section relating to receiving and forwarding freight at connecting points, without requiring cars to be unloaded. But on this point the several companies appear to have complied with the law on learning what its requirements were. Various complaints were filed against the Chicago, Milwaukee and St. Paul, the Chicago and North western, the West Wisconsin, and the Green Bay and Minnesota Companies, (only one or two against the company last named,) for demanding payment of charges in advance of final delivery, in violation of that portion of section 4 of chapter 334, Laws of 1875, which provides that "advanced payment of freights shall not be required as a condition precedent to carriage, except in case of perishable freight or articles of little value." Embarrassments were encountered in disposing of this class of complaints. They were easily settled when arrangements had been made for pro rating, and for some time past no complaints of this sort have been filed in this office.

Alabama State Debt.

Governor Houston, Levi W. Lawler and T. B. Bethea, commissioners to adjust and settle the debt of Alabama, made their report to the Legislature on the 24th inst. The debt of the State, in round numbers is given by them as follows: direct debt, $11,000,000, contingent, $19,000,000, total, $30,000,000. The assessed value of realty in the whole State is $160,000,000, and proportion of debt to real property one fifth. The proposition of the commissioners to the direct bondholders was accepted by holders of over $3,000,000, and it is believed that all others will do the same. The proposition to the holders of endorsed bonds was to take the roads and lands and deliver the bonds. Mr. M. W. Shagge, counsel for the foreign holders of bonds of the Alabama and Chattanooga Railroad Company accepted, subject to ratification by his clients; but the State issues them new thirty-year two per cent. bonds for $760,000 net. If carried out entire the State debt will be reduced to $10,000,000 or $12,000,000. It is also stated in connection with the above that Mr. John R. DosPassos, of New York, who has been in Montgomery for several weeks as counsel for a large number of the direct American bondholders, after making a thorough examination into the resources and financial condition of the State has accepted the proposition of the commissioners with a debt fixed at the above figures.

☞ In conformity with the ruling of Chief Justice Waite and United States District Judge Bond, the receivership of the Chesapeake and Ohio Railroad Company, held by Henry Tyson, terminated on the 20th inst., and Gen. W. C. Wickham took charge under an appointment as receiver by the Circuit Court of the City of Richmond. The company will carry out contracts made by Tyson as receiver.

☞ The directors of the Bleecker Street and Fulton Ferry Railroad Company, recently elected, are: David Jones, E. Beadleston, Thurlow Weed, G. W. Griffith, J. T. Conover, W. L. Charlow, T. B. Kerr, R. I. Brown, W. H. Murphy, R. H. Cudlipp, Sheridan Shook, J. Sharpe, and George Starr.

☞ It is expected that the first train on the Springfield, Jackson and Pomeroy Railroad will be run from Jackson to Waverly, Ohio, on the first of April.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

A star (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, January 29, 1876.

Financial and Commercial Affairs.

Through the past week, the January interest and dividend disbursements have been making themselves felt in the Money market. Supplies of funds, available to responsible borrowers, have been steadily gaining on the demand for accommodation. Though the dealings at the Stock and Gold Boards have been fairly active, the inquiry from operators for financial aid has been much less urgent, and has been quite readily met, at drooping rates,—call loans having been quoted at from 3@6 per cent. per annum,—the lower figure to the prominent dealers in Government Securities. Commercial affairs have been indicative of a somewhat livelier movement in produce and merchandise, yet the discount market has been comparatively quiet, with rates favoring borrowers, in recognized good standing, the range having been from 5@8 per cent. per annum on the best to very good mercantile credits. The City bank movements of the week have been in the direction of increased strength in the reserves, the percentage of which to liabilities is now 31.81, against 31.41 on the preceding weekly exhibit; 30.11 two weeks ago, and 29.46 at the close of 1875. The U. S. Sub Treasury has also been gaining in its coin and currency balances. The coin balances have been benefitted by the more liberal customs revenue of the port. The City Banks have had their deposits augmented $1,265,700; and their legal tender reserve $1,805,-. The specie average has been reduced $535,900. The loan and discount item was contracted $845,-.

200. The circulation was diminished $623,600. The U. S. Sub Treasury in this city closed the week with a currency balance of $36,855,323, against $36,167,614 the preceding week; and a coin hoard of $46,044,217, against $44,626,551 on the previous return. The City bank exchanges in currency reached $449,484,690, or a daily average of $74,914,115. The customs revenue of the port, during the week was $2,072,000. The City banks reported their average of gold last week at $22,773,200, and their greenback average at $46,367,900. Their deposits stood at $217,324,200. The loan item was $260,806,900. The circulation was $17,892,000.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $14,810,050.

The aggregate of the outstanding U. S. currency, of all denominations, January 1st was $416,040,934. The outstanding amount of legal tender notes is $371,827,220. The National bank circulation is now $343,253,577, including $2,100,350 of national gold bank notes.

The specie shipments from San Francisco, January 1 to Jan. 13th, were $1,029,743, against $695,435 same time in 1875.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $9,000,000; special deposit of legal tenders for the redemption of certificates of deposit, $43,940,000; Coin, $73,500,000; Coin certificates, $34,500,000.

The week's import entries of Foreign Merchandise at New York were $5,876,576, including $2,056,275 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 65½ millions; and from Customs, 85½ millions.

A strong market has been reported for Gold, with a fairly active inquiry from speculative sources, and an increased demand for coin for the payment of customs duties, and a moderate export call. The speculative movement has been aided by the varying reports from Washington relative to the Cuban question. The extremes of the price during the week have been 112¾@118⅛, closing on Wednesday at 113 as against 112¾, on Wednesday of the preceding week. The specie outflow last week was $485,901 against $375,979 the previous week. The imports of specie at this port last week were $22,890, and since January 1, $109,361, as against $114,144 same time last year. The customs demand for gold last week averaged $345,384 per day. Foreign Exchange has been in moderately active request, and with comparatively limited offerings of bills, has been quoted firmer. Bankers' sixty day bills on London closed on Wednesday at $4 85 @$4 85½; sight bills on London at $4 89@ $4 89½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,610,726. The week's imports of Dry Goods and general merchandise were to the specie value of $5,876,576 as against $6,079,848 the corresponding week of 1875.

Government Securities have been in active demand all through the week, at advancing prices. The investment purchases have been on a liberal scale. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $362,108,062.

U. S sixes of 1881 closed on Wednesday of this week at 122⅜@122⅝; U. S. Five-Twenties of 1864, at 114½@114¾; U. S. Five-Twenties of 1865, 118@118⅛; U. S. Five-Twenties of 1865, consolidated, 119½@119¾; U. S. Five-Twenties of 1867, 122@122⅛; U. S. Five-Twenties of 1868, 122¾@123; U. S. Ten-forties at 119⅝ @119⅞; U. S. Fives of 1881, (Funding Loan) 118⅛@118⅜; Six per cent. currency Sixes, 124⅞ @125⅛.

State and Railway bonds have been moderately active, and have been quoted generally firmer in price. And in the line of Railway and Miscellaneous share property, business has shown less animation with values varying frequently, mainly through speculative manipulations, closing about steady.

General business has been on a more liberal scale in Produce and Merchandise, notably so in the leading kinds of Domestic produce, in good part for export, at, however, somewhat irregular prices, closing weaker for Breadstuffs; stronger for Provisions, and Petroleum; and about steady for Cotton. The Metal trade has been very quiet, as a rule. Eglinton Pig Iron quoted here at $29 50@$30; Glengarnock $31@$32; Coltness $33; No. 1 American Pig at $23@$24; No. 2 do. at $21@$22; Forge, $16@$20; English Rails (in bond) $35@$36 gold; American Rails at works, $45@$48; Old Rails $20@$22. Wrought Scrap, $30. Ocean freights have been fairly active, and at the close quoted steadier for Flour, Grain, Provisions and Petroleum. Rates on Cotton depressed.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Charlottesville and Rapidan Railroad.

A bill has been introduced in the Virginia House of Delegates to incorporate the Charlottesville and Rapidan Railroad Company, to run from Charlottesville or some point near that town, on the Washington City, Virginia Midland and Great Southern Railroad to Orange Court House, or some point between that village and Rapidan river. The object of the promoters of this bill is to complete the line of the road formerly known as the Orange and Alexandria Railroad, which, never having had a track from Gordonsville to Charlottesville, has been using at considerable expense the track of the Chesapeake and Ohio Railroad between those points. It is also intended to save four miles of road by branching off at Orange Court House and by running west of the Southwest mountain. The charter provides that the company may lease its road or any part of it to any railroad company chartered by the State.

☞ At the annual meeting of the Worcester and Nashua Railroad Company, held in Worcester, Mass., on the 20th inst., it was voted to accept an act of the New Hampshire Legislature authorizing the corporation to hold or have held bonds of the Nashua and Rochester Railroad. The following were elected Directors: Francis H. Kinnicutt, Stephen Salisbury, Jacob Fisher, Thomas Chase, Francis H. Dewey, Calvin B. Hill, J. Edwin Smith, Isaac Davis and Charles H. Waters. At a subsequent meeting of the directors F. H. Kinnicutt, of Worcester, was re-elected president, and T. W. Hammond, clerk.

☞ The Sacramento *Record-Union* says it is reported that the survey so far made by the expedition under Colonel Lauteran, in the employ of the Central Pacific Company, from Winnemucca (Nevada) westward, will strike the contemplated line of the road from Roseburg south into California at about the Klamath Lakes. This line of survey will bring the Winnemucca road through Surprise valley and into the Pitt and St. Cloud river country.

☞ The stockholders of the Ninth Avenue Railroad Company have elected the following board of directors: George Law, George Law, Jr., Wm. H. Hays, Paul N. Spofford, Stephen H. Herriman, Augustus F. Smith, Chauncey A. Waterbury, G. Granville Wright, James Affick, Wm. Ravesteyn, Edward St. J. Hayes, Thomas H. Towar and Henry Sherman.

☞ It is proposed to build a short local road from York, Pa., westward through Weigelstown to Dover, about eight miles. Committees are now soliciting subscriptions and making arrangements to organize a company.

☞ The construction train of the Nevada County (Colfax and Nevada) Narrow Gauge Railroad reached Grass Valley on the 17th inst.

☞ A narrow gauge railway from Cincinnati to Batavia, Clermont County, Ohio, is proposed.

☞ The Scioto Valley Railroad was to have been completed as far as Ashville, Ohio, this week,

TIME LOANS NEGOTIATED.

Refers by permission to Messrs. M. K. Jesup, Paton & Co., New York; Messrs. Soutter & Co., New York; Jos. S. Norris, Esq., President First National Bank, Baltimore; Robert Mickle, Esq., Cashier Union National Bank, Baltimore.

NEW JERSEY MIDLAND RAILWAY.—MORE than $1,700,000 of bonds surrendered under the Balestier plan of reorganization; time extended to February 1. The success of the plan being assured, all other holders should surrender their bonds at the Central Trust Co., 14 Nassau st., in order that a prompt foreclosure may be had.

H. P. DECHERT, Secretary,
Office No. 138 Chambers street, room No. 10.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, Dec. 15, 1875.

A DIVIDEND OF FOUR PER CENT. HAS been declared by this company, payable on the 1st day of February next to the holders of full-paid shares registered at the close of the 15th day of January next, after which and until the 5th day of February the transfer books will be closed.

L. V. F. RANDOLPH, Treasurer.

Finances of Wisconsin.

The gross receipts by the Treasurer during the year (including $378,344 98 from the previous year) were $2,129,151 46, and the disbursements $1,851,470 02, leaving a balance in the Treasury September 30, 1875, of $227,681 44.

On the 30th of September, 1875, the State debt, for which bonds and certificates of indebtedness have been issued, was $2,252,057, as follows:

State bonds outstanding	$14,000 00
To the school fund	1,559,700 00
To university fund	111,000 00
To agricultural college	51,000 00
To normal school	515,700 00
Currency certificates	57 00
	$2,252,057 00

The receipts of the general fund during the year ending September 30, 1875, (including $125,531 30 from the previous year) were $1,262,014 97, and the disbursements $1,260,168 39, leaving a balance of $1,846 58.

The trust funds held by the State at the close of the year amounted to $4,058,993 68, divided among the several funds as follows:

School fund	$2,624,239 55
University fund	222,255 89
Agricultural college fund	236,133 90
Normal school fund	976,364 34
	$4,058,993 68

☞ Mr. Plumb's railroad charter for a line to connect Mexico with the United States has been extended, owing to the present difficulty in obtaining capital.

☞ Work on the Miami Valley narrow gauge railway, from Cincinnati to Xenia, Greene County, Ohio, will begin early in the spring.

Portland and Ogdensburg Railroad.

At the annual meeting of the Portland and Ogdensburg Railroad Company, held in Portland, Me., on the 18th inst., the terms of contract between the roads were made public. The Portland and Ogdensburg, the Essex County, the Montpelier and St. Johnsbury, the Lamoille Valley and the Lamoille Valley Junction Companies have previously agreed to issue joint bonds to the amount of $40,000 per mile on the whole line; and agree to commit the arrangement of the entire line to eleven managers; the Portland and Ogdensburg to elect six, the Essex County one, Montpelier and St. Johnsbury one, Lamoille Valley two, and the Montreal, Chambly and Sorel Railroad of Canada one. The earnings are to be equitably divided. The Montreal, Chambly and Sorel lease, as well as the contract with the Eastern Railroad, are to be faithfully carried out. The old board of officers were re-elected.

Commerce of New York.

We give below, from the *New York Journal of Commerce*, a statement of the Commerce of New York, for 1875, in comparison with that for the five preceding years. The following is a comparative table showing the relative totals imported at New York in each year since 1850:

Year.	Dutiable.	Free Goods.	Specie.	Total.
1851.	$119,592,264	$9,719,771	$2,049,543	$131,361,578
1852.	115,336,052	12,105,342	2,408,225	129,849,619
1853.	179,512,412	12,156,387	2,429,083	194,097,652
1854.	163,494,984	15,768,916	2,107,572	181,371,472
1855.	142,900,661	14,103,946	855,631	157,860,238
1856.	193,839,646	17,902,578	1,814,425	213,556,649
1857.	196,279,362	21,440,794	12,898,033	230,618,129
1858.	128,578,256	22,024,691	2,264,120	152,867,067
1859.	213,640,363	28,708,732	2,816,421	245,165,516
1860.	201,401,683	28,006,447	8,852,330	238,260,460
1861.	95,326,459	30,353,918	37,088,413	162,768,790
1862.	149,970,415	23,291,625	1,390,277	174,652,317
1863.	174,521,766	11,567,000	1,525,811	187,614,577
1864.	204,128,236	11,731,902	2,265,622	218,125,760
1865.	212,208,301	10,410,837	2,123,281	224,742,419
1866.	284,033,567	13,001,588	9,578,029	306,613,184
1867.	238,297,955	11,044,181	3,306,339	252,648,475
1868.	232,344,418	11,764,027	7,085,389	251,193,834
1869.	275,779,976	14,789,235	15,788,462	306,357,673
1870.	289,618,878	13,716,500	11,864,644	315,200,022
1871.	349,635,398	28,878,294	6,348,608	384,862,300
1872.	369,083,458	57,429,020	5,594,208	432,106,686
1873.	293,035,348	86,924,877	18,605,611	398,565,836
1874.	278,677,532	108,598,631	6,407,571	393,683,734
1875.	235,398,509	91,791,853	13,438,557	340,628,919

Under the head of dutiable, in the above table, are included the goods entered directly for consumption which are subjected to duty, and also those entered in bond for warehousing. These, with the free goods and the specie, make the total landed at the port. Including the specie, the imports for 1875 are $53,054,815 below the total for 1874; but deducting the specie in both years, the falling off in merchandise imports for the twelve months amounts to $60,085,801—a decline of more than one million per week.

The following table will show the classification of imports at New York for the years—

	1873.	1874.	1875.
Dry goods.	$114,160,465	$106,520,453	$99,816,025
Gen. mdse	265,799,760	280,755,710	227,374,337
Specie ...	18,605,611	6,407,571	13,438,557
Total.....	$398,565,836	$393,683,734	$340,628,919

The following is a quarterly statement of the exports from New York to foreign ports, exclusive of specie, for the years named:

Quarter.	1873.	1874.	1875.
1st.....	$63,171,761	$67,090,467	$56,985,550
2d.....	76,316,120	76,341,142	64,532,018
3d.....	75,764,054	72,729,951	64,163,912
4th	84,993,470	67,778,573	70,780,688
Total	$300,245,405	$283,940,133	$256,462,168

Foreign imports entered at New York during the years 1870, 1871, 1872, 1873, 1874 and 1875:

Railroads of Wisconsin.

EXTRACT FROM THE MESSAGE OF THE GOVERNOR.

The present condition of the Railway interests in the State, and the existing laws affecting that system, are earnestly recommended to the consideration of the Legislature. With the exception of the line from Portage to Stevens Point (a portion of the line to aid which the State received a land grant), which is now in process of construction, no Railways are being built within the limits of the State. While the central and eastern portions of the State are well supplied with these facilities, the southwestern and northern portions are almost wholly without them. None of the companies owning or operating lines within the State have paid dividends to their stockholders for the past two years. The line from Milwaukee to Manitowoc, and thence to Appleton, has recently been sold under judicial proceedings growing out of a failure to pay interest on their first mortgage bonds, the citizens and municipal corporations of the state who had contributed largely to its construction, losing their investment.

With the exception of the Chicago, Milwaukee and St. Paul, the Chicago and Northwestern the Mineral Point and the Western Union Railroads, none of the companies have paid interest on their bonds during the past year, and during the year the existing laws restricting the companies in the amounts they shall charge and receive in compensation for services rendered, have been enforced. The power of the legislature to make and enforce these restrictions has been distinctly affirmed by the Supreme Court. Their decision is now under revision by the Supreme Court of the United States, and, it is believed that the decision of our Supreme Court will be affirmed. It will be admitted by all that this power is one of vital importance, requiring for its exercise great care and judgment.

It cannot be denied that the existing laws, passed in the exercise of this power, have, either justly or unjustly, impaired the credit of the State and of its individual citizens in the commercial and financial centers of the world. With immense resources undeveloped and a consequent need of capital from sources where it is in excess, the people find capital repelled by legislation which would seem to be so far in conflict with the rights of capital as to put the best interests of the people themselves at hazard.

That such legislation should have excited unfavorable comment is not strange. That capital has been invested in the building of railroads; that they are in daily use in the service of the people; that such use pays nothing to its owners; that the owners are compelled by law to permit such use, and are deprived by law of the right to say what they shall receive for it, are facts patent to all observers. It must not be forgotten, on the other hand; that it has been persistently charged that before this legislation was had, the companies were extortionate in their charges, unjust in their discriminations, and arbitrary and oppressive in the exercise of their chartered powers; that the true interests of the people are promoted by these statutes, and that their continued existence is indispensable to the protection of their rights.

Can there be found a medium in legislation which shall fully protect the rights and interests of the people, and at the same time be just to capital? I believe that such may be found, and its importance will justify the earnest efforts of both the legislature and executive.

Certain fundamental principles must be kept constantly in view in preparing such legislation:

1. The rights of the people against corporations, as against all others, must be protected by efficient laws. No extortion no unjust discriminations, no arbitrary acts of oppression must be permitted. The remedy for such acts must be speedy, and the punishment sure.

2. It must also be remembered that such corporations are indispensable to the material prosperity of the State. It is not desirable that these

great properties should be owned by the State. They are too large to be owned by single individuals. That corporations should continue to own and manage them seems a necessity. They must have the same protection from the laws that other citizens have.

The State cannot afford to be unjust to any interest. Capital invested in railways must be equally protected with capital invested in any other legitimate business enterprise. While the State will not guarantee any return upon capital invested in any business, it should not, by legislation, so restrict its employment, or so limit its compensation, as to deprive it of the opportunity of earning a legitimate return upon the capital really invested.

With these principles in view, I respectfully recommend that the existing laws by which rates are regulated, known as chapter 237 of the laws of 1874, and chapter 334 of the laws of 1875, be repealed; that there be substituted for them carefully prepared provisions of law by which all unjust discriminations between either persons or localities, and all acts of oppression or wrong be prohibited, and ample provisions made for the prosecution and punishment of offenders as for crimes against the State; that extortionate rates be prevented by the establishment of maximum rates for the transportation of persons and property, not greater than those fixed by the companies when they made their own tariffs, and which may be presumed to be sufficient to enable them to earn a fair return upon capital actually and in good faith invested in them; that with that limitation the companies be free to establish their own rates; that provisions be made for continued supervisory control over these corporations, similar in general terms to those which have been found satisfactory in Massachusetts and Minnesota; that annual reports be required from officers appointed by the State under official sanction, containing full information of all matters affecting the public interests, so that if at any time in the future a further and more stringent exercise of this reserved power should be necessary to prevent wrongs on the part of those corporations, all facts necessary to a full understanding of the subject will be accessible to the legislature and the people.

In determining how the agency shall be constituted through which the State shall exercise its control over railroads, as in all other matters, economy is an object that should be kept steadily in view, and it is worthy of your consideration how this may be efficiently and vigorously performed, with the least expense to the people of the State.

☞ A company has been formed in London, England, for the purpose of constructing railways in China, where at the present time there are none. The first experiment will consist of a line nine and a half miles long, between Shanghai and Woosung. Contracts for its construction have been made and part of the material is on the ground. The guage will be two feet six inches. It is confidently expected that the experiment will prove a success, as the novelty of rapid transit alone will draw a large amount of passenger traffic. The line projected will probably be in running order by July next.

☞ At a meeting of the stockholders of the New Orleans, St. Louis and Chicago Railroad Company, held in this city on the 25th inst., a resolution was passed authorizing the Board of Directors to issue preferred stock to cancel the income and equipment bonds of the Mississippi Central Railroad and to pay the floating debt of the company. Another resolution was passed authorizing the issue of $3,000,000 of additional bonds for the better equipment of the road.

☞ The annual report of the president of the Cumberland Valley (Pa.) Railroad Company shows that the gross earnings of the road for 1875 were $526,076 14, and total operating expenses, $265,481 34, leaving $260,594 80 of net earnings. The total decrease in earnings as compared with the previous year was $77,233 91, and the total decrease in expenses $8,799 53, making a decrease in net earnings of $68,454 38. The company has no floating debt, pays five per cent. dividends semi-annually, and closed the fiscal year with $170,862 72 surplus cash its treasury.

☞ It is now proposed to construct a new street railway in Washington to run from the corner of Louisiana avenue and Seventh street by Sixth, G and Fifth street to the Soldier's Home and Glenwood Cemetery.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

The Coal Trade.

The Philadelphia *Ledger* says that the quantity of coal sent from all the regions, for the week ending the 15th inst., from which we have report, is 212,989 tons anthracite, against 118,837 tons for the corresponding period of last year, showing a decrease of 94,152 tons. The total amount of anthracite sent for the year is 1,018,885 tons against 960,124 for same period last year, an increase of 88,761 tons. The quantity of bituminous coal sent to market for the week was 28,037 tons, against 21,180 tons for corresponding week last year, an increase of 6,857 tons. The whole bituminous tonnage from the beginning of the coal year to the 15th inst., is 96,870 tons, against 68,490 tons in corresponding time last year, an increase of 28,380 tons. At Port Richmond for the week ending on the 22d inst., there were receipts of 4,000 tons of coal and shipments of 4,000 tons, leaving 136,000 tons on hand. The return of the quantity of coke and coal transported over the Pennsylvania Railroad for the last nine days in December shows a total of 111,102 tons, 88,145 tons of which was coal and 22,957 coke, the total for the year footing 4 381,471 tons, of which 3,595,552 was coal and and 697,725 coke. This embraces all the coal carried over the road east and west. The receipts of coal at Perth Amboy for the week ending on the 15th instant were 9,271 tons; total received during the season, 80,054 tons; shipments for the week, 5,760 tons; total shipments for the season 43,000 tons; leaving on hand 89,656 tons.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, February 5, 1876.

Census of New York.

A small pamphlet has recently been issued by the State Government, showing comparatively the results of the State Censuses taken in 1845, 1855, 1865 and 1875. It refers to population alone. In the year 1875 the total foots up to 4,705,208, of which number 2,277,859 were living in the twenty-four cities of the State and 2,427,349 in the rural districts. The number of voters was found to be 1,138,330, of whom 743,682 were native-born and 395,248 foreign-born.

The urban and rural populations, under the four censuses contained in the pamphlet, compare as follows:

	Urban.	Rural.	Total.
1845.....	622,585	1,981,910	2,604,495
1855.....	1,190,188	2,274,930	3,466,118
1865.....	1,464,473	2,367,278	3,831,751
1875.....	2,277,859	2,427,349	4,705,208

From this it appears that the urban population is rapidly increasing in proportions, or in other words our cities are growing more vigorously than the country parts. In 1845 the proportion of the urban to the total population was 23.9 per cent; in 1855, 34.3 per cent; in 1865, 38.2 per cent, and in 1875, 48.4 per cent. Thus in thirty years the proportion of urban population has more than doubled. The reason of this is obvious. The immigrant farmers that have entered our great port, New York City, by hundreds of thousands during the period covered by these figures, have passed westward, attracted by the cheap and fertile lands beyond our borders, while the cities of the State of New York prosper as their business agencies and factors, or collectors and distributors of the commercial materials produced or consumed by them. All these cities are located on the lines of commerce on the edges or through the interior of the State, and almost wholly on the great lakes and rivers. And all have the benefit more or less of the magnificent system of canals and railroads which intersect the State, and converge towards the great seaboard city at the mouth of the Hudson.

The distribution of the population by counties n 1875 was as follows:

Albany.....	147,530	Oneida	113,967
Allegheny.....	41,721	Onondaga	113,223
Broome.....	47,913	Ontario	47,730
Cattaraugus.....	48,477	Orange.....	85,252
Cayuga.....	61,213	Orleans.....	29,977
Chautauqua.....	64,869	Oswego	78,615
Chemung.....	41,879	Otsego.....	49,815
Chenango	39,937	Putnam.....	15,811
Clinton.....	49,761	Queens.....	84,131
Columbia.....	47,756	Rensselaer.....	105,053
Cortland	24,500	Richmond.....	35,241
Delaware	42,149	Rockland	26,951
Dutchess.....	76,055	St. Lawrence...	84,124
Erie	199,570	Saratoga.....	55,233
Essex	34,474	Schenectady ...	22,892
Franklin	31,581	Schoharie.....	32,419
Fulton	30,188	Schuyler	18,928
Genesee	32,551	Seneca	27,299
Greene	32,544	Steuben	73,923
Hamilton	3,482	Suffolk.....	52,088
Herkimer.....	41,692	Sullivan	34,935
Jefferson	65,362	Tioga.....	31,744
Kings	509,216	Tompkins.....	32,915
Lewis	29,286	Ulster.....	88,271
Livingston	38,564	Warren	23,295
Madison	42,490	Washington....	48,167
Monroe.....	134,534	Wayne	49,882
Montgomery ...	35,200	Westchester ...	100,660
New York.....	1,046,037	Wyoming	30,595
Niagara.....	51,904	Yates.....	19,686

The southern part of Westchester, containing 36,006 inhabitants, was annexed to New York January 1, 1874; otherwise the population of Westchester would have been in 1875 186,666, and the population of New York 1,010,031 instead of 1,046,037.

Below we give the city population as found under the four last State enumerations. From the record it appears that between 1865 and 1875 nine places received city charters; between 1855 and 1865 only two, and between 1845 and 1855 only three. All the others were incorporated as cities prior to 1845.

Hudson Suspension Bridge and New England Railway.

The Boston *Journal* publishes the following dispatch dated New York, Feb. 1, 1876:

The Hudson Suspension Bridge and New England Railway Company is negotiating with contractors for grading the road from Turner's, on the Erie Railway, to some point south of Lake Mahapac, on the New York, Boston and Montreal Road, a distance of 26 miles, and also for building a suspension bridge across the river at Peekskill. The elevation of the bridge will be 165 feet above high water mark, and the span will be 1600 feet.

A bridge company of Philadelphia will erect the superstructure of the bridge. It is estimated that the entire cost will be $3,000,000. Mr. Pusey, the President of the company, stated to a reporter that he expected to sail for England on Saturday,

February 5, to complete negotiations with English capitalists who have offered to accept the securities of the company and advance the money necessary to carry on the work.

Philadelphia, Wilmington and Baltimore Railroad.

The earnings of this road for the years ending October 31, 1874 and 1875, were as follows:

	1874.	1875.
From passengers	$1,747,053 16	$1,724,402 77
" freight and exp.	1,011,108 67	1,120,943 02

The gross receipts, compared with those of 1874, show an increase of $104,475 88, or about 3½ per cent, and the operating expenses, taxes included, show an increase over those of 1874 by $28,861 50, or about 1.6 per cent. The passenger receipts were less than those of 1874 by $24,037 88, and the increased receipts from other sources were $128,513 71. The report says:

The freight derived from the peninsula of Delaware and Maryland, in the form of fruit and other perishable commodities, was very much larger than that of any preceding year. The quantity of peaches alone, moved by this company, amounted to 9,077 car loads, or 4,538,611 baskets, or about 72,000 tons, while of other perishable freight we moved 12,282 tons, of which 7,314 tons were berries alone.

The strawberry crop, which prior to 1871 never exceeded five car loads per day, in 1875, at times, amounted to over 720 tons per day, requiring more than ninety cars to move it.

The annual and large increase in the area of land devoted to fruit culture near our road and its feeders, while promising well for the future, proves the correctness of our course for the past, in moving fertilizers to the peninsula at about cost, and in transporting perishable produce to market with great dispatch and care, and at the same time at rates low enough to encourage the producer.

The peach crop, being so much larger than any former one, was evidently too large for the markets which hitherto took the whole of it, and for the first time portions of it were successfully placed, without change of cars, in Boston and other eastern cities, as well as in Buffalo, Chicago, Cincinnati and other cities, both east and west of the Ohio.

The practicability of transporting fruit to distant markets successfully being now established, the risk of over production, hitherto threatening producers, and consequently our own business, is much lessened.

The earnings of the road from business other than local, were much reduced by the sharp competition carried on between the Trunk Lines during much of the year, and the importance of fostering the local traffic of our own road and its immediate feeders, to which your board has for many years been keenly alive, was never before more plainly manifested.

The work of rebuilding the Susquehanna Bridge in iron has been prosecuted as rapidly as was deemed necessary by our consulting and resident engineers. Six spans, or one-half of the whole, exclusive of the draw, have already been renewed, and the remaining spans will be changed from wood to iron as circumstances may require.

Iron bridges have been substituted for wooden ones at Trainer's and at Staunton. At the latter place, a first-class double track iron bridge has taken the place of the old wooden single track bridge. The iron bridge required for separation of the railroad grade from that of the streets at Chester, has been completed.

In accordance with the practice of previous years, the cost of the above work, and some other outlay for construction or extraordinary repairs, was charged to the renewal fund, set aside for the purpose from the earnings of 1874, viz:

Charged to renewal fund in 1875:	
For outlay at Susquehanna Bridge	$93,717 48
For outlay at Canal bridge break on Delaware Railroad	3,629 00
For outlay on new coal shed at Gray's Ferry	6,749 67
For outlay on new engine house at Wilmington	1,539 53
For outlay on stations	7,000 00
For cost of new bridge at Chester (to complete)	3,878 40
For cost of new bridge at N. Christiana (to complete)	36,021 12
For cost of new bridge at Trainer's station	5,826 51
	$158,361 71

At the beginning of the year there stood to the credit of this fund the sum of	$161,077 93
Expended and charged to this fund in 1875, as above	158,361 71
Balance October 31st, 1875	$2,716 22

In view of similar work to be done in 1876 of a character not properly chargeable to the current operating expenses of the road, there has been reserved from the net earnings of 1875, the sum of $175,000, which has been added to the renewal fund, which now amounts to $177,716 22.

The locomotive and car equipment has been kept good at least, so far as respects depreciation, by expending upwards of $35,000 for new locomotives to replace old ones, and over $8,000 upon passenger cars, now in process of construction, and by the addition of seventy-eight freight cars to our stock, at a cost of $67,549. Some new passenger cars, and many new freight cars, have also been built to replace others which were worn out.

The road repairs were less than those of 1874 by $145,000, or over forty per cent. This reduction was in no way due to the neglect of any necessary work, for we believe that the track was never kept in better order before, but it followed naturally upon the substitution of steel rails for iron, which has been carried so far, that a moderate expenditure for the ensuing three years, will leave the main tracks wholly of steel or steel-top rails; and other things equal, we expect to keep the cost of our road repairs henceforth down to that of 1875 at least.

The outlay for fuel was less than in 1874, by nearly $17,000, and proportionately very much less in view of the train miles run.

The cost per mile run being in 1874.. 10.158 cents.
" " " " 1875.. 9.255 "

The persistent efforts made by this company to obtain remuneration for cost of moving the mails, have met with partial success. The rate at which we have been paid for mail service since July, 1874, is larger by over forty per cent, or by nearly $20,000 per annum, than it would have been under the laws governing rates prior to 1873. And your managers are encouraged in a belief, growing out of the increased and business like attention now given by the Post Office Department to the question of transportation of the mails by railroad companies, that ere long this company will be in receipt of pay commensurate with mail service performed.

It seemed to your board expedient to purchase the New Castle and Wilmington Railroad, which connects your road at Delaware Junction with the New Castle and Frenchtown Railroad at New Castle, distant a little more than six miles therefrom. This road since its construction had been worked by this company under a lease, at an annual rental of seven per cent upon $150,000, for which price the lease secured us the refusal of the purchase. The purchase was consummated in May last, and, with the exception of a few shares, this company now owns all of the stock of the New Castle and Wilmington Railroad Company, the New Castle and Frenchtown Railroad Company, and the Southwark Railroad Company.

It was also deemed judicious, in view of the prospective increase of passenger traffic to result from the Centennial Exposition in Philadelphia, in 1876, and also in consideration of the low prices of steel and labor in 1875, to complete that portion of the second track upon which work was suspended at the time of the sudden and large diminution of our business in 1866. This work was finished in August last, including the widening of the long bridges over the Bush and Gunpowder rivers. The whole was executed in the most thorough manner, and the good effects are already felt in the greater regularity of our train service.

To provide for the purchase alluded to, as well as for the completion of the second track and bridges, and for the payment of $400,000 bonds of this company, falling due April 1st, 1876, your

board, in November, 1874, authorized the issue of $200,000 six per cent bonds, payable in 1892, and in 1875 they authorized the issue of $800,000 six per cent bonds, payable in 1900. This last issue was offered until October 1st, 1875, at par, in exchange for the bonds falling due April 1st, 1876, and were so exchanged to the amount of $239,000. The residue have been sold, for present or future delivery, at an average price of a little above par.

In conclusion, your directors think it a cause for congratulation that notwithstanding the general depression of business in 1874-'5, that of your road has still been sufficient to pay the usual dividends, to substitute steel for iron in repairs of track, and to add sufficiently to the rolling stock to fully offset possible depreciation, while adding $175,000 to the renewal fund, to meet so far certain extraordinary outlays, such as replacing, extensively, wooden bridges by iron ones, anticipated in the current year. And from their own observation, they feel justified in reporting your road and its appurtenances in as good order as they ever have been, and its financial condition a sound one—a view apparently shared in by the public, inasmuch as the stock of the company was never sold at so high a price on a gold basis, since the road was built, as it now commands.

The company have 72 locomotives. The number of miles run by engines over the Philadelphia, Wilmington and Baltimore Railroad, including service on Port Deposit Branch, was 1,473,716. Miles run on Delaware Division, between Wilmington and Delmar, 367,338.

The car equipment consists of 20 twelve wheel passenger, 1 twelve wheel baggage car, 1 twelve wheel postal car, and 4 twelve wheel smoking and baggage cars; 75 eight wheel passenger, 17 baggage, 4 chair, 12 smoking and baggage, 7 baggage and mail, 13 express, 1 postal, 3 milk, 1 pay, 711 house, 73 stock, 340 platform, 85 dump, 80 lumber truck, 50 lime, and 17 tool, construction, etc., cars.

The receipts for the year, as condensed from the Treasurer's Balance Sheet, are as follows: P., W. & B. R. R., $2,849,553 60; N. C. & W. R. R, $103,992 97; N. C. & F. R. R., $92,624 51; gain on Delaware R. R., $5,951 71—total, $3,052,122 79. Expenses: P., W. & B. R. R., $1,585,853 63; N. C. & W. R. R., $72,795 08; N. C. & F. R. R., $64,837 15; taxes, $82,381 63—total, $1,805,867 49. Net earnings, $1,246,255 30. Less interest, etc., $141,490 37; dividends, $922,420; placed to renewal fund, $175,000—leaving to credit of revenue for the year the sum of $7,344 93.

President.—ISAAC HINCKLEY.

Vice President.—ENOCH PRATT.

Directors.—Isaac Hinckley, Samuel M. Felton, William Sellers, Samuel Welsh, Joseph Bringhurst, Samuel Harlan, Jr., Charles Warner, Thomas Kelso, Enoch Pratt, Thomas Donaldson, Thomas Whitridge, Samuel M. Shoemaker, Jacob Tome, Nathaniel Thayer, Charles P. Bowditch.

Secretary and Treasurer.—ALFRED HORNER.

Philadelphia and Reading Railroad.

From the Report of J. E. Wootten, Esq., Superintendent, we learn that the total length of track, sidings, etc., owned by the company is 772 miles, of which 171 miles are single track, 155 double track, and 290 sidings: in addition to which the roads leased aggregate 707 miles of track, and the roads controlled, 74 miles—making a total of 1,554 miles, an increase of 102 miles over the previous year.

The company own 410 locomotives, of which 357 are first class, 45 second class, 2 third class, and 6 fourth class. Of the 410 locomotives, 365 are in daily use, 28 are in the shops, 6 are ready for use, and 11 are out of service to be rebuilt. One locomotive, now under repairs, has run a total distance of 501,860 miles since August, 1857, another 475 613 miles since May, 1857, and another 450,477 miles since June, 1857. All the locomotives together ran 7,690,534 miles, and pulled 1,437,233,893 tons at least one mile, including weight of cars. From May, 1838, to Nov. 30, 1870, all the locomotives ran 99,616,438 miles, and pulled 22,401,852,272 tons.

To transport an average load of 550 tons of coal of 2,240 pounds each from the coal regions to tide water and taking back the empty cars costs $169 58, or about 30 cents per ton, as follows: Engineer 2 days at $3 20 per day, fireman $2 20, conductor $2 20, brakeman $2 07, coal for engines, oil, grease, wear and tear, and other expenses. Ten tons of coal are allowed.

A passenger trip of 93 miles costs $40 95, as follows: Engineer $3 06, firemen $1 95, conductor $2 95, baggage master $2, brakemen (2 days) $3 70, coal 2¼ tons, 4000 gallons of water at 7 cents per thousand, oil, tallow, other hands, &c., &c.

A daily trip of a freight train, 93 miles, carrying a load of 85 tons of 2000 pounds each, costs $51 28. Engineer (1 day) $3 15, fireman $2, conductor $2 15, brakemen (3 days) $6 30, 3¼ tons of coal, extra hands, signalmen, repairs, wear and tear, &c., or about 60 cents per ton average through.

The company own 3 eight wheel iron coal cars, 7,762 wooden coal cars, 1,176 four wheeled iron coal cars, 5,434 four wheeled wooden cars, in all 14,975, equivalent to 22,740 four wheeled cars.

In freight cars they own 1 sixteen wheel gun car, 1,125 eight wheel house cars, 114 eight wheel cattle cars, 2,061 gondolas, 221 lime cars, 28 four wheel house cars, 26 four wheel gondolas, 21 four wheel sand and ore cars, 253 four wheel lime cars, in all 3,850 cars.

In passenger cars they own 251 eight wheelers, 44 baggage and 15 mail and baggage, total 310.

There are 58 stationary engines, 20 snow plows, 38 carts, 53 express wagons, 214 horses and mules, 84 Express horses, 38 extra tenders for locomotives, 3 dirt scows, 1 sweeping car. The company's cars, &c., foot up 31,673.

There were used on the road 196,603 gallons of oil at a cost of $69,589, and tallow, lard, grease and cotton waste at a cost of $62,659. Of coal, 243,122 tons, and of wood 6,726 cords were used. The expenses of all kinds in the transportation department amounted to $4,418,215 87.

During the year 59 people were killed, 44 of whom were strangers, and 79 were injured, 33 of whom were strangers. 160 cars were broken. There were 70 accidents, and 149 cattle were killed.

Pittsburg, Titusville and Buffalo Railway.

The Oil Creek and Allegheny River Railroad Company, which was recently sold on its consolidated or second mortgage of $1,100,000, and brought in by a committee representing the several interests in the company, met in Philadelphia on the 1st inst., for reorganization. Thomas H. Dudley was elected president, and John Scott, C. D'Invilliers, William M. Carter, John S. Ritter, James H. Campbell and Joseph C. Herr directors. The title resolved on for the new organization is, "The Pittsburg, Titusville and Buffalo Railway Company," the capital of which is to be $5,000,000, and new stock to that amount is to be issued to the present holders of Oil Creek stock, being $50,550 more than the authorized capital of the old company. The officers of the new company are also authorized to issue 7 per cent. bonds to the amount of $1,550,000, the said bonds to be delivered to creditors known as class "A." Income 6 per cent. bonds to the amount of $340,000 are also to be issued to creditors known as class "C." A mortgage on all the property of the company is to be made, in trust to the Fidelity Insurance Company, to secure the mortgage of $1,550,000 in favor of creditors in class "A." There is a previous first mortgage of $2,580,000, to which the road and its branches were sold subject.

☞ The officers of the Chicago, Saginaw and Canada Railroad, recently elected, are: President, W. J. Kelly, of Philadelphia; Secretary, J. A. Elwell, of New York; Treasurer, E. P. Ferry, Grand Haven, Mich.; Solicitor, F. A. Nims, of Muskegon; Managing Director, B. Richardson, of New York.

Railroads of Maine.

From the report of the Railroad Commissioners of this State, recently submitted to the Legislature, we learn that the roads and rolling stock are generally in good condition, while serious accidents have not been of so frequent occurrence as in years past. The total mileage of railroads is 986,88, being about one mile of railroad to each 33 square miles of territory, to each $231,000 of property, and to every 644 of population.

The Consolidated European and North American Railway embraces the European and North American Railway in Maine, extending from Bangor to the State line, 114 miles, and the "Western Extension" in New Brunswick, extending from Fairville Station, near St. John, to Vanceboro', 88 miles. From the terminus at Fairville Station passengers and freight reach the city via the Carlton branch of three miles, and ferry across the river of one-half mile. The contract of consolidation was December 1, 1872. The consolidated road operates the Bangor and Piscataquis road, from Oldtown to Abbott—51.8 miles—under contract of lease, but which is practically a purchase; and the Bucksport and Bangor road, from Bucksport to Bangor—18.8 miles—under lease for five years from Dec. 12, 1874, being 275 miles in all. The European and North American Railway is in very fair and safe condition; rolling stock in fair condition and adequate. The Bangor and Piscataquis branch is in good repair. The earnings of the Consolidated European and North American Railway and the Bangor and Piscataquis Railroad for the year ending Sept. 30, 1875, were $676,051 81; operating expenses, $350,989 58. Cost of the Consolidated European and North American road, $10,405,403 10; cost of equipment, $669,116 78 Cost of Bangor and Piscataquis road, $1,213,954 55; cost of equipment, $110,200 07. The Consolidated European and North American Railway failed last fall, and passed into the management of B. E. Smith, the surviving trustee, who now runs the road in the interests of its creditors. The Commissioners recommend a change of gauge. The Bucksport and Bangor Railroad is not yet entirely finished, although trains are running over it. The cost of the road, exclusive of interest and discounts, and the construction of the wharf at Bucksport, has been so far $590,580. It is leased to the European and North American Railway Company at a rent of 40 per cent. of the earnings, which for the past year were $20,000. Funded debt of the road $379,000 sold, of the issue of $100,000 authorized. Floating debt $80,000, exclusive of liability for depot grounds at Bucksport.

The Consolidated Maine Central Railroad and its branches, under admirable management the past season, has been operated with great regularity and safety. The two main lines are, with two or three exceptions, in excellent condition. A large amount of new steel and iron rails, with new ties, have been laid in the track, considerable masonry rebuilt, and new structures added. The net earnings will compare favorably with preceding years.

The Dexter and Newport Railroad, extending from Dexter to Newport, is 14 miles in length The track and road-bed is well maintained. The road is an important feeder to the Maine Central, doing a remunerative business, and paying a fair interest on the investment of $300,000, the cost of construction.

The Belfast and Moosehead Lake Railroad, extending from Belfast to Burnham, 33¼ miles, is in fair condition. It is operated by the Maine Central Railroad Company.

The Androscoggin Railroad, extending from Brunswick to Leeds Junction, 28 miles, with branch from Crowlers' Junction to Lewiston, 5 miles; and the Leeds and Farmington Railroad, Leeds Junction to Farmington, 27¾ miles—in all 70¼ miles,—is leased and operated by the Maine Central Railroad Company.

During the past year there has been laid in the track of the Maine Central and its branches 497 tons of steel and 1,956 tons of re-rolled iron rails; 10,893 rails have been repaired and relaid. Other important improvements have been made, including a large number of new buildings, one of which has been a new brick building at Portland for the general offices of the company. The rolling stock is in good condition.

The Atlantic and St. Lawrence Division of the Grand Trunk Railway takes rank among the first Railroads in the State. Of the 82 miles in Maine, 47 are laid with steel rails. The bridges generally are of iron. Within the past two years extraordinary expenditures have been made, one very important one being the erection of an elevator at Portland, having a capacity for 200,000 bushels of grain, and at which city they have accommodations for ocean-going vessels of 2,400 feet run of wharves, and for coasting vessels 1,000 feet. The work of rebuilding wharves and elevator has already cost $300,000.

The Houlton Branch Railroad extends from Debec Station on the New Brunswick and Canada Railroad, in New Brunswick, to Houlton in Maine. It is eight miles in length, three miles being in Maine. The business at Houlton is relatively large. Its trains are run with regularity.

The St. Croix and Penobscot Railroad extends from Calais to Princeton—main track 22 miles. It was commenced in 1850 and finished in 1856. The road is a good deal worn, but kept in such repair as to be safe for the kind of business it does, which is largely the transportation of sawed lumber from the mills to tide water. Passenger traffic light. The cost of construction was $569,000. Earnings the past year, $55,112 38. Cost of operating, $35,369 16. Funded debt, $217,700.

The Whitneyville and Machiasport Railroad is 7¾ miles in length, was built in 1842-'48, cost $100,000, and the object of its construction was to carry sawed lumber from Whitneyville to Machiasport for shipment. It has no passenger cars.

The Portland and Ogdensburg Railroad has 51 miles in Maine. It is expected that the road will become one of the main lines for the transportation of the produce of the West to the seaboard. The track is in good surface and line, and road-bed well ballasted and drained. The road is well constructed along the base of the White Mountains, between Bemis and the summit. Nearly three miles above Bemis there is an iron trestle bridge about 500 feet in length and 75 feet high, which is a model of symmetry and strength.

The Portland and Rochester Railroad extends from Portland, Me., to Rochester, N. H., 52 miles, where close connection is made with the Nashua and Rochester Railroad, and thence to New York. Distance from Portland, 326 miles. Length of road in Maine, 49¼ miles. Road well constructed, track very good.

The Boston and Maine Railroad has 44 miles of main track in Maine, admirably constructed and equipped. Its financial affairs are in excellent condition. There has been a net gain the past year of 156,994 passengers, and in freight a gain of 94,452 tons. Improvements have been made of an extensive and permanent character.

The Portland, Saco and Portsmouth Railroad runs from Portland to Portsmouth, N. H., distance 52 miles, and is operated by the Eastern Railroad Company. About 30 tons of steel and 900 tons of iron rails have been laid the past year.

The Portland and Oxford Central Railroad has not been operated the past year, having gone to ruin.

The Lewiston and Auburn Railroad, 5¼ miles in length, is leased to the Grand Trunk Railway Company.

The Portsmouth, Great Falls and Conway Railroad, Conway Junction in Berwick, Me., to North Conway, N. H., 71 miles—in Maine, 4¼ miles—is in fair condition.

The Somerset Railroad, from West Waterville to Anson, 25 miles, is in good order for traffic.

The Knox and Lincoln Railroad, from Bath to Rockland, 49 miles, is in good condition.

The Aroostook River Railroad is the corporate name of the extension of the New Brunswick Railroad, three miles into the State from the boundary to the village of Fort Fairfield. It is proposed to extend the road to Caribou. It is a narrow gauge road, 3½ feet.

From the tables and returns made the past year of the several railroad corporations, the following information is gleaned:

ATLANTIC AND ST. LAWRENCE.

Capital stock, $5,000,000. Whole cost of road, $8,484,000. Indebtedness, funded, $3,484,000. Whole cost of operating, $1,104,266 68. Number of through and way passengers, 171,864. Number of miles run by passenger trains, 249,017; freight and mixed trains, 592 989, Whole number of stockholders, 269; number who reside in the State, 123. Amount of each dividend, 2 of 3 per cent. Number of employes of every sort, 288.

BELFAST AND MOOSEHEAD LAKE.

Capital stock, $950,000; amount called and paid in, $725,000. Whole number of stockholders, 211. Number who reside in the State, 206.

BOSTON AND MAINE.

Capital stock, $7,000,000; amount called and paid in, $6,921,274 52. Whole cost of road, $9,442,550 45. Indebtedness, $490,139 36; dues, $1,064,516 39. Whole cost of operating, $1,780,761 70. Number of through and way passengers, 4,906,779. Amount of receipts from passengers and freight, $1,848,556 93; from passengers and freight brought to the road by other railroads, $322,002-12. Number of miles run by passenger trains, 1,033,924; by freight trains, 497,909; mixed trains, 44,742. Whole number of stockholders, 4284; number who reside in the State, 230. Amount of each dividend, $280,000. Number of employes of every sort, 1600.

BUCKSPORT AND BANGOR.

Capital stock, $316,100; amount called and paid in, $276,438 25. Whole cost of road, $590,580 41. Whole number of stockholders, 117; number who reside in the State, 112. Funded debt, $379,000; floating, $80,000.

DEXTER AND NEWPORT.

Amount of capital stock called and paid in, $122,000. Whole cost of road, $300,000. Whole number of stockholders, 1 220; number who reside in the State, 1,212. Amount of dividend, 3 per cent.

EUROPEAN AND NORTH AMERICAN.

Capital stock, $10,000,000. Indebtedness, $6,550,000. Whole cost of operating $350,989 58 Number of through passengers, 61,380; way passengers, $208,868. Amount received from passengers, $273,883 18; property, $303,029 18; mails, $29,813 49; other sources, $79,326 01. Number of miles run by passenger trains, 217,695; freight trains, 152,385. Whole number of stockholders, 344; number who reside in the State, 215.

KNOX AND LINCOLN.

Capital stock, $2,000,000; amount called and paid in, $364,580. Whole cost of road, $2,579,532 53. Indebtedness, city and town bonds, $2,395,000. Whole cost of operating, $77,417 40. Number of through and way passengers, 93,214. Amount of receipts from passengers and freight originating along the line of the road, $51,726 44; from passengers and freight brought to the road by other railroads, $84,538 35. Number of miles run by passenger trains, 64,872; by freight trains, 36,713; other trains, 5,346. Whole number of stockholders 252. Number who reside in the State, 243. Number of employes, 78.

MAINE CENTRAL.

Capital stock, $5,000,000; amount called and paid in, $3,587,000. Whole cost of road, $9,962,419 58. Indebtedness, bonds and bills payable, $9,005,123 35. Number of through and way passengers, 779,408. Amount received from passengers, $817,743 86; property, $877,347 16; mails, $52,427 70; other sources, $39,859 24. Number of miles run by passenger trains, 517,993; freight trains, 407,393; mixed trains 19,210; other trains, 293,248; whole number of stockholders, 641. Number who reside in the State, 500.

PORTLAND AND OGDENSBURG.

Capital stock, $2,000,000; amount called and paid in, $1,051,346 31. Whole cost of road, $2,942,185 98. Indebtedness, $216,791 99; dues, $60,598 64. Whole cost of operating, $123,709 45. Amount of receipts from passengers, $74,963 63; property, $94,560 29; mails, $6,507 15; other sources, $13,842 60. Number of miles run by passenger trains, 75,207; freight trains, 12,144; mixed trains, 40,552; other trains, 33,013. Whole number of stockholders, 232; number who reside in the State, 223. Number of employes of every sort, 213.

PORTLAND AND ROCHESTER.

Capital stock, $1,000,000; amount called and paid in, $636,111 86. Whole cost of road, $1,933,173 27. Indebtedness, $700,000 mortgage; city of Portland, $450,000; $350,000 of equal lien. Number of through and way passengers, 148,465. Amount received from passengers, $61,229 91; property, $86,528 48; mails, $3,119 50; other sources, $3,052 79. Number of miles run by passenger trains, 90 726; freight trains, 82,448. Number of employes of every sort, 130.

PORTLAND, SACO AND PORTSMOUTH.

Capital stock, $1,500,000; amunot called and paid in, $1,500,000. Cost of road, $2,226,612 50. Indebtedness, notes, $250,000; payable by Eastern Railroad, $726,612 50. Number of through and way passengers, 197,067. Receipts from passengers, $152,677 74; property, $230,575 65; mails, $14,715 33; other sources, 12,702 04. Number of miles run by passenger trains, 148,320; freight trains, 148,956; mixed trains, 4,695; other trains, 77,001. Whole number of stockholders, 1,485; in the State, 99. Amount of each dividend, $75,000. Number of employes 329.

SOMERSET.

Capital stock, $2,500,000; amount called and paid in, $801,899. Whole cost of road, $618,890. Indebtedness, floating debt, $56,025; bonds, $222,700. Whole cost of operating, $16,767 79. Number of through and way passengers, 6,303. Receipts from passengers and freight originating along line of road, $7,149 53; passengers and freight brought to the road by other railroads, $7,497 33. Number of miles run by mixed trains, 11,752. Whole number of stockholders, 120; number who reside in the State, 119. Number of employes of every sort, 26.

ST. CROIX AND PENOBSCOT.

Capital stock, $2,000,000; amount called and paid in, $100,000. Whole cost of road, $569,000. Indebtedness, dues, $12,262 59. Whole cost of operating, $35,369 16. Number of through and way passengers, 14,342. Receipts from passengers and freight, $52,755 38. Number of miles run by freight trains, 3,278; mixed trains, 27,298. Whole number of stockholders, 64; resident in the State, 25. Number of employes of every sort 37.

WHITNEYVILLE AND MACHIASPORT.

Capital stock, $100,600; amount called and paid in, $100,000. Indebtedness, none. Whole number of stockholders, 6; in the State, 2.

The Commissioners refer to the subject of rail road profits, and suggest to managers the experiment of giving employes a direct interest in their roads. The introduction of the co-operative principle, they think, would have the advantage of stimulating operatives to greater exertion, thus reducing the cost of labor, and of making em ployes more vigilant, thus lessening the chances of accidents.

The Commissioners conclude by referring to the importance of having railroad corporations make their returns in a manner that will show their resources and liabilities besides the statistical information now furnished. They give it as their opinion that "the more detailed and com plete the returns are made the better, and the more strictly obedience to the calls of the Com missioners for information is enforced the better for the welfare of the roads, their stockholders and their creditors."

They also suggest that instead of the manner now provided by statute for the assessment of damages for land taken for the location of railroads or for depot grounds, authority be given the Commissioners to impose such assestments.

Anthracite Coal Trade.

The following is a comparative statement of the number of tons of anthracite coal transported by the prominent carrying companies during the years 1874 and 1875:

	1874.	1875.
Del. and Hudson Canal	2,399,417	3,056,479
Pennsylvania Coal Co.	1,338,663	1,368,207
Central R. R. of New Jersey	2,972,287	2,661,535
Belvidere Division	1,227,900	767,019
Del., Lack. and Western	2,570,437	3,326,901
Philadelphia and Reading	6,348,812	5 505,454
Lehigh Valley	4,150,659	3,277,571
Pennsylvania and New York	714,030	748,072
Shamokin Division	590,120	768,873
Summit Branch Railroad	446,462	523,060
Total	22,758,787	22,003,171

Of the above named companies the Delaware and Hudson Canal, the Pennsylvania Coal Company, the Central of New Jersey, the Delaware, Lackawanna and Western, the Shamokin, the Belvidere Division and the Summit Branch end their years on the 31st of December, while the Reading Railroad, the Lehigh Valley Railroad and the Pennsylvania and New York Railroad end their coal year on the 30th of November.

The Early History of Railroads.

MR. EDITOR: We have made such rapid advances in Railway construction, in this country as well as in Europe, that there are many living who are contemperaneous with the very conception and inception of railways as a means of transportation. Notwithstanding the fact of the nearness of their advent, it is astonishing how rapidly we are losing sight of many leading and interesting circumstances connected with early railroad history, and even the cyclopedias and railway journals fail to compile and note more than a small part of the great mass of matter that would be interesting in this connection.

In the course of an investigation recently for matters relating to the early history of railroads west of New York and the Allegheny Mountains, the following, relating to "steam railroads" in Michigan, was ascertained from the Hon. S. S. Cobb, Commissioner of Railroads for that State. It may interest your readers:

The Michigan Central, Detroit to Ann Arbor, was opened for 39 miles in January, 1840.

The Erie and Kalamazoo, now a portion of the Lake Shore and Michigan Southern, Toledo to Adrian, 33 miles, in 1836.

The Detroit and Pontiac, now Detroit and Milwaukee, from Detroit to Pontiac, 24 miles, in 1840.

The Palmyra and Jackson, now a portion of the Lake Shore and Michigan Southern, was completed 12 miles north from Palmyra, in 1838.

So it will be seen that in 1840 there were four Railroads operating over 100 miles by steam power, at that early day. The Michigan Central was operated with steam power as early as 1836 or 1837, from Detroit to Ypsilanti, thirty miles. The Michigan Southern Railroad, from Monroe to Adrian, was opened with steam power in 1842.

The engines were light, weighing from eight to twelve tons each, but were enormous when contrasted with the earliest engines, to wit: The Rocket, by Stephenson & Booth, in 1829, four and a quarter tons, and the locomotive constructed by Peter Cooper, at Baltimore, weight one ton, in 1830. The latter was not only the first locomotive for railroad purposes built in America, but the first one used for transportation of passengers in this country. Contrast the early Michigan locomotives of 1840, again with some of those now in use, weighing respectively thirty, forty, fifty, sixty, and even seventy-five tons, and the change is more wonderful than the former suggested contrast. Models and engines of these several patterns exhibited on the ground at the Centennial Exposition would attract great attention, and in no other way could the vast improvement in railway construction be more strikingly illustrated. The Michigan Central Railroad still retains for use in its yards at Michigan City a diminutive locomotive numbered two, said to be the original No. 1 of that road, and bought from the State when the corporation succeded the State in ownership. This would be an interesting relic at the Centennial if it retains any of the leading features of the original, even if it has been reconstructed as numerously as the traditional jack-knife. The Centennial Commissioners should correspond with Mr. Joy.

This sketch has grown into larger proportions than intended, but it has called up many associations of the earlier history of railroads in this country that may form subjects for further communications.

W.

☞ A contract between the Poughkeepsie Bridge Company and the American Bridge Company has been signed, by the terms of which the latter company is to construct the projected pier bridge across the Hudson River at Poughkeepsie, according to the terms of the charter of the company.
